Subject: GMAC Letter to DOE

Good morning Laurie,

Thank you for sending us the letter on behalf of Grants Management Advisory Committee (GMAC) concerning Senate Bill (SB) 394 and the support your group has offered around Child Self-protection trainings for many years. In the spring of 2016 the Nevada Department of Education will ask the Council to Establish Academic Standards permission to revise the Nevada Health standards which portions of SB 394 require our action. At that time a member of the Standards and Instructional Support office will begin the facilitation of this standards revision process through the work of a statewide committee. I will make sure you are included in any communications regarding the revisions and hopefully someone from GMAC will be able to sit on the statewide revision committee. When I have confirmed that this issue will be on the agenda for one of the upcoming Council to Establish Academic Standards meetings, I will let you know and I would welcome your attendance at the meeting. Thank you again for offering your assistance and support in this important issue. On behalf of NDE I look forward to working with you in the near future.

Happy New Year,
Dave

David J. Brancamp
Director
Nevada Department of Education
Office of Standards and Instructional Support
