Nevada Drug Transparency 2024 Drug Lists

To generate these lists, DHHS gathered 2023 information from Medi-Span PriceRx. These lists meet the requirements of NRS 439B.630. Lists 2-4 include Wholesale Acquisition Cost (WAC).

List #1 Essential Diabetes Drug Summary List

This represents a compilation of essential diabetic drugs that may be dispensed in Nevada. It is a simplified list that includes common brand names. This essential list does not include any drugs used to treat co-morbidities often present in individuals with diabetes.

List #2 Essential Diabetes Drug List

This contains the same drugs as List #1 but is a detailed list of National Drug Codes (NDCs) that includes varying drug packaging formulations.

List #3 Essential Diabetes Drug List (with Significant Price Increase)

This includes the drugs in List #2 that experienced a significant price increase. For diabetes medications this is defined as an increase equal to or greater than the previous year Consumer Price Index, Medical Care Component or twice the increase during previous two years.

List #4 Over \$40 Drug List (with Significant Price Increase)

This represents any other prescription, out-patient drug that experienced a significant price increase *and* cost more than \$40 WAC for a course of therapy (or a 30- day supply for chronic medications). For this list a significant price increase is defined as equal to or greater than 10% in previous year or 20% in previous two years.

DHHS welcomes feedback regarding these reports. DHHS strives to ensure that consumers receive accurate information. Any identified errors, omissions or feedback can be submitted to the department via email at drugtransparency@dhhs.nv.gov.

DHHS invites you to view the Drug Transparency website at drugtransparency.nv.gov.
