#### To Grant Review Team:

On behalf of the International Center for Assault Prevention Advisory Board and its worldwide CAP Regional Training Center Network, we would like to lend our support to the work of the *Child Assault Prevention (CAP) Project of Washoe County*.

CAP of Washoe County has been the ICAP Regional Training Center of Northeastern Nevada since 1984. Under the expert leadership of Executive Director, Rebecca LeBeau, the project has trained thousands of children, parents and staff in CAP's empowering message- that all children, have basic human rights to a safe body free of abuse, bullying and violence.

Director LeBeau and her agency has provided this strength based message throughout the schools of Washoe County, the second most densely populated county in Nevada- as well as to suburban and rural schools alike.

We at ICAP, are especially proud of their work with native populations and rural communities. Knowing that abuse and addictions often thrive in isolation in communities of rural America, it is so reassuring to know that Washoe County CAP is diligently providing protective strategies and resources which reduces this isolation, potential trauma and strengthens these families and their children.

As a network of prevention specialists, we encourage you to continue your support of this most worthy project of Washoe County CAP, as they seek to help more children and families be *Safe, Strong and Free*.

  
Cheryl Mojta  
Director of Operations

  
Jeannette Collins  
Director of Curricula
