Source: 2009-2011 personal income per capita is from the U.S. Bureau of Economic Analysis, Table SA1-3 Personal Income Summary. For Nevada, the 2012-2020 forecast of personal income per capita uses Moody's Analytics (Economy.com) September 2012 baseline projection of personal income and the Nevada State Demographer's October 2012 projection of population. For the US, the personal income per capita projection is from Moody's September 2012 baseline forecast.

FMAP Calculation

1. For each state, calculate the square of the three year average per capita personal income. (For the FFY2014 FMAP, we would take the average of 2009, 2010, 2011.)
2. Do the same thing for the US.
3. Find the ratio of (1) and (2) from above.
4. Multiply the number from (3) by 45%.
5. The FMAP is 1 - (4), but it cannot be below 50% or above 83%.

Enhanced FMAP

The Children's Health Insurance Program (CHIP) uses an enhanced FMAP. The match is calculated by reducing each state's Medicaid share by 30%. The minimum rate is 65.00

Blended FMAP for State Fiscal Years 2003-2020

State Fiscal Year	FMAP	Enhanced (CHIP) FMAP	New Eligibles FMAP
FY03	51.79%	66.25%	
	52.53%	66.77%	
FY04	54.30%	68.01%	
	55.34%	68.74%	
FY05	55.66%	68.96%	
FY06	55.05%	68.53%	
FY07	54.14%	67.90%	
FY08	52.96%	67.07%	
FY09	50.66%	65.46%	
	61.11%	72.78%	
FY10	50.12%	65.08%	
	63.93%	74.75%	
FY11	51.25%	65.87%	
	57.77%	70.44%	
FY12	55.05%	68.54%	
FY13	58.86%	71.20%	
FY14	62.26%	73.58%	100.00%
FY15	63.54%	74.48%	100.00%
FY16	63.50%	74.45%	100.00%
FY17	62.88%	74.02%	97.50%
FY18	62.19%	73.53%	94.50%
FY19	61.32%	72.93%	93.50%
FY20	60.15%	72.10%	91.50%

NOTE: The green cells reflect a 2.95% increase for the period April 2003 through June 2004. The blue cells reflect the ARRA stimulus adjusted FMAP for October 2008 through December 2010. The FMAP values for FY14 through FY20 are projections.

Increased FMAP for Newly Eligible Mandatory Individuals (ACA Section 2001)

“(y) INCREASED FMAP FOR MEDICAL ASSISTANCE FOR NEWLY ELIGIBLE MANDATORY INDIVIDUALS.—

“(1) AMOUNT OF INCREASE.—*[Replaced by section 1201(1)(B) of HCERA]* Notwithstanding subsection (b), the Federal medical assistance percentage for a State that is one of the 50 States or the District of Columbia, with respect to amounts expended by such State for medical assistance for newly eligible individuals described in subclause (VIII) of section 1902(a)(10)(A)(i), shall be equal to—

“(A) 100 percent for calendar quarters in 2014, 2015, and 2016;

“(B) 95 percent for calendar quarters in 2017;

“(C) 94 percent for calendar quarters in 2018;

“(D) 93 percent for calendar quarters in 2019; and

“(E) 90 percent for calendar quarters in 2020 and each year thereafter.

Nevada Data & Key Comparisons

Nevada Department of Health and Human Services, Nevada Data & Key Comparisons

NOTE: The data in this document comes from many sources. For the sake of consistency, a uniform ordinal ranking system has been adopted, with 1 indicating the best ranking and 50 indicating the worst. Where relevant, the final column of each table contains an icon to indicate how the ranking has changed from the previous year: improvement (^), worsening (v), or no change (=).

Population/Demographics

- Nevada's July 1, 2011 estimated population is 2,723,322. (U.S. Census, American Community Survey)
 - By Gender: Males 50.4 percent, Females 49.6 percent. (U.S. Census, American Community Survey)
 - By County: Clark 72 percent, Washoe 15 percent, Carson City 2 percent, and Balance-of-State 11 percent. (Nevada State Demographer, Estimates by County)
- Population growth** - From 2010 to 2011 Nevada is the 25th fastest growing state. From 2010 to 2011 it was the 27th fastest growing state. It had been among the top four fastest growing states for each year from 1984-2007. (U.S. Census)
- Age distribution** - Nevada's population distribution varies slightly compared to the U.S. average. (U.S. Census)

Population by Age	Under 5 years	5 to 17 years	18 to 24 years	25 to 34 years	35 to 44 years	45 to 54 years	55 to 64 years	65 to 74 years	75 years and over
Nevada	7%	18%	9%	14%	14%	14%	12%	8%	5%
United States	6%	17%	10%	13%	13%	14%	12%	7%	6%

- Growth in school enrollments has accelerated slightly. Charter school enrollment has grown significantly for the last school year with an added boost from virtual schooling and growth in Clark County. (Nevada Department of Education)

Enrollment by School District	2007-08 School Year		2008-09 School Year		2009-10 School Year		2010-11 School Year		2011-12 School Year

Nevada Department of Health and Human Services, Nevada Data & Key Comparisons

- Nevada's racial mix differs from the U.S. average. (*U.S. Census*)

Population by Race	White, not Hispanic Origin	Hispanic or Latino	African American	Asian or Pacific Islander	Native American	Other/Mixed
Nevada	53%	27%	8%	8%	1%	4%
United States	63%	17%	13%	5%	1%	3%

- Nevada's minority population as a share of total population exceeds the U.S. average. (*U.S. Census, Annual Population Estimates, 2011 ACS*)

Minority Population		2002	2003	2004	2005	2006	2007	2008	2009	2010	2011
Nevada	%	36%	37%	39%	40%	41%	42%	43%	44%	46%	47%
United States	%	32%	32%	33%	33%	34%	34%	34%	35%	36%	37%

Economy

- In 2011, Nevada's **personal income per capita** was \$36,964, ranking 30th among states. The per capita income for the U.S. as a whole was \$41,560. The U.S. average is 9% higher than Nevada. From 2003 thru 2007 Nevada's **personal income per capita** exceeded the U.S. average due to our outsized housing boom. (*U.S. Bureau of Economic Analysis*)
- The Kaiser Family Foundation measures **state economic distress** by taking into account the number of foreclosures, the change in the unemployment rate, and the change in the number of people receiving food stamps. Nevada's current ranking is 23rd due to positive changes in the foreclosure rate and the decrease in food stamp growth. Nevada is now 45th in foreclosure rate (sixth highest) after leading the nation for many years. Nevada ranked 1st in the largest drop in unemployment rate among all 50 states. Even though Nevada ranked high in the **unemployment rate change**, Nevada still has the highest **unemployment rate level** in the country (*Kaiser Family Foundation, State Health Facts*)
- In July 2012, Nevada's **foreclosure rate** was ranked 45th (the 6th highest of all states), with 1 of every 415 homes currently under foreclosure. California was highest with 1 of every 325 homes in foreclosure followed by Arizona with 1 in every 346 homes in foreclosure. The U.S. average was 1 of every 686 homes. (*RealtyTrac*)
- Nevada's 6 month average **unemployment rate** is the highest in the nation. (*U.S. Bureau of Labor Statistics*)

Unemployment Rate		Mar-12	Apr-12	May-12	Jun-12	Jul-12	Aug-12	6 Month Average
Nevada	%	12.0%	11.7%	11.6%	11.6%	12.0%	12.1%	11.8%

United States	%	60%	60%	54%	56%	65%	67%	65%	66%	72%	

- Between June 2011 and June 2012, the number of Nevadan's receiving **food stamps** increased by 4.5 percent, ranking Nevada 34th in improvement nationwide. The national average year-over-year increase was 3.3 percent. (*Kaiser Family Foundation, State Health Facts*)
- During 2011, a lower percentage of Nevada's **families received food stamps** than average for the U.S. (*U.S. Census, American Community Survey*)

Households Receiving Food Stamps During Last 12 Months		2002	2003	2004	2005	2006	2007	2008	2009	2010	2011
Nevada	%	5%	4%	4%	4%	4%	4%	4%	5%	10%	11%
United States	%	6%	7%	7%	8%	8%	8%	8%	8%	12%	13%

- For FFY11, Nevada's **average monthly food stamp benefit per person** was \$124.36 and **per household** was \$264.88. The national averages were \$133.85 and \$283.99 respectively. (*U.S. Dept. of Agriculture, Food Stamp Program State Activity Report*)

Child Support Enforcement

- The U.S. Dept. of Health and Human Services Office of Child Support Enforcement measures states using five **performance indicators**. Nevada made improvements in three of the five performance indicators. (*U.S. Dept. of Health and Human Services, Administration for Children and Families, Office of Child Support Enforcement*)

Funding

- Nevada's state and local tax burden per capita is lower than the national average. Nevada's state and local tax rate (state and local tax burden per capita divided by income per capita) is one of the lowest in the nation. (*Tax Foundation, State/Local Tax Burdens, All States*)

Total State and Local Per Capita Taxes Paid		2001	2002	2003	2004	2005	2006	2007	2008	2009	
Nevada	\$ per capita	\$2,519	\$2,554	\$2,724	\$3,067	\$3,331	\$3,581	\$3,606	\$3,606	\$3,311	
	Tax Rate	6.9%	7.3%	7.6%	7.7%	7.4%	7.5%	7.4%	7.5%	7.5%	
	Rank	3	5	5	7	4	6	4	4	2	▲
United States	\$ per capita	\$3,200	\$3,156	\$3,254	\$3,466	\$3,734	\$4,018	\$4,270	\$4,384	\$4,160	
	Tax Rate	9.4%	9.5%	9.6%	9.6%	9.6%	9.7%	9.8%	9.9%	9.8%	

- Note that a rank of one indicates that state has the lowest tax burden.

- Nevada's state government tax collections per capita generally run about equal to the average of all other states. (Nevada along with Texas, Washington and Wyoming don't have individual or corporate net income taxes. Alaska, Florida and South Dakota have only corporate net income taxes, but not individual income taxes. All other states have both taxes.) (*U.S. Census, American Community Survey*)

State Government Tax Collections Per Capita		2002	2003	2004	2005	2006	2007	2008	2009	2010	2011	
Nevada	Per Capita	\$1,820	\$1,842	\$1,953	\$2,348	\$2,466	\$2,458	\$2,365	\$2,123	\$2,158	\$2,325	
	Rank	29	26	26	32	30	26	21	17	24	25	▼
United States	Per Capita	\$1,862	\$1,892	\$2,000	\$2,199	\$2,391	\$2,530	\$2,532	\$2,326	\$2,728	\$2,435	

- Note that a rank of one indicates that state has the lowest tax burden.

Nevada Department of Health and Human Services, Nevada Data & Key Comparisons

- Nevada receives lower **federal government expenditures per capita** than all other states. (*Consolidated Federal Funds Report and U.S. Census, American Community Survey*)

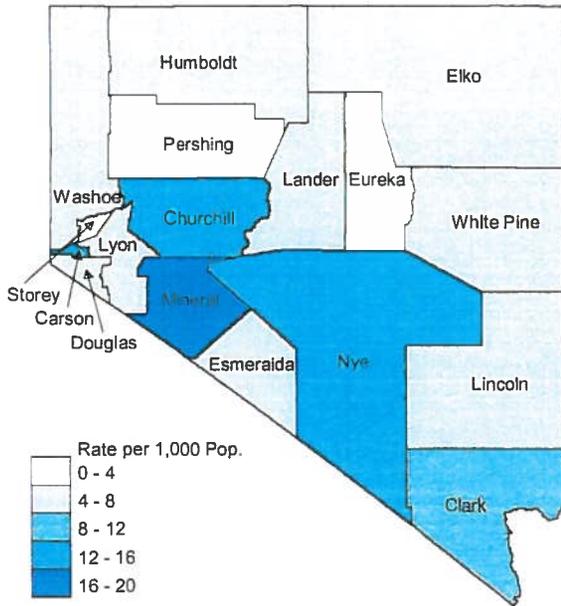

Federal Government Expenditures Per Capita		2002	2003	2004	2005	2006	2007	2008	2009	2010	
Nevada	Per Capita	\$4,940	\$5,192	\$5,469	\$5,288	\$5,852	\$6,032	\$6,638	\$7,148	\$6,986	
	Rank	50	50	50	50	50	50	49	50	50	=
United States	Per Capita	\$6,650	\$7,089	\$7,381	\$7,295	\$8,200	\$8,538	\$9,184	\$10,548	\$10,489

5.10 Supplemental Nutrition Assistance Program (SNAP)

Program: The purpose of SNAP is to raise the nutritional level among low income households whose limited food purchasing power contributes to hunger and malnutrition among members of these households. Application requests may be made verbally, in writing, in person or through another individual. A responsible adult household member knowledgeable of the household's circumstances may apply and be interviewed. The date of application is the date the application is received in the Division of Welfare and Supportive Services office.

Eligibility: The household's gross income must be less than or equal to 130 percent of poverty; the household's net income must be less than or equal to 100 percent of poverty to be eligible. Households in which all members are elderly or disabled have no gross income test. The resource limit for all households except those with elderly or disabled members is \$2,000; households with elderly or disabled members have a resource limit of \$3,250 (exceptions: one vehicle, home, household goods, and personal items).

Need Standard:

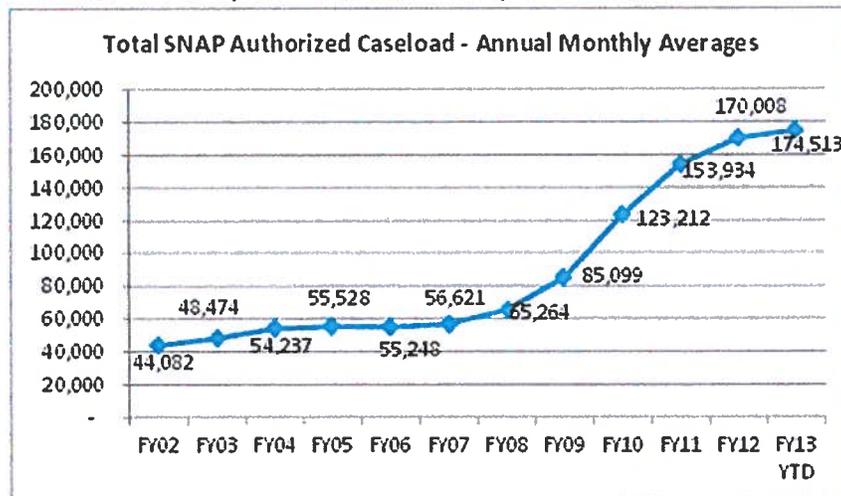

Household Size	200% of Poverty	130% of Poverty	100% of Poverty	Maximum Allotment
1	\$1,862	\$1,211	\$931	\$200
2	\$2,522	\$1,640	\$1,261	\$367
3	\$3,182	\$2,069	\$1,591	\$526
4	\$3,842	\$2,498	\$1,921	\$668
5	\$4,502	\$2,927	\$2,251	\$793
6	\$5,162	\$3,356	\$2,581	\$952
7	\$5,822	\$3,785	\$2,911	\$1,052
8	\$6,482	\$4,214	\$3,241	\$1,202

Comments:

The Food Stamp Program was renamed "Supplemental Nutrition Assistance Program (SNAP)" in October 2008. The SNAP case load has increased substantially since the start of the recession in December 2007 because of the high unemployment experienced in Nevada. A change in SNAP regulations effective 3/15/2009 made many households categorically eligible based on receiving a benefit which meets Purposes 3 and 4 for TANF and having a gross income limit of 200 percent of poverty. There is no further income or resource test.

Uninsured & the Affordable Care Act

The Moving Parts:

- Caseload growth without the impact of ACA;
- Impact on the state's uninsured population;
- FMAP vs. state share (Regular FMAP, Enhanced FMAP, and 100% Federal);
- Primary care physician rate increases;
- PMPM estimates;
- ACA caseload growth and medical costs;
- Medicaid/CHIP admin. costs;
- DWSS admin. costs;
- DSH impact (net state benefit impact);
- UPL/GME impact (net state benefit/voluntary contribution impact);
- Mental Health savings opportunity;
- County savings opportunities;
- Unanswered questions.

Presumptive Eligibility – ACA Section 2202

- **ACA Section 2202 Permitting hospitals to make presumptive eligibility determinations for all Medicaid eligible populations.**
- Social Security Act Section 1902(a)(47)
- (47) provide—
 - (A) at the option of the State, for making ambulatory prenatal care available to pregnant women during a presumptive eligibility period in accordance with section 1920 and provide for making medical assistance for items and services described in subsection (a) of section 1920A available to children during a presumptive eligibility period in accordance with such section and provide for making medical assistance available to individuals described in subsection (a) of section 1920B during a presumptive eligible period in accordance with such section and provide for making medical assistance available to individuals described in subsection (a) of section 1920B during a presumptive eligibility period in accordance with such section and provide for making medical assistance available to individuals described in subsection (a) of section 1920C during a presumptive eligibility period in accordance with such section;
 - (B) that any hospital that is a participating provider under the State plan may elect to be a qualified entity for purposes of determining, on the basis of preliminary information, whether any individual is eligible for medical assistance under the State plan or under a waiver of the plan for purposes of providing the individual with medical assistance during a presumptive eligibility period, in the same manner, and subject to the same requirements, as apply to the State options with respect to populations described in section 1920, 1920A, 1920B, or 1920C (but without regard to whether the State has elected to provide for a presumptive eligibility period under any such sections), subject to such guidance as the Secretary shall establish;

Affordable Care Act

The Governor's Recommended Budget (Gov Rec) includes \$218.9 million in expenditures in FY14 and \$549.6 million in FY15 (\$17.0 million and \$55.2 million in General Fund). This corresponds to an additional 343 FTE by the end of FY15.

ACA Mandatory Caseloads

These caseloads include: (1) individuals who are currently eligible but not served by Medicaid or Nevada Check Up, and (2) individuals who are eligible due to the modernized Modified Adjusted Gross Income (MAGI) eligibility criteria.

DISPROPORTIONATE SHARE HOSPITALS
(DSH),
UPPER PAYMENT LIMIT (UPL), AND
GRADUATE MEDICAL EDUCATION (GME)

Fiscal Year 2012 DSH Distribution

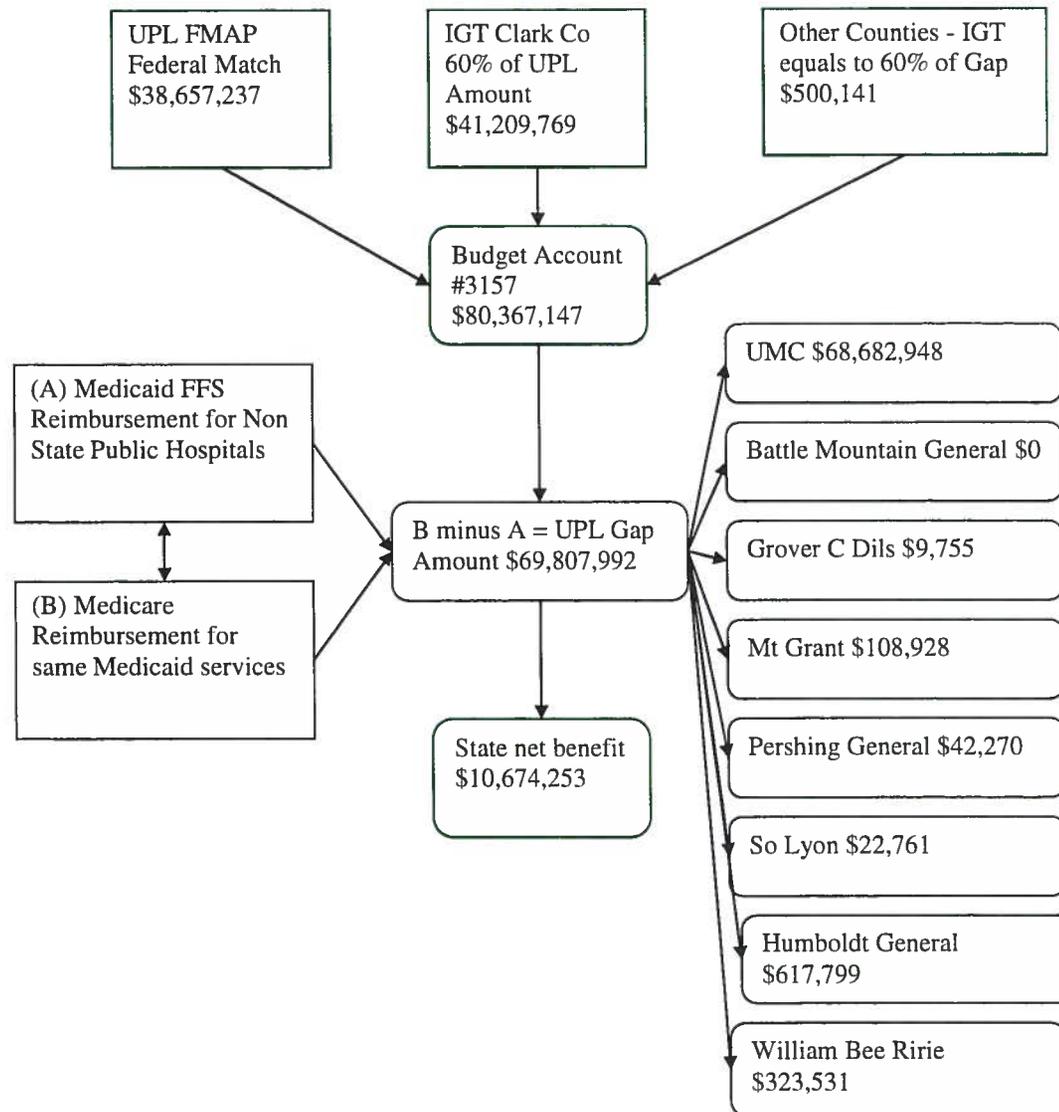

Disproportionate Share Hospital Program (DSH) in Nevada

- The DSH annual distribution is divided into five pools:
 - Pool A - Public hospitals in counties whose population is 400,000 or more (Clark County) receive \$66,650,000 plus 90% of the total DSH in excess of \$76,000,000.
 - Pool B - Private hospitals in counties whose population is 400,000 or more (Clark County) receive \$1,200,000 plus 2.5 percent of the total DSH in excess of \$76,000,000.
 - Pool C - Private hospitals in counties whose population is 100,000 to 399,999 (Washoe County) receive \$4,800,000 plus 2.5 percent of the total DSH in excess of \$76,000,000
 - Pool D - Public hospitals in counties whose population is less than 100,000 receive \$900,000 plus 2.5 percent of total DSH in excess of \$76,000,000
 - Pool E - Private hospitals in counties whose population is less than 100,000 receive \$2,450,000 plus 2.5 percent of total DSH in excess of \$76,000,000
- *Note: A State Plan amendment (SPA) is necessary to update the population cutoffs for these pools because Washoe County's population now exceeds 400,000.*

AB 580—Committee on Ways and Means (2011)

Sec. 47. 1. The Department of Health and Human Services may, with the approval of the Interim Finance Committee upon the recommendation of the Governor, transfer from the various divisions of the Department to an account which is hereby created within the State General Fund any excess money available to the divisions as a result of savings from not providing health and related services, including, without limitation, savings recognized by using a different source of funding to pay the providers of services if the persons previously served by a division no longer require the provision of services from the division of the Department.

2. Any money transferred to the account created by subsection 1, to the extent approved by the Centers for Medicare and Medicaid Services and authorized by the State Plan for Medicaid, must:

(a) Be used to pay administrative and related costs and the State's share of the cost for the expansion of the upper payment limit program as required by section 1 of this act.

(b) After being used to satisfy the requirements of paragraph (a), be reverted as follows:

(1) In Fiscal Year 2011-2012, \$2,500,000 of any excess money transferred to the account created by subsection 1 and remaining after the expansion of the upper payment limit program must be reserved for reversion to the State General Fund and must be reverted to that Fund not later than September 21, 2012.

(2) In Fiscal Year 2012-2013, \$7,500,000 of any excess money transferred to the account created by subsection 1 and remaining after the expansion of the upper payment limit program must be reserved for reversion to the State General Fund and must be reverted to that Fund not later than September 20, 2013.

(c) After being used to satisfy the requirements of paragraphs (a) and (b), be used, with the approval of the Interim Finance Committee upon approval of the Governor, to restore funding for:

(1) Rates paid to providers of Medicaid services; and

(2) Restore funding for residential support services for persons suffering from mental illness who are on a waiting list for such services.

3. The Director of the Department of Health and Human Services shall administer the account created by subsection 1.

Mental Health - General

NRS 433.354 Contracts for cooperation with governmental agencies and others. For the purposes of [chapters 433 to 436](#), inclusive, of NRS, the Department through the Division may cooperate, financially or otherwise, and execute contracts or agreements with the Federal Government, any federal department or agency, any other state department or agency, a county, a city, a public district or any political subdivision of this state, a public or private corporation, an individual or a group of individuals. **Such contracts or agreements may include provisions whereby the Division will render services, the payment for which will be reimbursed directly to the Division's budget.** Cooperation pursuant to this section does not of itself relieve any person, department, agency or political subdivision of any responsibility or liability existing under any provision of law.

(Added to NRS by 1975, 1594; A [1993, 2716](#))

Mental Health - Children

NRS 433B.220 Contracts for cooperation with governmental agencies and others. For the purposes of this chapter, the Department through the Division may cooperate, financially or otherwise, and execute contracts or agreements with the Federal Government, any federal department or agency, any other state department or agency, a county, a city, a public district or any political subdivision of this state, a public or private corporation, an individual or a group of individuals. **Such a contract or agreement may include provisions whereby the Division will render services, the payment for which will be reimbursed directly to the Division's budget.** Cooperation pursuant to this section does not of itself relieve any person, department, agency or political subdivision of any responsibility or liability existing under any provision of law.

Moves the certification of detoxification technicians to the Health Division. Clarifies statute concerning the authority to adopt regulations governing evaluation centers. (This was a "Policy - Substantive" bill that became a budget bill.)	Budget	3170, E801

**GOVERNOR'S RECOMMENDED
BUDGET
14/15 BIENNIUM**

Department of Health and Human Services
Governor's Recommended Budget
14/15 Biennium

GENERAL:

- **Total Gov Rec Budget** request for the 14/15 biennium equals \$7.4 billion, up from \$6.2 billion Legislative approved budget for the 12/13 biennium.
 - **State General Funds** requested equals \$2.066 billion, up from the \$1.930 billion appropriated for the 12/13 biennium. This is an overall increase in General Funds of approximately \$136 million.
 - **Federal funding (FMAP)** for the Medicaid program (and other programs) is projected to change significantly. The change in FMAP will result in a much higher percentage of costs being paid by the federal government.

FY12	=	55.05%
FY13	=	58.86%
FY14	=	62.26%
FY15	=	63.54%
- Economic conditions in the State (employment/unemployment, uninsured rates, per capita income, housing/foreclosure, etc.) have resulted in higher demand for public assistance and social services, specifically health care and food assistance.

ORGANIZATIONAL PLANS:

DHHS is recommending **changes to the organizational structure** of the Department.

- Public Health and Mental Health would be combined into a single Division within the Department. The revised organizational structure would include combined Administrative, Community, Clinical and Regulatory/Planning Services under four Deputy Administrators under one Administrator. Medical direction (Health Officer and Mental Health Medical Director) would also be consolidated.
- The current Division of Aging and Disability Services would receive and integrate five new budget accounts including Desert Regional Center, Sierra Regional Center, Rural Regional Center, Family Preservation Program, and Early Intervention Services. The goal is to integrate services for people with disabilities (along the lifespan) into a single Division. Services/programs now scattered over three Divisions would be combined to one.

- The Suicide Prevention Office would be transferred out of the DHHS Director's Office and integrated within the Public Health/Mental Health Division. DHHS also plans to stabilize funding for suicide prevention efforts through use of Tobacco Settlement Funding.
- The Nevada Check Up eligibility function would be transferred from the Division of Health Care Financing and Policy to the Division of Welfare and Supportive Services, where other health care related eligibility functions is currently administered.

CASELOAD GROWTH:

- **Caseload growth (M200 series)** with the DHHS programs is projected to cost \$421 million over the 14/15 biennium. \$170.4 million of the projected cost would need to be provided by the State General Fund.
- Following are the most significant caseload growth budgets (in State General Fund need):

Program	FY14	FY15	Total
Medicaid -Medical	\$49.7 mill	\$72.7 mill	\$122.4 mill
Medicaid -Admin.	2.5 mill	2.9mill	5.4 mill
Early Intervention Services	1.2 mill	4.6mill	5.8 mill
Desert Regional Center	4.8 mill	8.1 mill	12.9 mill
Sierra Regional Center	0.5mill	1.3 mill	1.8 mill
Welfare Aged and Blind Services	0.5 mill	0.8 mill	1.4 mill
Welfare Field Services 114 FTE (Eligibility)	2.8mill	3.4 mill	6.3 mill
Clark County Adoption Subsidies	2.3 mill	4.0mill	6.3 mill
Washoe County Adoption Subsidies	1.0 mill	1.5 mill	2.5 mill

STAFFING (FTE):

DHHS **staffing history and requested FTE** for the 14/15 biennium are as follows:

FY08	=	5,338
FY09	=	5,324
FY10	=	5,129
FY11	=	5,043
FY12	=	4,893
FY13	=	4,901

FY14 = 5,276
FY15 = 5,445

HEALTH CARE REFORM

The Affordable Care Act (ACA) as it relates to the Medicaid Program must be implemented effective January 1, 2014. The ACA includes mandatory and optional provisions. Governor Sandoval has elected to opt-in and expand Medicaid coverage to all eligible individuals with income under 138% of poverty.

The **mandatory provisions of the ACA** will cost \$116.6 million (\$23.8 million GF) in FY14 and \$212.7 million (\$63.6 million GF) in FY15. Mandatory costs include: information systems changes, Medicaid provider screening, administrative staff, the cost of medical payments for individuals currently eligible for Medicaid but not enrolled (assumes they will enroll), primary care physician rate increases through 12-31-14, added eligibility workers (174) to handle the growth, and some savings in Mental Health programs.

The **optional (or expansion) provisions** of the ACA will add an additional \$102.3 million in costs in FY14 and \$336.9 million in FY15 at **100% Federal Funding for medical costs** for newly eligible adults. The Medicaid Expansion will save the Nevada General Fund approximately \$9.9 million in FY14 and \$20.6 million in FY15 because of additional savings in the Mental Health Budgets. The expansion costs primarily relate to medical costs for the newly eligible population and the primary care physician rate increases for the last six months of the 14/15 biennium (paid at regular FMAP not 100% Federal).

DIRECTOR'S OFFICE BUDGETS

The Office of **Suicide Prevention** (4 FTE) will be transferred to the Health Division and integrated within the Bureau of Child, Family and Community Wellness (BA3222). Approx. \$500 thousand per year in Tobacco Settlement Funding will be used to replace expiring Suicide Prevention Grant funding and provide budget stability to the Office of Suicide Prevention.

Federal Grant Funding for the **Health Information Exchange (HIE)** will end in February 2014. The positions (4 FTE) associated with this project are eliminated. The activities associated with the Nevada HIE will be taken over by the private non-profit HIE created per NRS 439.588, which must be self-sustaining.

The **Problem Gambling Program** (BA3200) is funded from a \$2 per machine slot tax. Over the 12/13 biennium \$1 of the \$2 tax was "swept" to the General Fund to help offset budgetary shortfalls. During the 14/15 biennium the full \$2 tax is being restored. The Problem Gambling Program and the Advisory Committee for Problem Gambling (ACPG) will have use of approximately \$1.6 million per year to provide for administrative costs; and treatment, prevention and workforce development initiatives.

The **Governor's Office of Consumer Health Assistance (GOVCHA)** will be reduced from 15.5 FTE to 11.5 FTE (loss of 4 FTE) as a result of the loss of Health Insurance Exchange and United Health Settlement funding.

The **Indigent Accident Fund (IAF)/Supplemental Account** was "swept" to the GF for the past five fiscal years, totaling more than \$110 million. Very few claims (approx. \$6.8 million) have been paid to hospitals/other providers over this five year period. The Gov Rec Budget restores the full IAF/Supplemental Program and ends the "sweeping" of funds from this Account to the General Fund.

There is also ongoing discussion to try to re-purpose all or part of the IAF/Supplement funding, so Medicaid federal match can be obtained and increase funding (through rate increases) to Hospitals. The \$21 million/year in IAF/Supp funding could be matched with federal funds and result in \$56 million in payments to hospitals.

AGING AND DISABILITY SERVICES DIVISION

The State's **Long Term Care Ombudsman Program**, authorized by the federal Older Americans Act has been previously funded with Civil Monetary Penalty (CMP) funds. The Center for Medicaid/Medicare Services recently prohibited States from using CMP funds to support the Ombudsman Program. In order to keep this essential program available, approximately \$245 thousand per year in General Funds is budgeted.

The **Senior Rx and Disability Rx Programs will continue** to be funded with approximately \$4.9 million dollars per year in Tobacco Settlement Funding. As a result of the implementation of the Affordable Care Act (ACA) effective January 1, 2014, individuals currently being served by the Rx Programs with incomes below 138% of poverty will become Medicaid eligible and individuals with income between 138% and 400% will be eligible to purchase insurance through the Silver State Health Insurance Exchange (SSHIX). This change will reduce the need for Rx coverage, and allows the Program to **implement a Senior and Disability Dental Benefit Plan**. Legislative approval was given at the December 2012 IFC meeting to begin this program effective February 2013.

In the 14/15 biennium the Program expects to be able to serve 4,674 seniors and 895 disabled in the Rx programs and 845 in the Dental Benefit Plan.

The **Family Preservation Program** (a program that helps to keep disabled individuals living independently in their homes) is budgeted for an increase of 45 participants (growth from 602 in FY13 to 647 in FY15).

The **Rural Regional Center** budget includes \$1.1 to \$1.4 in added funding each year to increase Supported Living Arrangements (SLA's) by 31 placements (320 to 351) and Jobs and Day Training (JOT) by 42 placements (220 to 262). Waiting lists had to be established during

the 12/13 biennium as a result of over-estimated county revenue for services provided to children under NRS 435. This corrects that error, and will improve services to adult clients.

The Nevada Early Intervention Services Program is budgeted additional funding at \$1.2 million in FY14 and \$4.6 million in FY15 for caseload growth. The number of children served is projected to increase from 2,838 on June 30, 2012, to 3,255 of June 30, 2014, and 3,626 on June 30, 2015. The current 170 State Staff are all retained in the 14/15 biennium. Funding provided in the Adjusted Base Budget and Caseload Growth will be used to increase contracts with Community Providers and Contracted Specialists.

Home and Community Based Services are increased by caseload/demographic growth, with seven new FTE to support the necessary case management.

The Medicaid related Home and Community Based Waiver (**HCBW**) slots will increase from 1,713 to 1,771 (+58) in FY14 and from 1,771 to 1,830 (+59) in FY15.

The State funded Community Services Option for the Elderly (**COPE**) slots will increase from 51 at the end of FY12 to 59 in FY14 and from 59 to 61 in FY15.

The Medicaid related Assisted Living Waiver (**AL**) is not budgeted to increase (currently 54 slots are budgeted).

The **Autism Treatment Assistance Program (ATAP)** will receive an additional \$2.0 million in General Funds over the 14/15 biennium. \$1.8 million in FY14 and \$2.2 million in FY15 of Tobacco Settlement Funds are also earmarked to support Autism Services. Added funding will allow ATAP to increase services from 137 in FY13 to 236 by the end of FY14 and 341 by the end of FY15. Waiting lists will continue to exist (current wait list is 364), however this investment will increase child/families served by more than double (150%).

The **Independent Living (IL) Program** will increase from 216 slots to 300 slots in FY14 and to 360 slots in FY15. The waiting list for services is expected to decrease from 205 to 150.

Desert Regional Center is budgeted to receive 52 new FTE to support caseload growth (41 FTE) and to support the increased number of individuals with dual diagnosis requiring intensive I support at the on-campus Intermediate Care Facility (11 FTE). **Caseload growth** will require \$7.4 million in added funding in FY14 and \$14.1 million in FY15. SLA slots will increase by 115 in FY14 and 180 in FY15. JDT slots would increase by 314 and 399 respectively.

Sierra Regional Center is budgeted to receive 3.5 new FTE to support caseload growth, including new SLA slots of 42 in FY14 and 21 in FY15, new JDT slots of 33 and 16 respectively, and new Respite slots of 7 and 4. Funding to support caseload growth will require approx. \$0.5 million in FY14 and \$1.3 million in FY15.

DIVISION OF HEALTH CARE FINANCING AND POLICY

The DHCFP Administration budget includes many new initiatives that require funding:

- \$80,000 to contract with a security expert to perform a **risk assessment of the automated processing system.**
- \$100,000 per year to fund an **Electronic Health Record Provider Incentive Payment System** vendor to perform pre-payment eligibility verifications on qualified Medicaid providers.
- Two new staff to enhance claims recovery. **Recovery Audit Contractors (RAC)** identifies claims to be recovered by DHCFP. Added staff is needed to process recoveries (17,000 recoveries were processed in FY12).
- Approximately \$350,000 per year to contract for services related to Disproportionate Share Hospital (DSH) training for hospitals, MCO auditing and rate setting consultation.
- Two new staff to accommodate **increasing number of decision appeal/hearing requests.**
- Three new staff to support Care Management, Health/Medical Homes, and other ACA related components.
- \$9.7 million in FY14 and \$11.4 million in FY15 to support **administrative costs related to caseload growth.** Costs include Fiscal Agent payments, disability determinations, travel and operating.
- \$255,000 per year to fund information analysis provided by the Center of Health Information Analysis (CHIA) at the University System.
- \$5 million in FY14 and \$1.5 million in FY15 to fund changes related to the Management Information System (MMIS) in order to comply with the ACA.
- \$425,000 per year to fund a contractor to perform **screening of all new and existing Medicaid providers.** Section 455.436 of the 42 CFR mandates new database checks for providers.
- \$561,000 in FY14 and \$697,000 in FY15 to support allocation of costs for the Business Operation Solution (BOS) at the SSHIX.
- \$3.3 million in FY14 and \$1.1 million in FY15 to reprogram MMIS to interface with Health Information Exchanges (HIE's). Funding would be paid to the contracted Fiscal Agent to make system changes.

- \$1.7 million in FY14 and \$1.9 million in FY15 to fund Phase II of a three phase project to replace the current MMIS with a new system.
- \$1.9 million in FY14 and \$1.4 million in FY15 to implement the Transformed Medicaid Statistical Information System (T-MSIS).
- \$1.7 million in FY14 to pay the Fiscal Agent to program **MMIS to be able to implement cost-sharing capabilities.**

The Nevada Check-Up Program funding for caseload growth totals \$6.9 million in FY14 and \$17.4 million in FY15. Funding is also included for primary care physicians rate increases to match increases being provided in the Medicaid Program. The rate increases in the Check-Up Program total \$1.5 million per year.

The Medicaid Medical Payments budget (BA 3243) includes:

- **Mandatory rate increases** for free standing hospices, Federally Qualified Health Centers (FQHC), Rural Health Centers (RHC), Indian Health Services, pharmacy and managed care; totaling \$6.5 million (FY14) and \$21.2 million (FY15).
- **Caseload (Non-ACA related) growth** costs of \$131.8 million in FY14 and \$199.7 million in FY15.
- **Primary Care Physician Rate increases:**
 - 100% Federally Funded beginning 1-1-2013 through 12-31-14 = \$41.8 million (FY14) and \$25.1 million (FY15)
 - Federal/State funded 1-1-15 through 6-30-15 = \$25.1 million (\$8.9 million GF)
- Expansion of the **Waiver for Persons with Physical Disabilities** by an additional 175 slots (increases from 579 to 754), costing \$1.4 million in FY14 and \$3.8 million in FY15.
- Expansion of the **Mental Retardation and Related Condition (MRRC) Waiver** by approx. 250 slots (from 1,742 to 2,010), costing \$1.5 million in FY14 and \$5.3 million in FY15.
- Expansion of the **Home and Community Based Waiver for seniors** by 117 slots (from 1,713 to 1,830), at a cost of \$406 thousand in FY13 and \$1.2 million in FY15.
- Funding (expressed in Total dollars) to pay medical costs for three ACA related populations expected to enroll in Medicaid:

	<u>FY14</u>	<u>FY15</u>
Currently eligible but not enrolled (FMAP):	\$42.4 mill	\$132.4 mill

NV Check Up transfers (Enhanced FMAP):	\$7.6 mill	\$30.9 mill
New ACA Medicaid eligible (100% Federal):	\$96.3 mill	\$299.9 mill

- Savings of \$2.0 million (\$729,200 in GF) in FY15 from **Medicaid recipient cost-sharing**.

HEALTH DIVISION

The Health Statistics and Planning budget (BA 3190) includes a request to allow the Division to retain **Vital Records Fees**. The 2011 Legislature approved a fee funded budget for the Office of Vital Records; however, NRS 440.690 was not amended to permit the program to use the funds. A Bill Draft is being submitted to correct this omission.

The **Immunization Program** (BA 3213) includes two new initiatives. The first is to enhance the interoperability between electronic medical records (EMR's), Nevada's Immunization Registry (WebiZ), and the receipt of Health Level? data (HL7) into the Registry. The second is to enhance the sustainability of school located vaccinations. Federal funding of approx. \$340,000 supports these efforts. The Gov Rec budget also includes \$500,000 per year in General Funds to support improved immunization, specifically improved Pertussis vaccination.

Additionally, \$500,000 per year of Tobacco Settlement Funds is earmarked to support REMINDER/RECALL and Public Information Campaigns; and to fund a Childcare Immunization assessment project. The funds are earmarked in BA 3195, but a Budget Amendment or Budget Closing Adjustment is needed to receive the funds in BA 3213.

The **HIV/AIDS Program** is budgeted to receive an additional \$1.8 million per year in rebate funding to expand program activities.

DIVISION OF WELFARE AND SUPPORTIVE SERVICES

The **Welfare Administration** budget (BA 3228) includes 21 new positions to support caseload growth. The new FTE will provide information systems support, quality control activities, and administrative support. This includes 7 FTE for non-ACA related growth (M200), 8 FTE for the ACA growth known as "currently eligible but not enrolled" (M740), and 6 FTE for the ACA expansion population (E740).

The **Assistance to the Aged and Blind** budget includes additional funding of \$533,000 in FY14 and \$831,000 in FY15 to support caseload growth over the biennium.

The **Field Services** budget is where staff who determine eligibility for the many public assistance, health care, and social services programs are funded. Staff is cost allocated among

several funding sources. The 14/15 Gov Rec budget includes **460.5 new or transferred FTE**. Currently 999 FTE are authorized in the Field Services budget.

- 1 FTE is transferred from the Child Care Assistance budget to help with customer service call volume.
- 114 new FTE are requested to support non-ACA caseload growth.
- 174 new FTE are requested to support ACA related growth for "currently eligible but not served" group.
- 149 new FTE are requested to support the ACA related Medicaid expansion group.
- 22.51 FTE are transferred from the Nevada Check-up budget, as all health care eligibility determinations will be done within the Welfare Division when ACA is implemented.

The **Child Care Assistance Program** Base Budget is decreased by approx. \$6.5 million per year to reflect the decrease in available federal funding (\$5.7 per year) and State General Fund (\$750,000 per year) support. The 14/15 biennium includes funding to support 5,540 child care assistance slots monthly.

The **Energy Assistance Program** budget is increased by \$4.8 million in FY14 and \$5.0 million in FY15 as a result of increased federal LIHEA funding. The budget will support serving 7,130 more households in FY14 and 7,415 in FY15. In FY12, 20,484 households were served.

DIVISION OF CHILD AND FAMILY SERVICES

Clark and Washoe provide Child Protection (CPS) and Child Welfare (CW) Services in their respective counties. The State provides these services in the remaining 15 counties.

The 2011 Legislature established **Block Grants for Clark and Washoe Counties** to be used, along with Federal Funding, to operate programs. Block Grants of \$14,250,000/year for Washoe County and \$42,750,000/year for Clark County are continued in the 14/15 budget.

Adoption Caseload Growth is budgeted for outside of the County CPS/CW Block Grants. Clark County Adoption Caseload Growth is \$4.8 million (\$2.3 million GF) in FY14 and \$8.2 million (\$4.0 million GF) in FY15. Washoe County Adoption Caseload Growth is budgeted at \$2.0 million (\$1.0 million GF) and \$3.1 million (\$1.5 million GF) in FY14 and FY15 respectively.

Caseload growth for adoptions is projected to be 10.78% in Clark County and 11.01% Washoe County.

Rural CPS/CW is budgeted to receive 6 new and 3 transferred FTE to support increased workload. The new positions include Family Support Workers, Mental Health Counselors and Administrative support positions. Transfers include clerical staff and a Program Specialist. Rural CPS/CW is also budgeted for Adoption Caseload increases and Foster Care Caseload increases. Projected increase for adoptions growth is 13.87%, and Regular Foster Care growth is projected to be 7.49%.

SB 480 in the 2011 Legislative Session was passed and "assessed" the 15 rural counties with 50% of the non-federal costs of operating **Child Protection Services**. This "**assessment**" is continued in the 14/15 biennium budget. The assessment totals approximately \$2.1 million in each year.

The Northern Nevada Child and Adolescent Services budget includes Tobacco Settlement Funds to provide **Parent Management Training** (\$89K in FY14 and \$87K in FY15) **evidenced based group treatment intervention** (\$38K per year.) These projects were recommended by the Mental Health Consortium.

The Southern Nevada Child and Adolescent Services (SNCAS) budget includes 4 new psychiatric nurse positions, to provide for the **re-opening of an additional unit at Desert Willow Treatment Center** to come in compliance with the federal rules. The SNCAS budget also includes Tobacco Settlement Funds for **Parent Management Training** (\$116K in FY14 and \$114K in FY15) and to provide for a **Mobile Crisis Unit** (\$259K in FY14 and \$256K in FY15) as recommended by the Mental Health Consortium.

The Governor's Recommended Budget for 14/15 includes the following to further the effort to **improve Juvenile Justice Programs**:

- Currently there are three separate Correctional Facility budgets (Caliente Youth Center, Elko Youth Training Center, and Summit View Correctional Center). The Gov Rec **Budget combines the three separate budgets into a single Correctional Facilities Budget**. This will provide the flexibility needed to operate facilities based on the needs of the Youth committed by the Courts for correctional care. Youth will be able to be placed in more appropriate settings than they are now. Three levels of care can be operated in an efficient manner, allowing Managers to determine funding and bed allocation between facilities.
- Elko Youth Training Center (160 bed capacity) is currently budgeted for 110 correctional beds, but is operating around 70 beds. The Gov Rec Budget for 14/15 includes funding for 60 beds at NYTC. Savings from the bed reduction is being reinvested to reopen the Summit View Correctional Center.
- Summit View Correctional Center (96 bed capacity) will be reopened October 2013. Funding is included in the budget for up to 50 State Funded correctional beds, and the necessary equipment and start-up costs to get the facility to an operational level. An RFP is being released to find and contract with a non-state entity to operate SVCC. The

contracted entity will have the opportunity to market the beds not used by the State of Nevada to other jurisdictions at their cost.

- Caliente Youth Center (140 bed capacity) will continue to operate at or near it's capacity, and will be the statewide placement resource for female youth commitments (40 beds) and lower level male youth commitments (100 beds) from Clark County.
- **\$650,000 in General Funds per year is added to the Youth Alternative Placement budget** to increase state support to the China Springs/Aurora Pines Youth Camp in Douglas County. This increase in General Funds will decrease the Youth Camp assessments owed by the sixteen counties (all but Clark County) that currently support China Springs/Aurora Pines by the same amount. These Counties in turn may invest these savings into front-end Juvenile Justice Programs (note Supreme Court Commission Study for State to help Counties with "front-end services" funding) , support an increased budget for China Springs/Aurora Pines (Special Consideration Item requested), or use the savings for other county needs.

The **Youth Parole Budget** includes an "**assessment**" on all counties to pay 50% of costs. This assessment was established by SB 476 in the 2011 Session and will be continued into the 14/15 biennium. The County assessment totals approximately \$2.8 million per year.

MENTAL HEALTH/SUBSTANCE ABUSE PREVENTION AND TREATMENT

Southern Nevada Adult Mental Health Services budget includes the following changes:

- \$412,000 per year to provide after-care housing and treatment for 38 clients who have **co-occurring diagnosis** of substance abuse and mental illness.
- **Pharmacy savings** of \$1.4 million in FY14 and \$3.4 million in FY15 as a result of implementation of the Affordable Care Act (ACA).
- **Outpatient services savings** of \$3.5 million in FY14 and \$8.2 million FY15 as a result of implementation of the ACA.
- Relocation of the Downtown Clinic staff to the SNAMHS campus to provide focused medical clearance and urgent care programs on the 24 hours basis. Four additional staff (2 Psychiatrist positions and 2 Accounting positions) would augment existing staff, in addition to \$300,000 per year in contractual (residents) psychiatric services. The total additional costs in General Funds to implement **24 hour urgent care** is approximately \$891,000 over the 14/15 biennium.

No caseload growth is budgeted for SNAMHS.

Northern Nevada Adult Mental Health Services budget includes the following:

- \$851,000 per year to **return five youth per year from out-of-state placements.** Generally these are youth who age-out from the Child and Family Services programs and require a high level of community supervision and care.
- Funding to contract for a part-time Psychiatric Nurse and part-time Administrative Assistant to provide **after-hours medical clearance** to reduce inappropriate use of Emergency Rooms. Cost is \$59K in FY14 and \$78K in FY15.
- **Caseload growth for 57 SLA's** over the 14/15 biennium. Cost is \$231K in FY14 and \$282K in FY15.
- **Caseload Growth in the Medication Clinic** of 58 in FY14 and 57 in FY15. Cost is \$145K and \$174K respectively.
- **Mental Health Court caseload growth** is budgeted at 21 new slots; at a cost of \$183K in FY14 and \$219K in FY15.
- **Pharmacy savings** of \$280,000 in FY14 and \$665,000 in FY15 as a result of implementation of the ACA.
- **Outpatient services** savings of \$1.6 Million in FY14 and \$3.7 million in FY15 as a result of implementation of the A CA.

The Substance Abuse Prevention and Treatment budget includes **General Fund reductions** of \$3.1 million in FY14 and \$3.4 million in FY15 **related to implementation of the ACA.** It is estimated treatment service providers will be able to bill Medicaid for 51% to 56% of their clients. Medicaid billing revenue will reduce GF support for SAPTA treatment. SAPTA staff will work with providers to develop Medicaid billing tools.

Rural Mental Health Clinics budget includes GF reductions for pharmacy savings for \$39K in FY14 and \$92K in FY15, and Outpatient Services Savings of \$1.2 million in FY14 and \$2.8 million in FY15 due to ACA implementation.
