Preventing & dealing with autism behavior problems
This help guide article provides valuable insights into how the behavior of a child with autism can be analyzed for its underlying messages about things that are important to the child.

Other Resources for Autism Awareness
ECTA Center's Topic Page on Autism — The Early Childhood Technical Assistance (ECTA) Center's topic pages are a great place to find resources. Their Autism page offers information on early identification of ASD in young children, elements of effective programs, personnel preparation to serve young children with ASD, resources for families, and more.

The Administration for Children and Families (ACF) at the U.S. Department of Health and Human Services has launched a new Website on Autism Awareness and Acceptance in Early Childhood Education [http://www.acf.hhs.gov/programs/ecd/asd], which includes fact sheets, videos, tips, and links to state-specific resources. One of the resources includes a series of Tips for Early Care and Education Providers: Simple Concepts to Embed in Everyday Routines (2013) offered by autism intervention researchers around the country and compiled by ACF and the Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD).

Carla Clark, NEIS South Service Coordinator—The lovely mother and son you see in the picture below are on my caseload. Emiliano has many medical conditions based on his medical diagnosis which include: G-Tube Dependency, Tracheostomy, Seizures, Hernia, Intraventricular Hemorrhage Grade 1, and Pain Management.

Franchesca Soriano, another DS, informed me about the organization “Icing Smiles”. This non-profit organization goes above and beyond to assists families with FREE birthday cakes for medically fragile children and their siblings. They specialize in finding local bakeries to make the cakes for families. Take a look at this WONDERFUL picture below! The mom told us that MICKEY MOUSE is his favorite cartoon. She used MICKEY MOUSE for his 2nd b-day theme. All of the cake was edible!!! The body was layered with fondant icing, white chocolate, and rice krispies/marshmallow.

"Thank you to all of you for giving Emiliano a dream cake, it was a really dream cake. I don’t have words to say how happy he was with his cake, it was a big surprise to all of us. Thank you so much.” ~ Emiliano’s Mom

We are Baking a Difference

Icing Smiles Inc. <http://icingsmiles.org/>

Icing Smiles is a nonprofit organization that provides custom celebration cakes and other treats to families impacted by the critical illness of a child. We understand that the simple things, like a birthday cake, are luxuries to a family battling illness. Our goal is to create a custom cake for the ill child, or their sibling, that provides a temporary escape from worry and creates a positive memory during a difficult time.

Family FAQs

Is my child eligible? – We serve children who have a life-threatening medical condition that is considered progressive, degenerative or malignant and are within 2 years of their last treatment. We also serve children who require frequent or extended hospitalizations and are within 2 years of their last inpatient stay. We serve all children hospitalized on their birthday, regardless of condition.

Do you serve siblings of medical children or surviving siblings? – We serve siblings of qualified medical children. We serve siblings of angels within two years of the medical child earning their wings.

Is there an age limit? – The child or sibling must be 18 or younger on the date of the request.

Is there a cost for the cake? – We provide our cakes free of charge, regardless of financial need.

More information will follow in the next edition...
In their Winter 2013 newsletter, the Nevada Dual Sensory Impairment Project for families of children with vision and hearing impairments, highlighted a presentation on "Dentistry for Children with Special Health Care Needs" that was given at their 2012 parent conference. Some very good information and tips are provided regarding dental care for children with special needs. The article mentions how parents should take care of their child’s baby teeth, treatment options at a Pediatric Dentist, how a parent can help prepare their child for a Dental visit, and questions to ask your Dentist. If you would like to know more, please visit their website at http://www.unr.edu/ndsip and you can find the article under Newsletters as the Winter 2013 edition. **EARLY CHILDHOOD SPECIAL EDUCATION LIBRARY—**

*There are a great many things to learn... check them out!!!*

Library catalog for other titles at — [http://health.nv.gov/BEIS_SpecialEdLibrary.htm](http://health.nv.gov/BEIS_SpecialEdLibrary.htm)

One of the resources available to families, service providers, students, and teachers working with young children with disabilities or special health care needs is the resource library. This large collection of books and videos is a tremendous source of information for parents and professionals in the care and education of a child with a disability.

*New DVD — “For the Child: Information on Mental Health and Advocacy for Resource Parents”* Hosted by Morgan Freeman, will help foster parents and kinship care providers to - Understand the most common children's mental health problems - Navigate the local mental health service delivery system - Develop alliances with birth parents, school systems, mental health providers & caseworkers - Feel increased comfort with seeking mental health services - Recognize the rights and responsibilities of foster children, birth parents, kinship providers, foster parents and caseworkers - Identify who to call, what to say, and where to go to obtain the right services - Be an effective advocate for the children in your care.

*New DVD — “Including Samuel”*

Before his son Samuel was diagnosed with cerebral palsy, photojournalist Dan Habib rarely thought about the inclusion of people with disabilities. Now he thinks about inclusion every day. Shot and produced over four years, Habib's award-winning documentary film, "Including Samuel," chronicles the Habib family's efforts to include Samuel in every facet of their lives... and also features four other families with varied inclusion experiences, plus interviews with teachers, parents, and disability rights experts.

These library materials are available for use statewide. For more information, contact your service provider or coordinator. If you have questions or recommendations for the Library, please contact me at 1-800-522-0066 or ddinnell@adsd.nv.gov
