

## 2007-2008 Funded Projects

Forty-five applications were submitted to the Trust Fund for Public Health. Forty eligible proposals requested a combined total of \$3,991,712. Based on information provided by the applicants, twenty-one applications addressed promotion of public health and programs for the prevention of disease or illness; seven addressed research on issues related to public health; and twelve provided direct health care services to children and senior citizens.

Following the evaluation process, fifteen applicants were funded:
