

Fund For a Resilient Nevada Advisory Committee

BILL TEEL - CONSULTANT

JAIL MOUD PROGRAM /

COMMUNITY CONTINUATION OF CARE MODEL

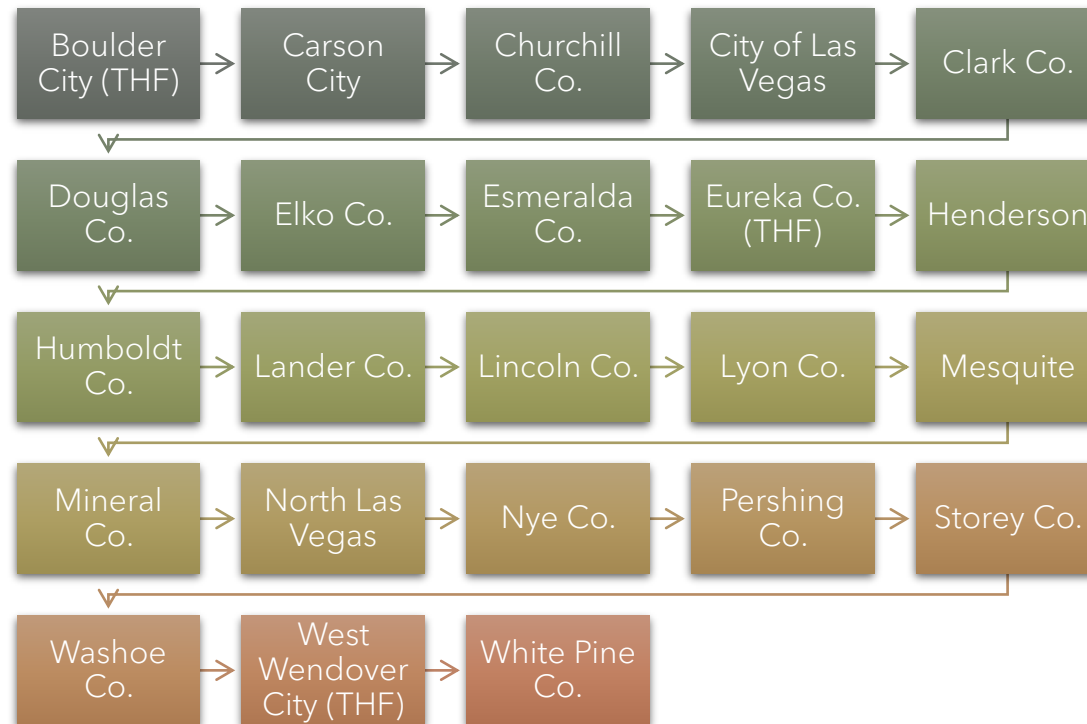

2023's GOAL:

**Identify Barriers & Pain Points to implementing
Jail Medication Assisted Treatment (MAT)**

CONDUCTED RESEARCH VIA SITE VISITS TO ALL 23
NEVADA JAILS CONCENTRATING ON JAIL
MEDICATION OPIOID USE DISORDER (OUD)
PROGRAMS OR MEDICATED ASSISTED TREATMENT
(MAT)

2023 Research Phase - 23 Nevada Jails Surveyed

The Research

- Survey of questions specific to OUD and Jail Operations
 - 3 Sections:
 - Deflection / Diversion Initiatives / Jail Information (8 questions)
 - OUD Screening / Monitoring Information (9 questions)
 - OUD Challenges / Discharge Plan / Community Resource Information (12 questions)

Key Takeaways of 23 jails surveyed:

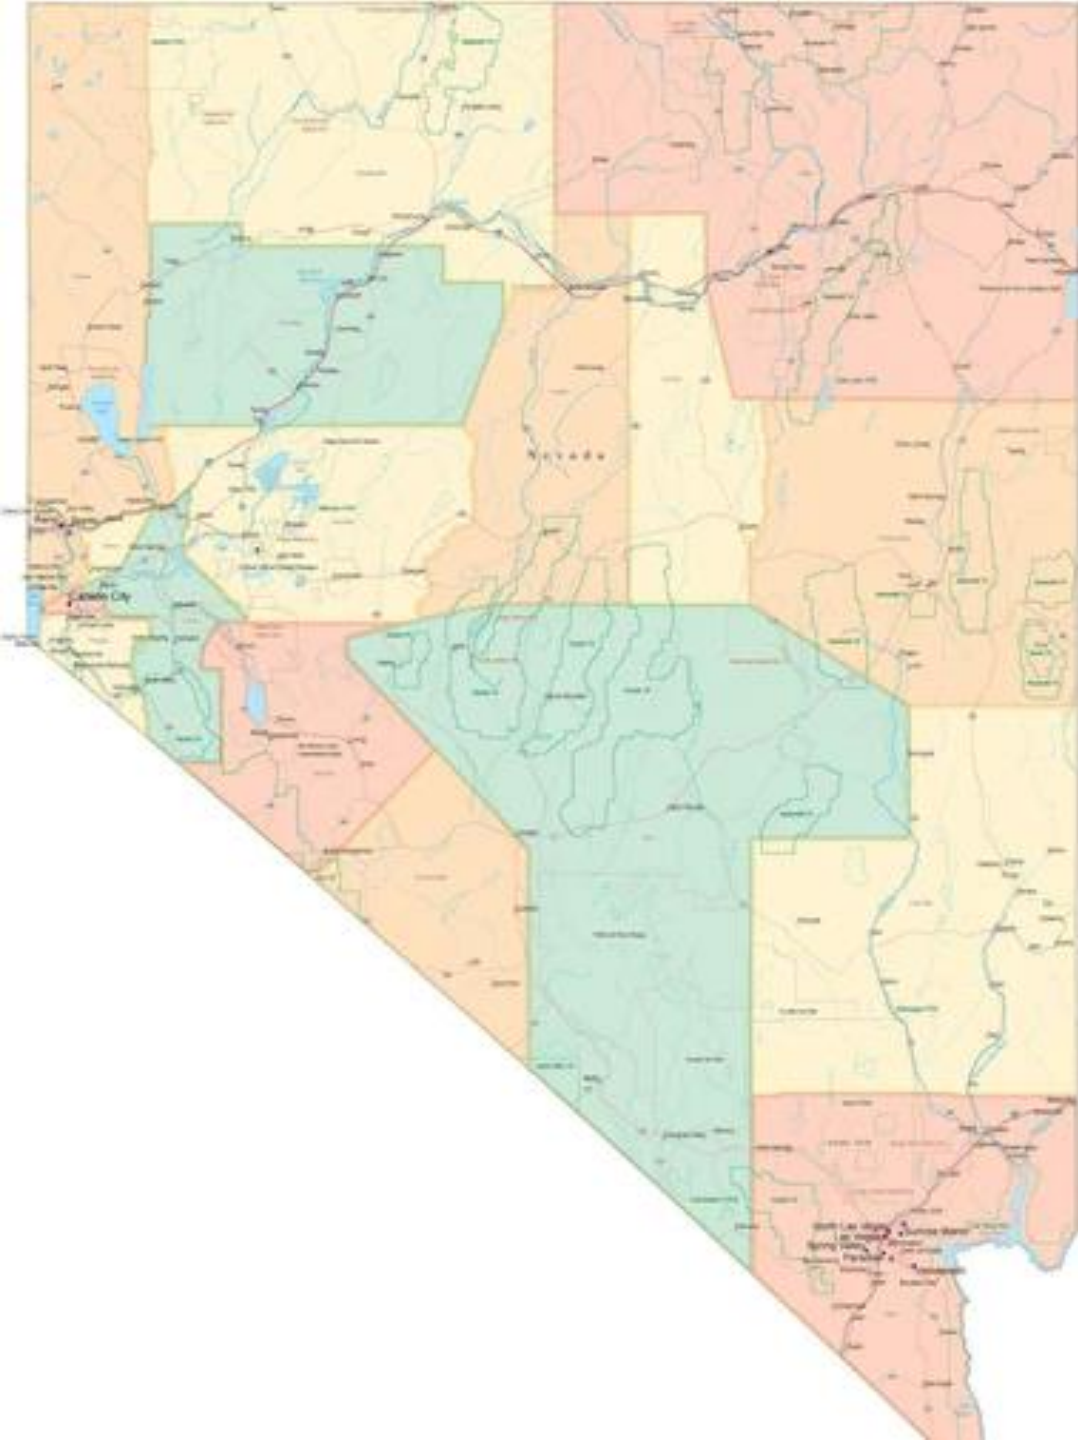

- **87% (20) departments don't have community deflection options**
 - **More education needed**
- 74% (17) don't have diversion alternatives
- **78% (18) are reactive & reliant on EMS most of the time**
- **Only 1 jail is using a Telehealth option**
- 65% (15) don't screen specifically for OUD at intake
- **91% (21) don't have a formal MAT Program**
- 65% don't have access to MAT Medications
- **1 jail does not have access to Narcan**
- **Only 1 site (Douglas) indicated they have Community Health Workers (CHW)**
 - **I believe there is a statewide lack of understanding about CHW's and requires more education**
- **One jail indicated a reluctance to allow for FDA approved methadone in their jail**

Key Takeaways of departments surveyed:

- **Top three (3) barriers to implementing MAT Program**
 - **Lack of onsite medical & mental health resources**
 - **Lack of funding**
 - **Lack of community resources**
- 87% don't have Multi-Disciplinary Teams to case manage those most at risk
- 65% don't incorporate discharge planning to include the Forensic Assessment Services Triage Team (FASTT)
- 70% don't offer Medicaid enrollment
- **22 out of 23 jails willing to work with state on developing MOUD Model**

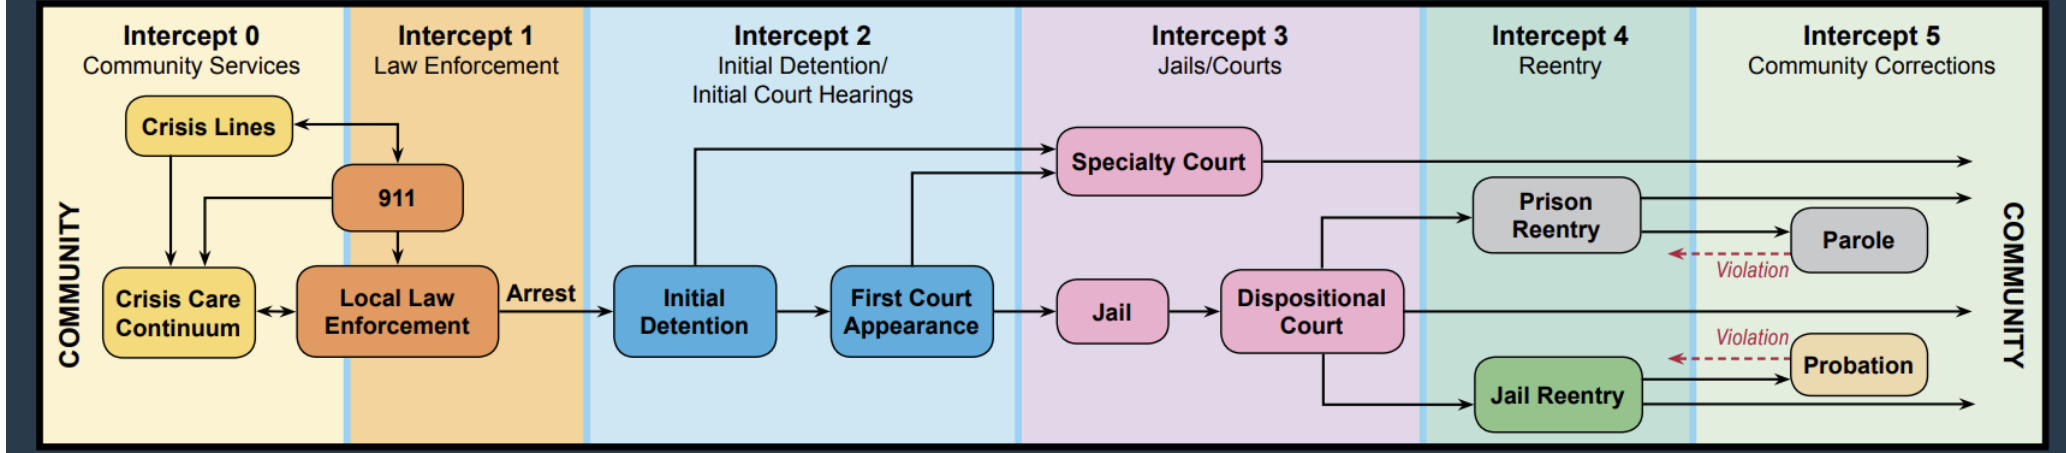

2024 Implementation Phase:

Nevada Rural Jail MOUD / Community Continuation of Care Model 2024

- **Pilot Jails**
 - Lander
 - Esmeralda
- **Priority Jails**
 - Humboldt
 - Lincoln
 - Lyon
 - Mesquite
 - Mineral
 - Pershing
 - Storey
 - White Pine
- **Engagement with Nevada's DOJ Office**
 - Small & Rural Challenges
 - Temporary Holding Facility Requirements
 - Regional Mobile MAT Pharmacy
 - Pharmacy access challenges

The Sequential Intercept Model

Our roadmap to implementing and managing Jail MOUD.

Jail MOUD/Community Continuation of Care Model Pilot Programs – Current Status

Esmeralda County Jail

Sheriff Dondero – Supports

BCC Supports

MDT Meeting #2 – March 13th

Intercept 0: Deflection

Lander County Jail

Undersheriff Quick - Supports

MDT Meeting #5 scheduled for 03/21/24

Intercept 1: Diversion - Risk/Needs Discussion

What will success look like?

Phase 1: 2024 Program Implementation

Nevada Jail MOUD Program

- **Leadership / Staff MOUD Buy-In & Education**
- **Access to MAT Medications**
 - MOU with OTP Provider(s)
- **HIPPA Compliant EHR & Enhanced Intake Screen**
 - Ability to capture data and ability to interface with Medicaid
 - Ability to share medical records with service providers
- **Improved jail policy where needed**
- **Jail MOUD Program consent/compliance**
- **Enhanced “at risk” monitoring**
- **Jail / Judicial MDT Engagement**
- **Patient commitment to Scheduled Service Provider Engagement**
- **Case Management Information System**
- **3/6/9/12 Month Outcome Reporting**
 - Measure retention in telemedicine care / medication adherence

Community Continuation of Care

- **Discharge Planning / Reentry Bridge to Community / Regional OTP Service Provider(s)**
- **Engagement from Social Services Case Management Team / Peer Support / CHWs**
 - Community MOUD/MDT Engagement
 - **3/6/9/12 Month Outcome Reporting**
- **Transportation plan for community access to care needs**
