THE STATE BOARD OF HEALTH**

**LCB File No. R117-05**

September 28, 2005

EXPLANATION – Matter in *italics* is new; matter in brackets ~~[omitted material]~~ is material to be omitted.

AUTHORITY: §1, NRS 449.037.

A REGULATION relating to medical facilities; eliminating the requirement that coverage of insurance for liability must be verified when the annual application for a license to operate a hospital is submitted; and providing other matters properly relating thereto.

**Section 1.** NAC 449.307 is hereby amended to read as follows:

449.307 1. A hospital must be operated and conducted in the name designated on the license, with the name of the person responsible for its operation also appearing on the face of the license. The license is not transferable.

2. Each hospital must retain proof that it is adequately covered against liabilities resulting from claims incurred in the course of operation. ~~[Liability coverage must be verified at the time of the annual application.]~~

3. Except as otherwise provided in this subsection, separate licenses are required for hospitals which are maintained on separate premises even though ~~[they]~~ *the hospitals* are under the same management. The provisions of this subsection do not apply to outpatient departments, clinics or separate buildings on the same grounds.

4. A separate license is not required for the provision of special services within a hospital. This subsection does not relieve a hospital to which a special service is being added from the requirement of obtaining the approval of the Division to amend its license pursuant to NRS 449.087 before providing that service.
