

Current Funding & Future Priorities

Nutrition / Wellness (NOFO, scoring and awards will be done by DPBH)

Purpose of Funding:

Align and enhance collaboration efforts to address multiple goals in DHHS 2018 Food Security in Nevada: Nevada’s Plan for Action:

- Maximize distribution of fresh foods to include fruits, vegetables, dairy and meats;
- Support client-centered strategies that increase access to nutrition programs and resources that address the determinants of hunger; and
- Serve all Nevada counties by developing statewide delivery.

And must address one (1) of the five (5) key principles of the DHHS Office of Food Security:

1. Provide individuals and families with a sufficient amount of food resources to meet their immediate needs defined as 1.2 pounds;
2. Link individuals and families with income and other supportive services to provide a foundation for families to stabilize and move toward economic self-sufficiency;
3. Create a more collaborative, organized, and innovative network of agencies in local communities working together on food security and family self-sufficiency;
4. Provide outreach to people who need food assistance but lack access; and
5. Provide education to ensure that participants understand how to prepare fresh foods, including cooking methods for food distributed.

Purpose of Funding:

Provide direct services to individuals with disabilities and limited access, in one (1) of the following categories:

1. Adaptive Resources with Case Management may include adaptive housing and/or assistive technology. Adaptive housing services should include appropriate accommodations to and modifications of any space used to serve, or to be occupied by, individuals with significant disabilities. Assistive technology should include equipment or systems to assist people with disabilities to increase, maintain or improve functional capacity. If a policy exists for reuse or recycling of equipment, this information should be included in the narrative section of the application.
2. Life Skills Programs with Case Management to teach persons with disabilities skills that help them live as independently as possible in the community. Proposals may cover one or more of a broad range of needs including, but not necessarily limited to:
 - Job training and preparation;
 - Understanding and compensating for a new disability (e.g., adjusting to blindness or low vision);
 - Developing skills in areas such as personal care, coping, financial management, social skills, household management, and utilizing public transportation; and
 - Education about community resources and activities.
3. Intermittent Support Services for children with complex development and behavioral needs.
4. Transitional Housing projects must provide comprehensive housing and supportive assistance to persons with disabilities and their families to transition them to stable housing and self-sufficiency. Programs should link with other service providers to select appropriate clients, identify appropriate transitional housing for clients, and facilitate transition to ensure continuous housing for the client.
5. Transportation Services assist individuals with disabilities in getting to medical appointments, work, shopping centers, etc.
