Nevada Department of Health and Human Services, Director's Office

1.01 2-1-1 Partnership

Program: Established by Executive Order in February 2006, Nevada 2-1-1 was created to implement a multi-tiered response and information plan in the state of Nevada. 2-1-1 is an easy to remember telephone number that, where available, connects people with important community services and volunteer opportunities. Available information on essential health and human services includes: basic human services, physical and mental health resources, employment support services, programs for children, youth and families, support for seniors and persons with disabilities, volunteer opportunities and donations and support for community crisis and disaster recovery.

Hours of Service: 2-1-1 is available 24 hours per day, seven days per week. Service is provided statewide by the Financial Guidance Center.

Quarters Data

Quarters Data	Total Calls
FY14 Q2	15,204
FY14 Q3	14,575
FY14 Q4	17,101
FY15 Q1	20,800
FY15 Q2	19,693
FY15 Q3	16,097
FY15 Q4	15,591
FY16 Q1	33,198
FY16 Q2	33,295
FY16 Q3	29,619
FY16 Q4	31,554
FY17 Q1	33,076

Total Calls

FY17 Q1 Call Volume:

FY17 Q1 Call Volume:	Total Calls
Jul 17	10,347
Aug 17	12,221
Sep 17	10,508

Comments:

- In Fiscal Year 2016 the total call volume of 126,484 exceeded 2015 by 57.06% and 2014 by 100%.
- The call volume for the first quarter of 2017 continues at a level of more than 10,000 calls per month, with a high of 12,221.
- 94.18% of calls were answered in under two minutes; 84% in less than 30 seconds.
- An average call lasted 4:26.
- There were 285 unique clients that contacted Nevada 2-1-1 via text messaging in the first quarter.
- The Nevada 2-1-1 website was visited by 9,511 visitors.
- There are currently 815 agencies listing 3,214 services active in the Nevada 2-1-1 database.

Website: <http://Nevada211.org>

Nevada Department of Health and Human Services, Director's Office

1.02 Office of Consumer Health Assistance (OCHA)

Program: Established by the Nevada Legislature in 1999, the Office for Consumer Health Assistance (OCHA) is a vital point of contact for healthcare consumers and providers in Nevada. OCHA's mission is to provide the opportunity for all Nevadans to access information regarding patient rights and responsibilities, and to advocate for and educate consumers and injured workers concerning their rights and responsibilities under various health care plans and policies. This education and advocacy is provided to those who have insurance through an employer, managed care, individual health policies, ERISA, Worker's Compensation, Medicare, or Medicaid. Assistance is also provided to the uninsured and underinsured. OCHA collaborates routinely with state and federal agencies, and non-profit organizations. OCHA has expanded operations since its inception, and as of July 2011, has been operating through the Director's Office of DHHS. OCHA serves as an umbrella agency for multiple consumer health related programs, including:

- Bureau for Hospital Patients
- External Review Organization
- Small Business Insurance Education Program
- RxHelp4NV
- Canadian Prescriptions
- Worker's Compensation Consumer Assistance
- Office of Minority Health
- Nevada 2-1-1
- Affordable Care Act – Consumer Assistance Program
- Affordable Care Act – Silver State Exchange Consumer Assistance

Service Area: OCHA serves consumers statewide out of our main office in Las Vegas, and one satellite operation in Elko, Nevada to provide additional support to Northern/Rural Nevadans. The Office of Minority Health is also based in the Las Vegas Office for Consumer Health Assistance.

Hours: OCHA office hours are 8am – 5pm Monday through Friday, inquiries are accepted after hours by voicemail and email, and are returned as soon as possible.

Workload History: OCHA currently has six full-time Ombudsmen managing caseloads of 125 to 240. OCHA has continued to receive a significant volume of calls related to the Affordable Care Act (ACA), and now has four temporary full-time Navigators funded by a grant from the Nevada Silver State Health Insurance Exchange, to assist consumers with applying for insurance coverage. OCHA also continues to respond to an increased number of cases related to Medicaid. In addition to managing cases ranging in context from access to care, billing disputes, hospital bills, provider/insurance grievances and appeals, OCHA has increased its level of knowledge to resolve ACA-related cases by having staff members become Certified Application Counselors who are registered with the Nevada Division of Insurance, and can assist consumers with selecting a Qualified Health Plan or apply for Medicaid.

Comments: Full details of OCHA's programs, notable accomplishments, and history is published annually in our 2013 Executive Report, which is available on our website.

Website: <http://dhhs.nv.gov/Programs/CHA>

Nevada Department of Health and Human Services, Director's Office

1.03 Office of Minority Health

Program: The Office of Minority Health (OMH) was established under NRS 232.467. The mission of OMH is to improve the quality of health care services for members of minority groups, to increase access to health care services, to seek ways to provide education, address, treat and prevent diseases and conditions that are prevalent among minority populations, increase access to health care services, and disseminate information to and educate the public on matters concerning health care issues of interest to members of minority groups. AB519 placed the Office of Minority Health under the Office of Consumer Health Assistance within the Department of Health and Human Services, Director's Office. AB519 was approved by the Governor in June 2011.

OMH provides a central source of information concerning healthcare services and issues for racial and ethnic minorities. The current focus of OMH is providing Education and Outreach about the Affordable Care Act to minority communities within Nevada, and encouraging individuals and families to enroll in Nevada Health Link or Nevada Medicaid. OMH endeavors to engage in outreach activities and fosters partnerships with stakeholder groups including: community and faith-based organizations; schools and universities; medical centers, health care systems, and health departments; tribal, state, and federal government offices; policymakers and community residents; advisory committees and task forces; and corporations, foundations, and the media. OMH continues to provide information regarding minority health care issues and helps ensure that both public and private entities have access to culturally competent and linguistically appropriate health information.

Funding: As of August 31, 2015, Nevada's State Partnership Grant Program to Improve Minority Health funding through the federal Office of Minority Health ended. The Nevada OMH did apply for two additional grant opportunities; however, was not selected as one of the few funded agencies nationwide, as there were only 17 funded states, as opposed to the 42, which had been funded in previous grant cycles. Due to the lack of funding, the Nevada OMH currently has no staff dedicated solely to its activities; however, OCHA administrative staff continues to seek other funding opportunities, while remaining engaged with community partners and statewide minority health coalitions.

Nevada Department of Health and Human Services, Director's Office

1.04 Office of Community Partnerships and Grants (OCPG)

Program: OCPG is housed within the Department of Health and Human Services. Originally created to administer grants to local, regional, and statewide programs serving Nevadans, the unit has matured to include program development as one of its principal roles. The unit builds and supports networks that help families and individuals assess their needs and work toward holistic solutions; and shares responsibility for program accountability, growth and success with its community partners.

- **Children's Trust Fund (CTF)** grants prevent child abuse and neglect.
- **Community Service Block Grant (CSBG)** promotes self-sufficiency, family stability, and community revitalization.
- **Family Resource Centers (FRC)** provide information and referral services, and various support services to families.
- **Differential Response (DR)** addresses child safety through partnerships between child welfare agencies and designated FRCs.
- **Fund for a Healthy Nevada (FHN)** grants (1) improve the health and well-being of Nevada residents including programs that improve health services for children and (2) improve the health and well-being of persons with disabilities.
- **Social Service Block Grant (SSBG-TXX)** assists persons in achieving or maintaining self-sufficiency and/or prevents or remedies neglect, abuse, or exploitation of children and adults.
- **Revolving Account for Problem Gambling Treatment and Prevention** provides funding for problem gambling treatment, prevention, research and related services.
- **The Contingency Account for Victims of Human Trafficking** was created by the 2013 Legislature and revised by the 2015 Legislature. Funding may be awarded in a competitive grant process or through an emergency fund to provide direct victim assistance in crisis situations. No funds have been utilized to date.

Eligibility: Most OCPG funding sources target at-risk populations. CTF focuses on primary and secondary prevention of child abuse and neglect. CSBG targets people at 125 percent of the Federal Poverty Level. FRC must conduct outreach to at-risk populations. Some FHN funds are targeted to people with disabilities.

Comments: **Food Security:** In FY13, a statewide community needs assessment indicated a need to shift resources to a new service category -- Food Security. Projects are intended to provide direct services to reduce hunger, help food insecure individuals and families become more self-sufficient, build capacity within the food safety network, and maximize federal benefits. Funding is drawn primarily from FHN Wellness with a small assist from SSBG-TXX.

Information and Referral (I&R): The same needs assessment indicated a need for stable support and development of information and referral (I&R). In FY14, the GMU began supporting Nevada 2-1-1 from a single source rather than piecing together small grants that were then reported across multiple funding streams.

Health: In FY16, the amount allocated from FHN Wellness to health projects declined significantly to avoid duplication of benefits available as a result of the Affordable Care Act and Medicaid Expansion.

Website: <http://dhhs.nv.gov/Programs/Grants/GMU/>

Nevada Department of Health and Human Services, ADSD

2.01 Advocate for Elders

Program: The Aging and Disability Services Division (ADSD) Advocate for Elders program provides advocacy and assistance to frail, older adults (age 60 and older) and their family members to enable older adults to maintain their independence and make informed decisions.

Eligibility: Seniors age 60 or older, primarily homebound residing in communities throughout Nevada.

Workload History:

Fiscal Year	Client Contacts	Average Monthly Contacts
FY12	10,370	864
FY13	7,981	665
FY14	9,232	769
FY15	9,562	797
FY16	9,710	809
FY17*	7,936	661

* FY17 data is annualized.

May	
Jun	
FY17 Total	1,984
FY17 Avg	661

Other: "Client contacts" includes: phone calls, walk-ins, e-mail, postal mail, and contacts made on behalf of a client. Please note the program has 2.5 staff positions; one fulltime Advocate for Elders in Northern Nevada, one in Southern Nevada, and a half-time position in Elko to serve Elko area seniors.

Funding Stream: General Fund

Comment: Historically, program contacts increase related to the Open Enrollment Period of the State Health Insurance Assistance Program (SHIP) which occurs during Quarter (Q)2 of each State Fiscal Year. Q1 SFY12 and SFY 13 are stable. SFY 12 dips reflected are a result of a turnover in staff. SFY 14 Q1, Q2 and Q3 remain stable, but with a slightly upward trend in Q3 and Q4. SFY 15 remains stable. SFY 16 remains stable.

Web Link: <http://adsd.nv.gov/Programs/Seniors/AdvocateElders/AdvocateForElders/>

Nevada Department of Health and Human Services, ADSD

2.02 Community Options Program for the Elderly (COPE)

Program: The Aging and Disability Services Division (ADSD) Community Options Program for the Elderly (COPE) provides services to seniors to help them maintain independence in their own homes as an alternative to nursing home placement. COPE services can include the following non-medical services: Case Management, Homemaker, Adult Day Care, Adult Companion, Attendant Care, Personal Emergency Response System, Chore and Respite.

Eligibility: Must be 65 years old or older; financially eligible (for 2016 income up to \$3,099; assets below \$10,000 for an individual and \$30,000 for a couple); at risk of nursing home placement without COPE services to keep them in their home and community. Priority given to those meeting criteria of NRS 426 – unable to bathe, toilet and feed self without assistance.

Workload History:

Nevada Department of Health and Human Services, ADSD

2.03 Elder Protective Services

Program: Nevada Revised Statutes mandates that Aging and Disability Services Division receive and investigate reports of abuse, neglect, exploitation, isolation and abandonment of older persons, defined as 60 years or older. The Elder Protective Services (EPS) program utilizes licensed social workers to investigate elder abuse reports. Social workers provide interventions to remedy abusive, neglectful and exploitive situations. The investigation commences within three working days of the report. EPS may contact local law enforcement or emergency responders for situations needing immediate intervention. The Crisis Call Center handles after-hour calls for EPS. EPS refers cases where a crime may have been committed to law enforcement agencies for criminal investigation and possible prosecution. Self-neglect is the single largest problem reported. EPS social workers provide training to various organizations regarding elder abuse and mandated reporting laws.

Eligibility: Any older person, defined by NRS as 60 years or older, is eligible. EPS investigates elder abuse reports in all counties of Nevada in both community and long-term care settings.

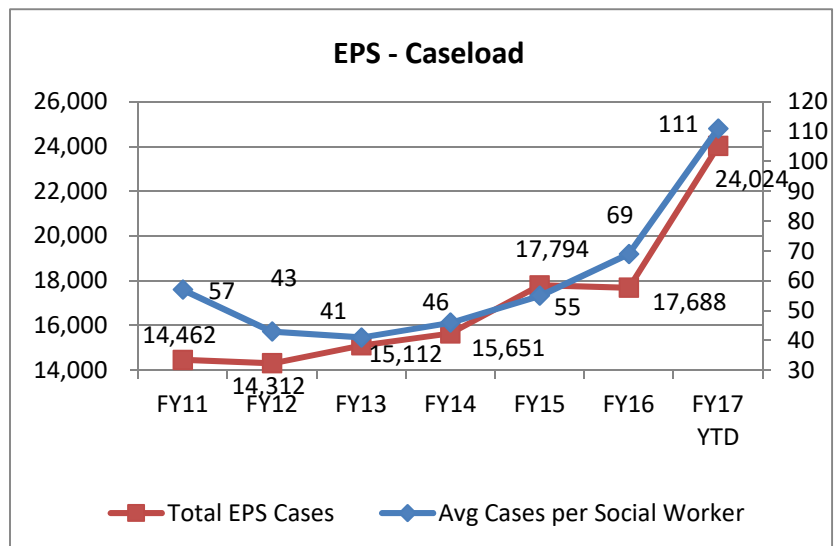

Workload History:

Fiscal Year	Total Cases	Average Cases per Social Worker	Total Expenditures
FY12	14,312	43	\$3,437,968
FY13	15,112	41	\$3,812,582

FY17 Total	6,006	501
FY17 Avg	2,002	111

Funding Stream: TITLE XX - Title XX funds through the Nevada Department of Health and Human Services; General Fund

Comment: TOTAL CASES - Total cases represent Total New Cases Received, Total Cases Investigated and Closed and Cases Carried Over from the Previous Months. The Average Cases per Social Worker represents the Total Cases divided by the actual number of Social Workers. As of July 1, 2010, ADSD assumed full responsibility for all elder abuse investigations in Clark County making ADSD and law enforcement agencies the sole responders to reports of elder abuse statewide.

Web Link: http://adsd.nv.gov/Programs/Seniors/EPS/EPS_Prog/

Nevada Department of Health and Human Services, ADSD

2.04 Homemaker Program

Program: The Aging and Disability Services Division (ADSD) Homemaker Program provides in-home supportive services for seniors and persons with disabilities who require assistance with activities such as housekeeping, shopping, errands, meal preparation and laundry to prevent or delay placement in a long-term care facility.

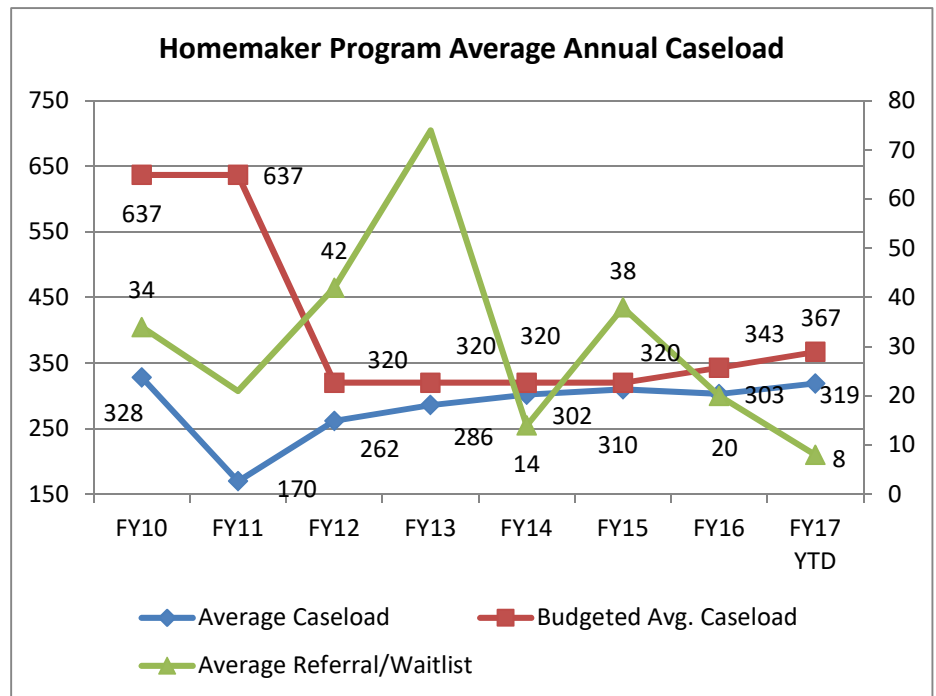

Eligibility: Seniors and person with disabilities throughout Nevada in need of supportive services; financially eligible (110 percent of Federal Poverty income below \$1,079 monthly).

Workload History:

Fiscal Year	Average Caseload	Budgeted Avg Caseload	Average Waitlist	Total Expenditures
FY10	328	637	34	\$910,353
FY11	170	637	21	\$860,423

Analysis of Trends: The waitlist has been reduced as additional case managers have been hired. This has had a positive impact on the number of cases that can be processed.

Funding Stream: Title XX/General Fund

Web Link: <http://adsd.nv.gov/Programs/Seniors/HomemakerProg/HomemakerProg>

Nevada Department of Health and Human Services, ADSD

2.05 Independent Living Grants

Program: Independent Living Grants (ILG): The Nevada State Legislature passed legislation in 1999, which enacted the Governor's plan for utilizing part of Nevada's proceeds from the Master Tobacco Settlement to support "independent living" among Nevada seniors. This program funds a number of vital services for seniors, such as respite care, transportation and supportive services. Supportive services include: adult day care; case management; caregiver support services; information, assistance and advocacy; companion services; geriatric health and wellness; homemaker services; home services; legal services; medical nutrition therapy; volunteer care; emergency food pantry; Personal Emergency Response System (PERS); and representative payee.

Eligibility: Seniors throughout Nevada, age 60 or older, in need of assistance to live independently.

Funding Stream: Healthy Nevada Fund from the Tobacco Settlement Fund

Analysis of Trends

The SFY 2012 trend is generally stable with expected program fluctuations. One year can differ from another for clients served due to the types of programs funded and the movement of programs between OAA Title III-B and Independent Living Grant funding. For SFY 13 Q1 the trend shows a slight increase due to a change in funded services between funding sources. The same remains true for SFY 2014. Q3 and Q4 remain stable. SFY 2015 is stable as well. SFY 2016 is missing data from Washoe County, but otherwise remains within a stable range.

Web Link: <http://adsd.nv.gov/Programs/Grant/Resources/>

Nevada Department of Health and Human Services, ADSD

2.06 Long Term Care Ombudsman Program (Elder Rights Specialists)

Program: The Long Term Care (LTC) Ombudsman program is authorized by the federal Older American’s Act. The Act requires that a statewide Ombudsman program investigate and resolve complaints made by or on behalf of individuals who are residents of long term care facilities. The Act also requires numerous activities related to the promotion of quality care in LTC facilities. Elder Rights Specialists, also known as Ombudsmen, provide residents with regular and timely access to Ombudsman advocacy services by conducting routine visits to assigned facilities. They advocate for residents and provide information regarding services to assist residents in protecting their health, safety, welfare and rights. The Ombudsman Program is comprised of two basic components – a “case” or an “activity”. A case includes the investigation and resolution of particular complaints made by or on behalf of residents. Activities include duties such as consultation and training for facility staff, working with resident and family councils, and participating in facility surveys.

Eligibility: Eligibility includes every individual living in a long term care facility including:

- Homes for Individual Residential Care
- Residential Facilities for Groups including Assisted Living Facilities
- Skilled Nursing Facilities

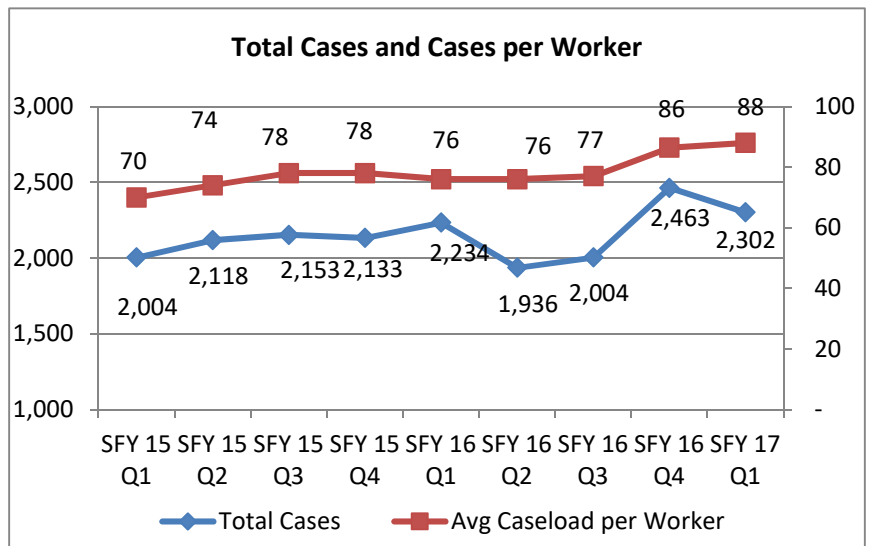

Workload History:

Fiscal Year	Total Cases	Avg Cases per Worker	Total Expenditures

Funding Stream: Funding stream includes: Older Americans Act Funds through the Administration on Aging; Medicaid Funds through the Division of Health Care Financing and Policy; and General Fund.

Comment: Total cases represent Total New Cases, Total Closed Cases, Cases Ongoing from the previous months and total activities weighted at 5 activities (5 activities = 1 case). The Average Cases per Elder Rights Specialists represents the Total Cases divided by the actual number of Elder Rights Specialists. This caseload definition was approved in 2015. Please contact Jennifer Williams-Wood at (775) 687-0823 or jlwilliams@adsd.nv.gov for more information.

2.07 Senior Support Services

Program: Supportive Services and Senior Center Programs (funded by the Older American's Act Title III-B) are intended to maximize the informal support provided to older Americans, to enable them to remain living independently in their homes and communities. Services funded under Supportive Services and Senior Center Programs include: senior companion; transportation; adult day care; homemaker; information, assistance and advocacy; representative payee; caregiver support, education and training; legal services; telephone reassurance; volunteer services; Personal Emergency Response System (PERS); case management; respite; and transitional housing.

Eligibility: Individuals throughout Nevada age 60 or older with particular attention to low-income older individuals, including low-income minority individuals, older individuals with limited English proficiency, and older individuals residing in rural areas.

Workload History:

Funding Stream: Title III - Older Americans Act (OAA) Funds through the Administration on Aging (AoA); General Fund

Analysis of Trends: For SFY 2012 the downward trend is caused by programs reporting fewer services delivered. For SFY 13 the downward trend is due to a change in funded services between funding sources. SFY 14 decrease is due to a change in funded services between funding sources. The SFY 14 Q2, Q3 and Q4 trend is stable. SFY '15 reflects an overall increase in services. SFY 16 Q3 is missing data from Washoe County, but also shows a downward trend due to the shifting of programs between funding sources.

Nevada Department of Health and Human Services, ADSD

2.08 Senior Nutrition – Meals in Congregate Settings

Program: Senior Nutrition - Meals in Congregate Settings (funded by the Older Americans Act Title III - C1) are allocated to provide meals to seniors in congregate settings, usually at senior centers. The purposes of this part are to reduce hunger and food insecurity; to promote socialization of older individuals; and to promote the health and well-being of older individuals by assisting such individuals to gain access to nutrition and other disease prevention and health promotion services to delay the onset of adverse health conditions resulting from poor nutritional health or sedentary behavior.

Eligibility: Individuals age 60 or older and their spouses; individuals with disabilities who have not attained the age of 60, but reside in housing facilities occupied primarily by older individuals at which a congregate meal site has been established; individuals providing essential volunteer service during meal hours at a congregate setting; adults with disabilities who reside at home with an eligible older individual, who come into the congregate setting without that individual.

Workload History:

Fiscal Year	Units of Service	Average Units of Service
FY13	584,997	48,750
FY14	596,757	49,730
FY15	564,715	47,060

Funding Stream: Title III - Older Americans Act Funds through the Administration on Aging; General Fund

Comment: Meal service can decline in Q4 and Q1, during summer months, due to return of "snow bird" seniors returning to northern climates during these warmer months. For SFY 2013 the trend is stable. SFY 2014 Q1 and Q2 are stable. Q3 remains stable; however, Q4 shows a decrease. While Q4 and Q1 numbers often decrease due to "snowbirds" heading north for the warmer months, this Q4 dip is greater due to a "senior center boycott" at the City of Henderson over an increase in suggested donation price. Seniors have been boycotting the senior center activities due to the City's decisions addressing a budget shortfall.

Nevada Department of Health and Human Services, ADSD

2.09 Senior Nutrition – Home Delivered Meals

Program: Senior Nutrition - Home Delivered Meals (funded by the Older Americans Act Title III - C2) funds are allocated to furnish meals to homebound seniors, who are too ill or frail to attend a congregate meal site.

Eligibility: Individuals age 60 or older and their spouses and disabled individuals, who reside with individuals over age 60.

Workload History:

Fiscal Year	Units of Service	Monthly Average Units of Service
FY12	953,525	79,460

FY17 Avg	133,678

Funding Stream: Title III - Older Americans Act Funds through the Administration on Aging; General Fund

Analysis of Trends: Numbers are reflected for State Fiscal Year and represent the number of meals served to participants of the program. Overall, comparing each quarter with the previous year's quarter, the number of meals served has slightly increased. The slight increase is a result of the slowing economic conditions nationwide and in Nevada. The overall trend is stable. SFY 2013 shows a slight increase. SFY 2014 is showing an increase compared to the same time periods in the previous fiscal year. the Q2 service increase is primarily due to a large Home Delivered Meal program being awarded nonfederal funding to help reduce waitlist for services. Q3 and Q4 are stable. FY 2015 and FY 16 Q3 remain stable.

Web Link: <http://adsd.nv.gov/Programs/Grant/Nutrition/Resources/>

Nevada Department of Health and Human Services, ADSD

2.10 National Family Caregiver Program

Program: The National Family Caregiver Support Program (funded by the Older Americans Act Title III E) addresses the needs of family caregivers by increasing the availability and efficiency of caregiver support services and of long-term care planning resources.

Eligibility: Family caregivers of adults age 60 or older; grandparents and caregivers, age 55 or older, of children not more than 18 years of age, who are related by blood, marriage or adoption; parents, age 55 years or older, caring for an adult child with a disability.

Workload History:

Fiscal Year	Units of Service	Average Monthly Units of Service
FY11	74,612	6,217
FY12	41,395	3,450

Funding Stream: Title III - Older Americans Act Funds through the Administration on Aging; Healthy Nevada Fund from the Tobacco Settlement Fund

Comment: SFY 2013 reflect an increase due to changes in reporting requirements. SFY 2014 Q1 and Q2 show an upward trend due to the funding of new ADRC serving the rural areas. Q3 and Q4 remain stable. In SFY14 and SFY15 the ADRC program began focusing efforts on Options Counseling which is a more holistic approach to service delivery, versus information and referral. Additionally, in SFY16 ADRCs stopped tracking contacts and are only tracking ¼ hour units due to the upcoming implementation of the SAMS I&R module. In addition, in SFY16 we have reduced the number of providers from 7 to 4 to encourage broader service areas and achieve statewide coverage of the program.

Web Link: <http://adsd.nv.gov/uploadedFiles/adsdnvgov/content/Programs/Grant/ServSpecs/NationalFamilyCaregiverSupportProgram.pdf>

Nevada Department of Health and Human Services, ADSD

2.11 Taxi Assistance Program

Program: Allows seniors age 60 and older and those of any age with permanent disability in Clark County to use taxicabs at a discounted rate. Funded by the Nevada Taxicab Authority by a surcharge on taxicab rides.

Eligibility: Age 60 or older or permanently disabled of any age with Nevada ID and having incomes within the program criteria.

Workload History:

Fiscal Year	Units of Service
FY12	40,331

Other: As of Sept 30, 1,402 individuals are enrolled in the program as Active. Clients in Active status meet all the program eligibility requirements and have provided the required proof of income. The Chart depicts the total number of books sold each quarter per state fiscal year. The number of books available for sale is limited by the amount of funding received from the Nevada Taxicab Authority. The Legislatively Approved Tier changes with income eligibility requirements were implemented October 2012 and amended October, 2014.

Funding Stream: Nevada Taxicab Authority

Comment: This program typically has its highest coupon book sales during Quarter (Q)1 and Q4 of each SFY, which are also the warmest months in Clark County.

Web Link: http://adsd.nv.gov/Programs/Seniors/TAP/TAP_Prog/

Nevada Department of Health and Human Services, ADSD

2.12 Senior Rx and Disability Rx

Program: Nevada Senior/Disability Rx helps eligible applicants obtain essential prescription medications. Some members may also receive help with the monthly premium (if applicable) for their Part-D plan. Eligible members may use the program as a secondary payer during the Medicare Part-D coverage gap.

Eligibility: Residency -- Continuous Nevada resident for the 12 months prior to application. Annual Household Income Limit -- Effective 7/1/2016 = \$28,119 for singles, \$37,483 for couples. Age -- For Senior Rx, age 62 or older. For Disability Rx, age 18 through 61 with a verifiable disability.

Workload History:

Fiscal Year	Senior Rx		Disability Rx	
	Average Cases	Total Expenditures	Average Cases	Total Expenditures
FY10	4,786	\$3,635,391	508	\$504,406

FY17 Total	14,969	2,269
FY17 Avg	4,990	756

Comment: Beginning in FY-15 funding for this program was reduced, so program and fiscal staff monitors caseload growth and its impact on direct services expenditures to ensure program costs stay within authority going into FY16 and FY17, including discussions of any actions necessary to stay within budget.

Web Link: <http://adsd.nv.gov/Programs/Physical/DisabilityRx/DisabilityRx/>

Nevada Department of Health and Human Services, ADSD

2.13 State Health Insurance Assistance Program (SHIP)

Program: Provides information, counseling, and assistance services to Medicare beneficiaries, their families and others. These services are provided relevant to: Medicare Part D Prescription Drug Coverage; Medicare Part A-Hospital; Medicare Part B-Medicare; Medicare supplemental insurance; long-term care insurance; Medicare Part C-Advantage Plans; Extra Help Part D drug program; beneficiary rights and grievance appeal procedures. Referrals to other community resources are made as needed.

Eligibility: Medicare Beneficiaries; Seniors age 65 or older and/or persons with a verified disability of any age and their caregivers.

Workload History:

	Total SHIP Contacts	Quarterly Average
FY07	9,650	2,413
FY08	11,718	2,930
FY09	14,458	3,615
FY10	14,668	3,667
FY11	17,345	4,336
FY 12	20,840	5,210
FY 13	17,934	4,484
FY 14	18,323	4,581
FY 15	18,513	4,628
FY 16	19,316	4,676
FY 17*	19,820	4,955

*FY 17 data is annualized.

Other: SHIP utilizes trained volunteers, contract staff and partners for outreach and Medicare beneficiary navigation enrollment assistance. Services are advertised through outreach events, websites, referrals and training. Medicare beneficiaries call a statewide, toll-free phone number and are referred to a trained volunteer to assist with explanation and access of health benefits. SHIP contacts/encounters are entered into the Centers for Medicare and Medicaid Services (CMS) database and reported periodically as required to CMS and ACL.

Funding Stream: The Administration for Community Living (ACL) & ILG State Funds.

Analysis of Trends: Due to complexities associated with Medicare assistance, counseling sessions are more time consuming and sometimes involve case management related duties, and require providing beneficiaries with a number of referrals and assistance with social needs. Volunteers are reluctant to do counseling because of the complexity of the job and the time commitment for training and counseling. As of September 30, 2016, there are 77 volunteers statewide, 39 of whom are SHIP Certified Counselors and some currently in certification training to continue the efforts of SHIP and increase the workforce behind Medicare counseling.

Nevada Department of Health and Human Services, ADSD

2.14 Home and Community Based Waiver (HCBW) – Frail Elderly

Program: The Aging and Disability Services Division (ADSD) Home and Community Based Waiver (HCBW) for the Frail Elderly provides waiver services to seniors to help them maintain independence in their own homes and communities as an alternative to nursing home placement. HCBW services can include the following: Case Management, Homemaker, Adult Day Care, Adult Companion, Personal Emergency Response System, Chore, Respite, and Augmented Personal Care and access to State Plan Personal Care Services.

Eligibility: Must be 65 years old or older; at risk of nursing home placement within 30 days without services; financially eligible (300% of SSI income up to \$2,199.00); need assistance with one or more of the following: bathing, dressing, eating, toileting, ambulating, transferring. Applies for and is determined eligible for full Medicaid benefits through the Division of Welfare and Supportive Services (DWSS).

Workload History:

Fiscal Year	Average Caseload	Budgeted Avg Caseload	Average Waitlist	Total Expenditures
FY11	1,223	1,438	150	\$4,016,041
FY12	1,176	1,241	151	\$4,563,023
FY13	1,630	1,713	242	\$6,222,738
FY14	1,687	1,745	262	\$5,856,376
FY15	1,752	1,857	572	\$5,904,555
FY16	1,857	1,907	527	\$4,704,476
FY17 YTD	1,881	2,030	346	Not Yet Available

FYTD:

Month	Caseload	Waitlist
Jul 16	1,884	385

Feb		
Mar		
Apr		
May		
Jun		
FY17 Total	5,644	1,038
FY17 Avg	1,881	346

Funding Stream: Medicaid/General Fund

Analysis of Trends: Staff turnover has been quite severe. Requirements for eligible hiring of case managers has now changed within the newly approved FE Waiver which will provide a wider range of eligible candidates resulting in faster processing of cases to minimize waitlist.

Note: Reporting structure starting July 1, 2014, combined the HCBW for the Frail Elderly Waiver with the Assisted Living Waiver.

Web Link: http://adsd.nv.gov/Programs/Seniors/HCBW/HCBW_Prog/

Nevada Department of Health and Human Services, ADSD

2.15 Home and Community Based Waiver (HCBW) - Physically Disabled

Program: The State of Nevada Waiver for the Physically Disabled is now operated by ADSD as it was merged July 2015 from the Nevada Division of Health Care Financing and Policy (DHCFP). The goals of this waiver are to provide the option of home and community-based services as an alternative to nursing facility placement and to allow maximum independence for persons with physical disabilities who would otherwise need nursing facility services.

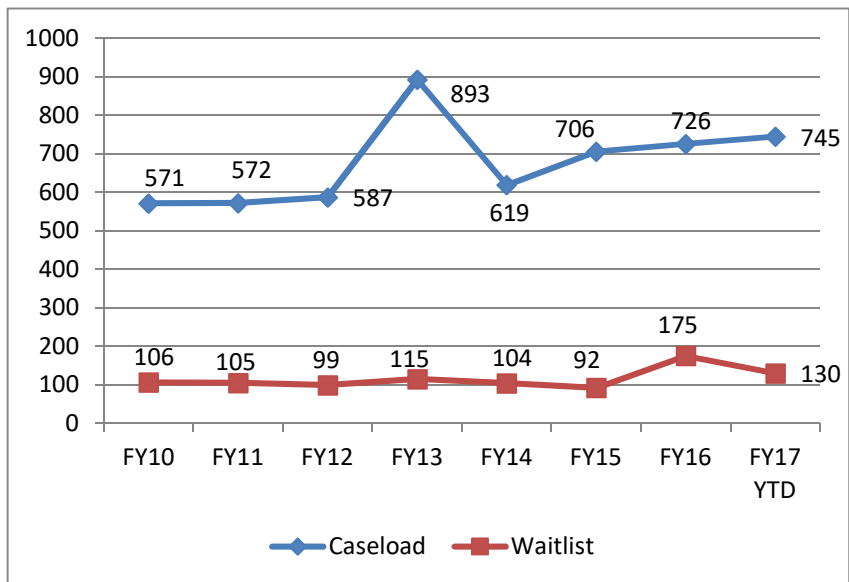

Eligibility: Interest in waiver services initiates a screening process to determine if the individual appears to meet the following eligibility requirements:
 *Without the waiver services, would require institutional care provided in a skilled nursing facility or intermediate care facility for the intellectually disabled (ICF/ID);
 *Applies for and is determined eligible for full Medicaid benefits through the Division of Welfare and Supportive Services (DWSS);
 *Is certified as physically disabled by DHCFP's Central Office Disability Determination Team.

Workload History:

State Fiscal Year	Average Caseload	Budgeted Average Caseload	Average Waitlist	Total Expenditures
FY11	572	579	105	\$3,860,025
FY12	587	579	99	\$3,434,462
FY 13	563	579	115	\$3,487,297
FY 14	619	630	104	\$3,744,300
FY 15	706	714	92	\$4,635,137
FY 16	726	741	175	\$1,896,495
FY 17 YTD	745	780	130	Not Yet Available

Caseload FYTD:

Month	Caseload	Waitlist
Jul 16	738	142
Aug	751	124
Sep	745	124
Oct		
Nov		
Dec		
Jan 17		
Feb		
Mar		
Apr		
May		
Jun		
FY17 Total	2,234	390
FY17 Avg	745	130

Comments: The waitlist is growing and caseload decreasing as a result of increased referrals, wait time for eligibility and high staff turnover in the fourth quarter. We anticipate this trend will reverse itself by the end of the fiscal year as cross-training of FE and PD staff continues enabling more efficient processes.

Website: http://adsd.nv.gov/Programs/Seniors/HCBW/HCBW_Prog/

Nevada Department of Health and Human Services, ADSD

2.16 Personal Assistance Services

Program: This program provides in-home assistance with daily tasks like bathing, toileting and eating. Service recipients share in the cost of their services, based upon a sliding scale formula. Services are typically provided on an ongoing basis, however some applicants have terminal conditions and are only assisted for short-term periods.

Eligibility: Applicants must be over age 18, have a severe physical disability, and must have all their care needs addressed when the resources of this program are combined with other resources available to the applicant (family, friends, assistive technology, private-pay care, etc.). Note: PAS Services are for those that do not meet the financial criteria for Nevada Medicaid or are waiting for the Frail Elderly or Physically Disabled Waiver program.

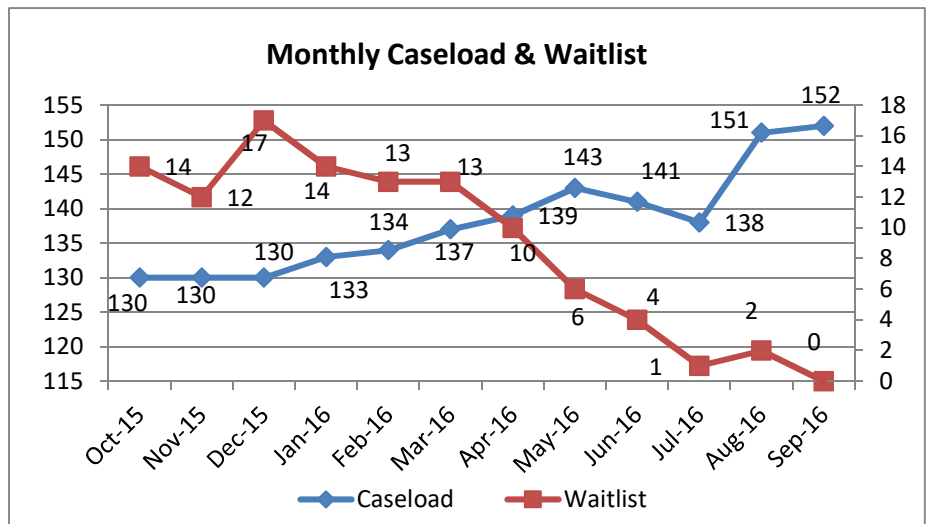

Workload History:

Fiscal Year	Average Caseload	Average Waitlist	Expenditures
FY 10	162	185	\$3,239,720
FY 11	157	87	\$3,196,309

Nevada Department of Health and Human Services, ADSD

2.17 Disability Services – Assistive Technology for Independent Living

Program: The Assistive Technology for Independent Living (AT/IL) Program helps individuals to remain living in the community by making their homes and vehicles more accessible. Some clients share in the cost, on a sliding scale. The program provides one-time services that are not provided on an ongoing basis.

Eligibility: Applicants must have a severe disability that results in significant limitation in their ability to perform functions of daily living, and there must be an expectation that services will help to improve or maintain their independence.

Workload History:

Fiscal Year	Applications	Cases Closed	Expenditures
FY 11	295	321	\$1,528,652
FY 12	322	244	\$1,586,976
FY 13	297	199	\$1,045,448

Other: The average household income of program applicants is \$1,781 per month with an average household size of 1.7 people. The average age of those served is 60. The most commonly provided services are home that provide access into the home and to bathroom; and vehicle modifications to transport their mobility devices.

Funding: Funding for this program is provided through a Federal and State partnership. It is a "resource of last resort," meaning that applicants must exhaust other public and private resources before receiving assistance. The program helps Nevadans to avoid institutional placement and to leverage care and other resources available from family and friends.

Web Links: <http://adsd.nv.gov/Programs/Physical/ATforIL/ATforIL/>

Nevada Department of Health and Human Services, ADSD

2.18 Disability Services – Traumatic Brain Injury Services

Program: The Traumatic Brain Injury Program provides one-time rehabilitation services that enable recipients to gain or maintain a level of independence, by re-learning how to walk, talk and conduct other routine activities. After a person is injured, there is a short window of opportunity in which they can be effectively rehabilitated.

Eligibility: Applicants are generally between age 18 and 50, must have a recent brain injury, and must present as a good candidate for successful rehabilitation.

Workload History:

Fiscal Year	Active Cases	Cases Closed	Expenditures
FY 11	106	40	\$1,538,063

Other: This program has consistently met its 90-day waiting time target under the US Supreme Court's Olmstead Decision. Traumatic Brain Injury is six times more common than breast cancer, HIV/AIDS, spinal cord injuries and Multiple Sclerosis...combined.

Funding: Funding for this program is provided entirely through the State general fund. This program is a "resource of last resort," meaning that applicants must exhaust other sources of funding before receiving assistance. The program helps Nevadans to avoid institutional placement and to leverage care and other resources available from family and friends. The number of persons served shown is for those applicants who meet the program's criteria for having maximum rehabilitation potential.

Web Links: <http://adsd.nv.gov/Programs/Physical/TBIProg/TBI/>

Nevada Department of Health and Human Services, ADSD

2.19 Disability Services – Communication Services

Program: The Communication Services Program provides telecommunications equipment to enable recipients to have access to the Relay System. The Relay system allows persons who are Deaf, Hard of Hearing or persons with speech disabilities to communicate with persons who use a standard telephone.

Eligibility: Recipients must have a documented communication disability.

Per Capita/Key

This program does targeted outreach to rural areas and the following demographic groups: persons with communication disabilities, who are minorities, have lower income, are children or are seniors.

Demographics:

Funding:

Funding for this program is provided entirely through the telecommunications surcharge assessed on each phone in Nevada and collected by the Public Utilities Commission (PUC). The Federal Communications Commission (FCC) mandates state relay programs for telephone access.

Analysis of

The difference in number of person served this year compared to previous years was anticipated due to Public Utilities Commission's change in service delivery.

Trends:

Nevada Department of Health and Human Services, ADSD

2.20 Autism Treatment Assistance Program (ATAP)

Program: The Autism Treatment Assistance Program helps families of children ages 0-19, with Autism Spectrum Disorders, to establish and fund home-based therapy programs. Funds are used to pay clinical professionals who design the therapy programs and train lay-providers to deliver the therapy, as well as to pay the lay-providers for the delivery of services.

Eligibility: Recipients must be under age 19 and have a documented diagnosis of an Autism Spectrum Disorder. Applicants are prioritized based upon a number of factors relating to their need and opportunities for successful therapy.

Workload History:

Fiscal Year	Average Caseload	Average Waitlist	Expenditures
FY 11	108	208	\$1,885,987
FY 12	122	231	\$1,959,167
FY 13	134	275	\$2,390,915
FY 14	212	532	\$3,493,764
FY 15	437	516	\$6,740,509
FY 16	642	542	\$11,065,626
FY 17	673	581	\$6,176,928

FY17 Avg	673	581

Analysis of

Trends:

There are no identifiable data trends for new ATAP applicants. Applications and New Referrals arrive with no discernable predictability other than thru normal population growth. ATAP received an increase in funding during the 2013 Legislative Session for FY14-15, causing an increase in caseload.

Funding:

Funding for this program was provided entirely through the state general fund during FY 07-12, but transferred to the Fund for a Healthy Nevada in FY 13.

2.21 Developmental Services

Program: Developmental Services provides a full array of community based services for people with Intellectual Disabilities and Related Conditions and their families in Nevada. The goal of coordinated services is to assist persons in achieving maximum independence and self-direction. Service coordinators assist individuals and families in developing a person centered life plan focused on individual needs and preferences for the future. They also assist people in selecting and obtaining services and funding to achieve personal goals, community integration and independence. Major programs provided to achieve these goals include Community based residential supports, Jobs & Day Training Supports and Family Supports.

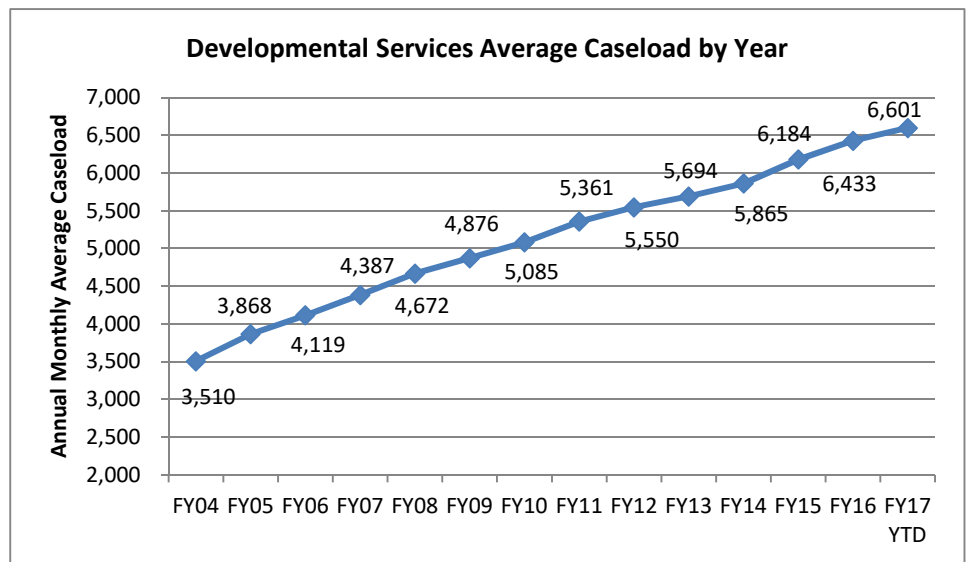

Eligibility: All individuals who meet Developmental Services eligibility requirements of Intellectual Disability diagnosis or Related Conditions and three of six major life skill limitations who apply for services receive basic service coordination. Developmental Services agencies provide many services to Medicaid eligible clients. Provider based services are given under a Medicaid waiver depending on the level of care the individual needs. Direct services are provided under the Medicaid State Plan.

Workload History:

Fiscal Year	Total Expenditures	Average Caseload
FY09	\$139,752,916	4,876
FY10	\$126,585,304	5,085

2.22 Early Intervention Services (Part C, Individuals with Disabilities Education Act)

Program: Early Intervention is a system of services and supports individually designed to help families meet the specific needs of their children. Early Intervention programs provide services based on the regulations provided by Part C of the Individuals with Disabilities Act (IDEA).

The mission of Nevada’s Early Intervention Services is to identify infants and toddlers (ages 0-3) who are at-risk for, or who have developmental delays; provide services and supports to families to meet the individualized developmental needs of their child; and facilitate the child’s learning and participation in family and community life through the partnerships of families, caregivers and service providers.

Early Intervention has regional sites in Las Vegas, Carson City, Reno, and Elko and contracts with community providers to provide services as well. Children ages birth through two years will be determined eligible for early intervention services if they meet the state’s defined eligibility criteria through medical diagnosis, test scores from standard evaluation tools or by informed clinical opinion.

Workload History:

Fiscal Year	Monthly Average Cases	Total Expenditures	Total Referrals
FY 12	2,735	\$22,649,687	5,216
FY 13	2,830	\$23,642,678	5,427
FY 14	2,892	\$25,637,476	5,737
FY 15	3,102	\$30,088,365	6,275
FY 16	3,414	\$35,531,716	6,587
FY 17*	3,502	\$29,809,736	7,216

*FY 17 data is annualized

FYTD:

FY17 Total	1,804	10,505	12	22	761
FY17 Avg	601	3,502	4	7	254

*IFSP – Individualized Family Service Plan

Comments: Referrals include children who are Part C referrals but also children who are CAPTA (Child Abuse Prevention and Treatment Act), Audio Only and SaM (Screening and Monitoring) referrals. Total IFSPs includes children who were in "active" status during the month because they were determined eligible and have an active IFSP. It also includes children who have now exited from the program but would have been eligible with an active IFSP during that month. Total IFSPs and referral are not mutually exclusive. Children who were referred during the month may be included in the total IFSP numbers if the child was found eligible for services and has an active IFSP or if the child exited during that time frame and had an active IFSP. Data may vary from previous months due to methodology, process, and /or data source. Data from January 2016 to current were provided by Nevada Early Intervention Services and were pulled from TRAC-IV using Crystal Reports. Waiting for services includes children who have not initiated any services and all services are over the 30-day timeline. "Waitlist" sheet & "Wait by Service" sheet include ANY service that has not met the 30-day timeline.

Nevada Department of Health and Human Services, DCFS

3.01 Adoption Subsidies

Program: It is the policy of the agencies providing child welfare services to provide financial, medical, and social services assistance to adoptive parents, thereby encouraging and supporting the adoption of special-needs children from foster care. A statewide collaborative policy outlines the special-needs eligibility criteria, application process, types of assistance available and the necessary elements of a subsidized adoption agreement.

Eligibility: To qualify for assistance, the child must be in the custody of an agency which provides child welfare services, or a Nevada licensed child-placing agency, and an effort must have been made to locate an appropriate adoptive home which could adopt the child without subsidy assistance. The child must also have specific factor(s) or condition(s) that make locating an adoptive placement resource difficult without recruitment, special services, or adoption assistance; such as being over the age of five, having siblings with whom they need to be placed, or having a physical, mental or behavioral condition that results in the need for treatment.

Other: All three public child welfare agencies, Clark County Department of Family Services (CCDFS); Washoe County Department of Social Services (WCDSS); and the Division of Child and Family Services (DCFS) Rural Region, administer the subsidy program with state oversight and in accordance with statewide policy.

FYTD:	Clark	Washoe	Rurals	Total
Jul 16	4,894	1,394	457	6,745
Aug	4,925	1,405	460	6,790
Sep	4,964	1,397	463	6,824

Jun				
FY17 Total	14,783	4,196	1,380	20,359
FY17 Avg	4,928	1,399	460	1,851

Analysis of Trends: The number of adoption subsidies has increased during the past two years in all public child welfare agencies. This fluctuation in the number of subsidies for that time period can be attributed to the rate of finalized adoptions and the number of subsidies that terminated as adopted youth reached the age of 18 years old.

Website: <http://dcfs.nv.gov/Programs/CWS/Adoption/Guide/InfantAdoptions/>

Nevada Department of Health and Human Services, DCFS

3.02 Child Protective Services (CPS)

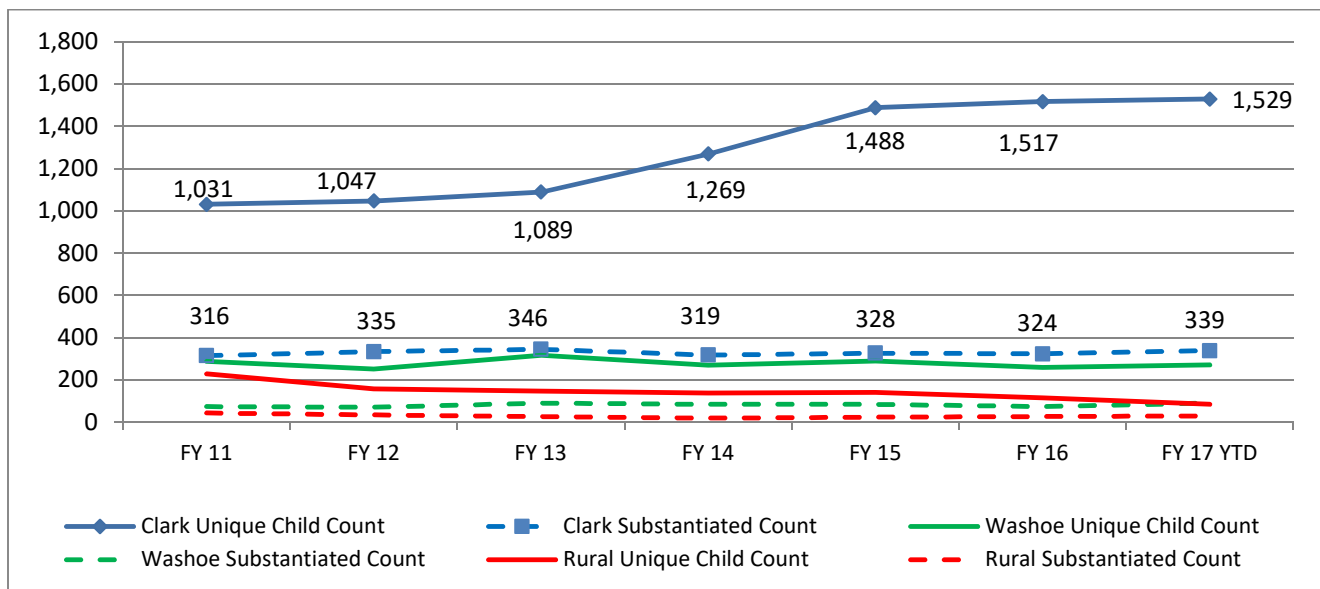

Program: CPS agencies respond to reports of abuse or neglect of children under the age of eighteen. Abuse or neglect complaints are defined in statute, and include mental injury, physical injury, sexual abuse and exploitation, negligent treatment or maltreatment, and excessive corporal punishment. The CPS worker and family develop a plan to address any problems identified through assessment. Families may be referred to community-based services to prevent their entry into the child welfare system.

Administration: Division of Child and Family Services (DCFS) Family Program's Office has oversight responsibility to monitor compliance with federal/state requirements and provide technical assistance as needed. Federal funding is administered through DCFS to child welfare programs in Clark and Washoe Counties. Rural programs are administered directly by DCFS.

FYTD:

	Clark County		Washoe County		Rural Counties	
	Unique Child Count*	Substantiated Count	Unique Child Count*	Substantiated Count	Unique Child Count*	Substantiated Count

FY17 Avg	1,529	339	272	92	85	31

*Unduplicated report of maltreatment. Multiple cases may occur in a single household.

Analysis of Trends: The number of child abuse and/or neglect victims and unsubstantiated reports has risen in Clark County within the last two years. Media attention on this subject has heightened public awareness, resulting in a substantial increase of calls to the DCFS hotline. As a result, the number of investigations has also increased as well as the number of alleged victims.

Website: <http://dcfs.nv.gov/Programs/CWS/CPS/CPS/>

Nevada Department of Health and Human Services, DCFS

3.03 Differential Response

Program: The Differential Response Program is a joint project between Community Based Service Providers and the three child welfare agencies. Reports of child maltreatment that meet the statutory threshold for a home visit to determine child well-being, where there is not an imminent threat to the child's safety, may be referred to the Differential Response program for assessment and case management. Typically, these reports involve such issues as educational neglect, environmental neglect, medical neglect, and improper supervision. Frequently the Community Based Service Provider is able to assist the family in accessing services that will assist the family in providing positive interactions and a safe environment for their children.

Service Areas: Service Areas: Services are provided in the following counties: Clark, Washoe, Elko, Carson City, Douglas, Storey, Churchill, Lyon, Mineral, Pershing and southern Nye.

Workload History:

Fiscal Year	Referred	Returned	Served	Closed
FY07	90	16	74	33
FY08	362	66	296	247
FY09	912	147	765	665
FY10	1,053	76	977	906
FY11	1,137	44	1,093	1,135
FY12	1,234	47	1,187	1,182
FY13	1,319	13	1,306	1,324
FY14	1,367	32	1,335	1,333
FY15	1,421	42	1,379	1,403
FY16	1,436	27	1,409	1,396

Comments: The chart reflects ongoing caseloads. Reports screened for a DR response typically involved families with basic needs, followed by educational neglect, lack of supervision, medical neglect, and various family problems. Currently, DR referrals reflect approximately 9 percent of the child maltreatment reports in the communities served. If expanded statewide, it is estimated that DR referrals could reach 17 percent of total child maltreatment reports. Nevada is one of 22 states implementing Differential Response.

Website: http://dcfs.nv.gov/Programs/CWS/DR/DR_Program/

Nevada Department of Health and Human Services, DCFS

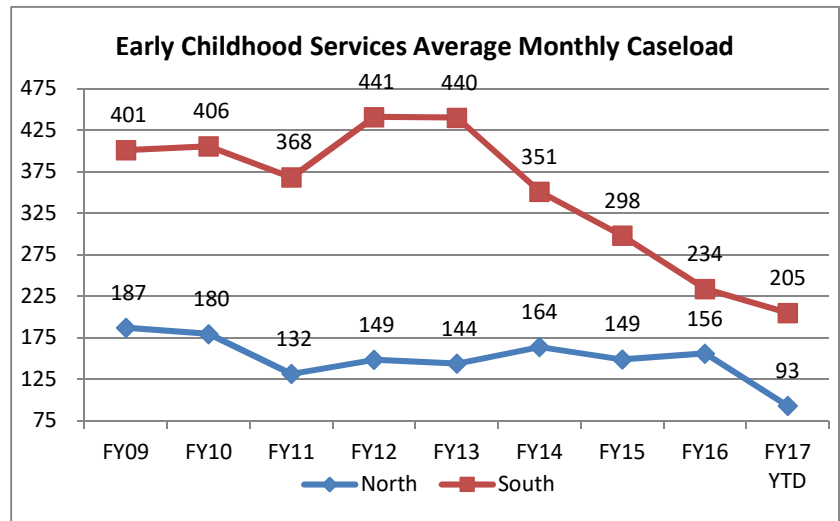

3.04 Early Childhood Services

Program: Early Childhood Mental Health Services are available for eligible children from birth to 6 years of age who have significant emotional, mental health, or behavior problems or those who are at high risk for these problems and associated developmental delays. The goal is to strengthen the parent-child relationship, support the family's capacity to care for the child, and to enhance the child's social and emotional well-being. Northern Nevada Child & Adolescent Services is located in Washoe County, and Southern Nevada Child & Adolescent Services is located in Clark County.

Eligibility: Birth through age six.

Other: Serves children who are covered under fee-for-service Medicaid, HMO Medicaid, or Nevada Check Up, and children who are uninsured or underinsured.

FYTD:	North	South

Mar		
Apr		
May		
Jun		
FY17 Total	278	614
FY17 Avg	93	205

Analysis of Trends: Early Child Mental Health Services counts continue to decrease primarily due to staff shortages, and also because of a decrease in the number of youth with fee-for-services Medicaid. Staff typically provide 25 client hours of billable time and additional non-billable services per week. During periods of severe staff shortages, clients are either transferred to other programs or have their services ended.

Website: http://www.dhhs.state.nv.us/DCFS_CommunityBasedOPSvcs.htm

Nevada Department of Health and Human Services, DCFS

3.05 Foster Care – Out-of-Home Placements

Program: Foster Care services are provided as temporary placement for children who are removed from the home to protect them from harm or risk. Needs assessments are conducted and a caseworker arranges care and services for the child, and also provides counseling to the child, biological parents, and the foster/substitute care provider. Permanency plans developed with the district court may include reunification, kinship placement, adoption or other planned permanent living arrangements.

Administration: Division of Child and Family Services (DCFS) Family Program's Office has oversight responsibility to monitor compliance with federal/state requirements and provide technical assistance as needed. Federal funding is administered through DCFS to child welfare programs in Clark and Washoe Counties. Rural programs are administered directly by DCFS.

FYTD:	Clark	Washoe	Rurals	Total

FY17 Total	9,382	2,853	1,122	13,357
FY17 Avg	3,127	951	374	4,452

Analysis of Trends: In November 2013, the Nevada Safety Model was first implemented in Clark County. This model has enhanced the staff's ability to identify appropriate services to reduce safety issues and may have contributed to fewer reports of maltreatment and reduced out-of-home placements.

Website: http://www.dchs.state.nv.us/DCFS_PlaceRes.htm

Nevada Department of Health and Human Services, DCFS

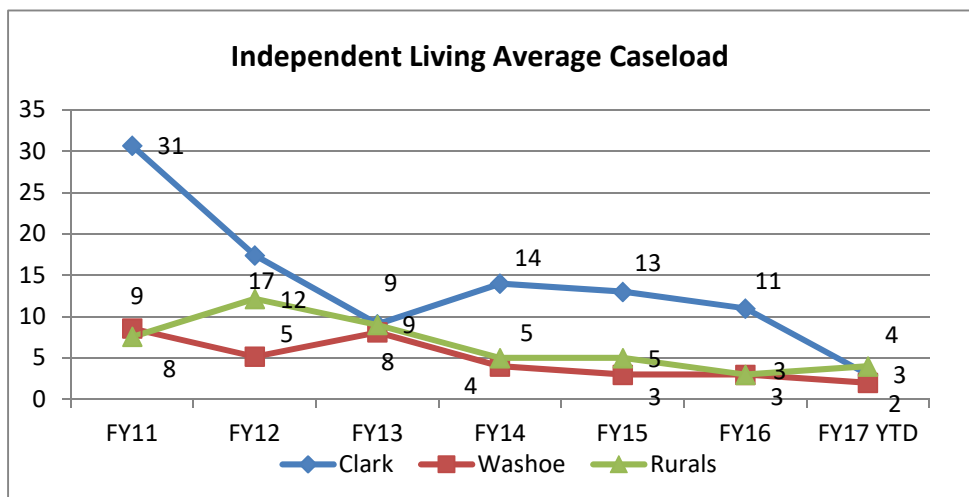

3.06 Foster Care – Independent Living

Program: The Nevada Independent Living Program is designed to assist and prepare foster and former foster youth in making the transition from foster care to adulthood by providing opportunities to obtain life skills for self-sufficiency and independence. The Independent Living Program does this by offering many learning and training opportunities along with financial assistance. The three major sources of funding to assist foster youth in care and those that have aged out of the foster care system come from the federal and state government.

Eligibility: Services are available to youth aged 14 and above who are currently in foster care and to former foster youth who have aged out of the foster care system at age 18. Youth who were adopted from foster care on or after their 16th birthday is also eligible for services. Those who aged out of care may continue receiving services to age 21, including those who came to Nevada from another state.

Other: Supplemental financial assistance is provided through the Fund to Assist Former Foster Youth (FAFFY). These funds provide assistance with household goods, job training, housing assistance, case management and medical insurance. Assistance is available up to age 21.

Nevada Department of Health and Human Services, DCFS

3.07 Juvenile Justice – Facilities

Caliente Youth Center (CYC): Opened in 1962 and renovated in 1977. Juvenile facility/training school. Security: staff-secure. Programs: academic education, vocational training, substance-abuse education, psychological counseling, outdoor work crew, behavior/anger management, violence prevention, prerelease/transitional training, cognitive-skills training, private family visitation.

Nevada Youth Training Center (NYTC): opened in 1913 and renovated in 1961. Juvenile facility/training school. Security: staff-secure. Programs: academic education, vocational training, substance-abuse counseling, psychological counseling, behavior/anger management, cognitive-skills training, violence prevention, private family visitation, NIAA interscholastic sports.

Summit View Youth Correctional Center (SVYCC): Re-opened as State-run facility in February of 2016. Security: Physically-secure. Programs: academic education, vocational training, substance-abuse counseling, psychological counseling, behavior and anger management, family visitation, transition planning, positive behavioral interventions and supports.

FYTD:	CYC	NYTC	SVYCC	Total

FY17 Total	345	134	119	598
FY17 Avg	115	45	40	50

Analysis of Trends: Initiatives such as the Juvenile Detention Alternatives Initiative (JDAI), state investments in front-end programs and the targeted focus of the Nevada Supreme Court Commission on Statewide Juvenile Justice Reform have driven efforts in Juvenile Justice to reduce State commitments. The populations of NYTC and CYC lowered upon opening of SUYC. The Division is currently working with the Council of State Governments in an in-depth analysis of our Juvenile Justice System.

Website: <http://dcfs.nv.gov/Programs/JJS/>

Nevada Department of Health and Human Services, DCFS

3.08 Juvenile Justice – Youth Parole

Program: The Nevada Youth Parole Bureau has offices in Las Vegas, Reno, Carson City, Fallon and Elko. The staff is committed to public safety, community supervision, and services to youth returning home from juvenile correctional facilities. All youth parole counselors have been trained and certified as peace officers and act in accordance in the performance of their duties. Working closely with families, schools and the community, parole counselors help each youth maintain lawful behavior and encourage positive achievement. The Bureau also supervises all youth released by other states for juvenile parole in the State of Nevada pursuant to interstate compact.

Eligibility: Males and females; Felony and misdemeanor adjudications. Ages 12-21.

Nevada Department of Health and Human Services, DCFS

3.09 Children's Clinical Services

Program: Outpatient therapy services are available for eligible children and adolescents who have significant emotional, mental health, or behavior problems. These services work with children and their families to reduce challenging behaviors, increase emotional and behavioral skills, improve functioning at home, in school and in the community, and strengthen the parent-child relationship while supporting the family's capacity to care for their child's needs. Northern Nevada Child & Adolescent Services is located in Washoe County, and Southern Nevada Child & Adolescent Services is located in Clark County.

Eligibility: Ages 6 to 18.

Other: Serves children who are covered under fee-for-service Medicaid, HMO Medicaid, or Nevada Check Up, and children who are uninsured or underinsured.

Analysis of Trends Due to a shortage of staff (including nurses, clinical social workers, and psychiatrists, for example), several units had to be closed since 2010, resulting in a decrease in children's clinical services.

Website: <http://dcfs.nv.gov/Programs/CMH/Community-Based-Outpatient-Services/>

Nevada Department of Health and Human Services, DCFS

3.10 Residential Treatment Services

Program: Treatment Center services work in the context of family and community life with children and adolescents whose emotional, mental health, and behavioral needs cannot be met in their own families and who require a higher level of mental health intervention in an out of home setting. Inpatient acute hospital care provides services for eligible children and adolescents ages 6 to 18 years who are at immediate risk of harm to themselves or others due to an emotional crisis and Residential Treatment center care for eligible children and adolescents from age 12 to 18 years with treatment needs that require extended 24-hour secure care. Northern Nevada Child & Adolescent Services is located in Washoe County, and Southern Nevada Child & Adolescent Services is located in Clark County.

Eligibility: North: Ages 6 to 18 are served through Family Learning Homes; ages 13 to 18 are served through Adolescent Treatment Homes.

South: Ages 6 to 18 are served through Oasis on Campus Treatment Homes and Desert Willow Treatment Center.

Other: Serves children who are covered under fee-for-service Medicaid, HMO Medicaid, or Nevada CheckUp, and children who are uninsured or underinsured.

May		
Jun		
FY17 Total	98	88
FY17 Avg	33	29

Analysis of Trends:

1. In the North, counts were lower due to staff shortages.
2. In the South, the decline in Residential Treatment Services since SFY08 was due to the following reasons: As of the December 2015 update, DCFS had closed approximately six agencies with two more pending in the last two years. There had been a net decrease of approximately 50 Higher Level of Care (HLOC) beds over the last two years; the implementation of AB348 greatly increased the standards required for HLOC agencies. Many agencies have been unable to meet the requirements and were forced to close. Others voluntarily closed when their parent companies left Nevada. This led to the following:
 - a. A decrease in the number of agencies providing services.
 - b. Agencies accepting sibling groups to fill their beds instead of specialized placements. Agencies universally prefer higher-functioning sibling groups that pay nearly the same as the HLOC rate.
 - c. A change in Medicaid approval of Basic Skills Training/Psychosocial Rehabilitative (BST/PSR) services. The statewide Specialized Foster Care Pilot may have impacted the decrease as well.

Website: <http://dcfs.nv.gov/Programs/CMH/Resident-day-treatment-svcs/>

Nevada Department of Health and Human Services, DCFS

3.11 Intensive Care Coordination Services

Program: Intensive Care Coordination is provided using a wraparound model for children, ages birth to eighteen years, with severe emotional disturbance and multiple, complex needs across multiple child serving systems. Services include assessment, case planning, crisis response, and monitoring. Needs that require extended 24-hour secure care. Northern Nevada Child & Adolescent Services is located in Washoe County, and Southern Nevada Child & Adolescent Services is located in Clark County.

Eligibility: Ages 6 to 18.

Other: Serves children with fee-for-service Medicaid benefits.

Nevada Department of Health and Human Services, DHC FP

4.01 Medicaid Totals

Program: Medicaid is a joint Federal-State program that provides medical services to clients of the State public assistance program and, at the State's option, other needy individuals, as well as augments hospital and nursing facility services that are mandated under Medicaid. States may decide on the amount, duration, and scope of additional services, except that care in institutions primarily for the care and treatment of mental disease may not be included for persons over age 21 and under age 65.

Eligibility: Eligibility for Medicaid is not easily explained as there are a number of different mandatory and several optional categories where eligibility can be approved. For more detailed information about the many different categories of Medicaid eligibility, please access the link below and select "Eligibility & Payments Information Manual" off the Home page. Next select the "Maps" tab.

Member Months	1,909,858
Average Caseload	636,619

All statistics are estimates only and must be qualified as such if used either verbally or in written form.

Analysis of Trends: Recent trends in caseload growth are due to the expansion of Medicaid enrollment brought on by the implementation of The Patient Protection and Affordable Care Act (PPACA). All of the significant changes in caseload prior to the implementation of the PPACA, including the FY 2007 "dip", arose for macroeconomic reasons. There were no material explanatory changes in other areas (e.g., eligibility criteria or take-up rate) during the period. The principal causal factors are (1) population/demographic change, (2) secular trends in returns-to-skills, (3) the cyclic variation in the overall economy, (4) the cyclic variation in the labor market and (5) the complex lags associated with the aforementioned cycles and caseloads for means-tested social programs. Select the below link and at the bottom right hand corner of the Home page, under "State Employees", select "Budget & Caseload Statistics".

4.02 Medicaid Waivers

Program: **Waiver for the Frail Elderly (FE)** - This waiver serves recipients age 65 or older who demonstrate a need of waiver services, as determined by the Division for Health Care Financing and Policy (DHC FP) and the Aging and Disability Services Division (ADSD), and who maintain the required Level of Care (LOC) (admission into a Nursing Facility within 30 days if waiver services or other supports were not available).

Waiver for Individuals with Intellectual Disabilities and Related Conditions (IID) - This waiver serves recipients of all ages who have a documented intellectual disability or related condition, such as Autism or Down Syndrome, as determined by the Division of Health Care Financing and Policy (DHC FP) and the Aging and Disability Division (ADSD), and who maintain the required Level of Care (LOC) (admission into a Nursing Facility within 30 days if waiver services or other supports were not available).

Waiver for Persons with Physical Disabilities (PD) - This waiver serves recipients of all ages who have a documented physical disability, as determined by the Division of Health Care Financing and Policy (DHC FP) and the Aging and Disability Services Division (ADSD), and who maintain the required Level of Care (LOC) (admission into a Nursing Facility within 30 days if waiver services or other supports were not available).

Caseload

Analysis of

Trends:

Actual caseload data is trending slightly below both budgeted and projected caseloads. Expenditures in total and in average cost per client are above budgeted amounts most likely because budgeted expenditures were too conservative. Expenditures for these types of waivers, which are home and community based, can be difficult to predict due to their nature.

<https://dwss.nv.gov/>

Nevada Department of Health and Human Services, DHCFS

4.03 Child Welfare

Program: This category contains medical costs for child welfare cases involving children for whom a public agency is assuming full or partial financial responsibility.

Eligibility: For recipients who qualify for Medicaid under the child welfare eligibility guidelines, regardless of whether they are in state, county, or parental custody.

Funding: Funding for this program is split 64.74% Federal funds and 35.26 State General Fund.

Workload History:

Fiscal Year	Average Cases	Total Expenditures
FY 12	7,453	\$81,090,998
FY 13	7,314	\$77,728,952
FY 14	8,314	\$80,223,551

FY 17 Member Months	32,948
FY17 Average Caseload	10,983

All statistics are estimates only and must be qualified as such if used either verbally or in written form.

Comment: Caseload for this targeted group is significantly above budgeted amounts and currently tracks just below projections. Overall expenditures for this group is above budgeted amounts due to a larger population than budgeted. The average cost per client fluctuates above and below budgeted amounts based on the type and amount of expenditures paid.

Website: <https://dwss.nv.gov/>

Nevada Department of Health and Human Services, DHC FP

4.04 County Indigent Program

Program: This category contains medical costs for the county indigent population. Nevada counties pay the non-federal portion of medical costs for institutionalized individuals and waiver recipients with incomes between 142-300 percent of the FBR. Counties are required to pay up to the proceeds of an eight cent ad valorem assessment determined by the Nevada Department of Taxation. Any costs above that, on an individual county level, is the responsibility of the State and illustrated in category 40, County Match Supplemental Fund.

Eligibility: Institutionalized recipients between 142-300 percent of the Federal Benefit Rate.

Funding: Nevada counties pay the non-federal portion of medical costs for institutionalized individuals and waiver recipients with incomes prescribed by the Director annually. Counties are required to pay up to the proceeds of an eight cent ad valorem assessment. Any costs above that, on an individual county level, is borne by the State.

Workload History:

Fiscal Year	Average Cases	Total Expenditures
FY 12	1,521	\$82,369,562
FY 13	1,513	\$69,436,551
FY 14	1,474	\$63,327,976
FY 15	1,467	\$65,454,612
FY 16	1,502	\$65,743,842

FY17 Average Caseload	1,511

Comment: At the current time actual caseload is in line with budgeted caseload. Projected caseloads are significantly above budgeted caseload numbers. The difference however is only a few participants which may make the chart differences appear larger due to a smaller population. In addition, total expenditures and average cost per client are significantly lower than budgeted amounts most likely due to estimates assuming higher cost care than has been required for this participant category.

Nevada Department of Health and Human Services, DHCFP

4.05 Health Insurance for Work Advancement (HIWA)

Program: HIWA provides necessary health care services and support for competitive employment of persons with disabilities aged 16 through 64. The program is designed so individuals with disabilities who are employed can retain or establish Medicaid eligibility if they meet certain eligibility criteria. Those receiving this coverage pay a monthly premium of between 5 percent and 7.5 percent of their monthly net income.

Eligibility: Citizenship, residency, disability and current employment are requirements of the program. The resource limit is \$15,000. A vehicle, special needs trusts, medical savings accounts and tax refunds are some of the resources which are excluded. There are several work-related expenses which are disregarded such as travel-related costs, employment-related personal care aid costs, service animal costs and other costs related to employment.

Other: HIWA was implemented in July 2004. Maximum gross unearned income limit, prior to disregard is \$699. Maximum gross earned income limit, prior to disregards is 450% of the Federal Poverty Level (FPL). The total net earned and unearned income must be equal to or less than 250% of the FPL. The individual must be disabled as determined by the Social Security Administration, either through current or prior receipt of social security disability benefits. A recipient losing employment through no fault of their own, remains eligible for three additional months provided the monthly premiums continue to be paid. Retroactive enrollment is permitted with payment of monthly premiums.

Workload History:

Nevada Department of Health and Human Services, DHCFP

4.06 Health Information Technology (HIT)

Program: The Health Information Technology for Economic and Clinical Health (HITECH) Act was enacted as part of the 2009 American Recovery and Reinvestment Act (ARRA) and authorized outlays for Health IT. It expanded the role of states in fostering a technical infrastructure to facilitate intra-state, interstate and nationwide health information exchange (HIE). Better health care does not come from the adoption of technology itself. It is accomplished through the electronic exchange and use of health information for effective clinical decisions at the time and point of care.

Health Information Technology (HIT) was responsible for administering the 4-yr. \$6,133,426 Nevada ARRA HITECH State HIE Cooperative Agreement awarded to DHHS, of which approximately \$4.2 million was actually expended. The funding was used to facilitate creating the core infrastructure and capacity enabling the electronic exchange of health information and coordinating related HIE initiatives, including state economic and workforce development. The State HIE Cooperative Agreement performance period was February 8, 2010 through February 7, 2014.

Other: As required by the grant, Nevada's State HIT Strategic and Operational Plan (State Health IT Plan) was approved by federal HHS in May 2011, and the most recent required updated version was approved October 2013. The plan's implementation was enabled and supported by NRS 439.581 through 439.595 (Senate Bill 43 passed in 2011).

Comments: In September 2009, Governor Jim Gibbons issued an Executive Order establishing the Nevada Health IT Blue Ribbon Task Force (HIT Task Force), to assist DHHS with the development of the State HIT Plan and to recommend legislative and policy actions. From October 2009 through January 2011, the HIT Task Force met almost monthly, under Open Meeting Law, and its final recommendations were incorporated into both the State Health IT Plan and SB 43. By Executive Order, the HIT Task Force sunset on June 30, 2011, after successfully completing its mission. Per NRS 439.588, the Nevada Health Information Exchange (NV-HIE) was established September 2012 as a Nevada domestic non-profit corporation. Due to an unclear path for financial sustainability and the existence of a competing HIE in the marketplace, the NV-HIE Board voted on January 24, 2014 to cease operations on February 7, 2014. On January 31, 2014, the NV-HIE Board voted to dissolve the corporation, which was done by the Nevada Secretary of State on February 28, 2014. At the end of the grant, Nevada was recognized by federal HHS for having the 2nd highest number of medical laboratory participants out of all 56 State and territory HIE grantees, and was commended for having 97% of its pharmacies enabled for and actively using e-Prescribing. Also, Nevada took a leadership role in interstate HIE, as a core member of the successful Western States Consortium federal grant project, and was a founding member of the National Association for Trusted Exchange (NATE), a non-profit organization made up of state HIE officials seeking to advance interstate HIE through state policy coordination.

Currently: Health Information Technology advancement is underway throughout the Department of Health and Human Services.

Nevada Department of Health and Human Services, DWSS

5.01 TANF Cash - Single Parent

Program: This program is a cash assistance program with its focus on employment and self-sufficiency. In order to receive continued monthly benefits, households must meet the conditions of their Personal Responsibility Plan, which includes work participation requirements. Failure to do so results in a full family sanction with no cash benefits for three months. Upon reapplication and approval, the household will be required to meet the conditions of their Personal Responsibility Plan.

Eligibility: Citizenship, residency, children's immunizations and proof of school-age children in school, living with a specified relative, social security number for each recipient, less than \$6,000 countable resources per TANF case (exceptions: 1 automobile, home, household goods and personal items).

Need Standard:

Household Size	Maximum Income Test (130% of FPL)	Need Standard 100%	Payment Allowance 75% of FPL
1	\$1,287	\$990	\$253
2	\$1,736	\$1,335	\$318

Comments: There has been a significant decrease in TANF NEON recipients due to several factors: More clients have exhausted their 60-month lifetime limit and, as a result, are no longer eligible for TANF payments; more stringent pre-eligibility requirements have slowed down approvals for TANF NEON; and NEON caseloads are smaller and more manageable and are therefore being terminated timely.

5.03 Child Only Cash Programs

Program:

These programs are designed for households who do not have a work eligible individual. No adults receive assistance due to ineligibility or because the caretaker is a non-needy relative caregiver. Categories of child only households include: Non-Citizen Parent, SSI Parent Household, Non-Needy Caretaker Relative Caregiver (NNRCC), and Kinship Care. The caretakers in these cases have no work participation requirements included in their Personal Responsibility Plan. Non-Needy and Kinship Care caretakers receive a higher payment based on the number of children and for Kinship Care the ages of the children in their care.

Eligibility:

Citizenship, residency, children's immunizations and proof of school-age children in school, living with a specified relative, social security number for each recipient, less than \$6,000 countable resources per TANF case (exceptions: 1 automobile, home, household goods and personal items). Total household income must be less than or equal to 275 percent of poverty for Non-Needy and Kinship Care caretakers.

Need Standard:

Household Size	Maximum Income Test (130% of FPL)	Payment Allowance 35%	NNRC* 275% FPL**	NNRC Allowance
1	\$1,287	\$253	\$2,723	\$417
2	\$1,736	\$318	\$3,671	\$476

5.04 Temporary Assistance for Needy Families (TANF) - All Cash Programs

Program: Temporary Assistance for Needy Families (TANF) is a time-limited, federally-funded block grant to provide assistance to needy families so children may be cared for in their homes or in the homes of relatives. TANF provides parents/caregivers with job preparation, work opportunities and support services to enable them to leave the program and become self-sufficient.

Eligibility: Citizenship, residency, children's immunizations and proof of school-age children in school, living with a specified relative, social security number for each recipient, less than \$6,000 countable resources per TANF case (exceptions: one automobile, home, household goods and personal items).

Need Standard:

Household Size	100% Need Standard (75% of FPL)	Maximum Payment Allowance	NNCT*/CON 275% FPL*	NNCT*/CON Payment Allowance
1	\$743	\$253	\$2,723	\$417
2	\$1,001	\$318	\$3,671	\$476
3	\$1,260	\$383	\$4,620	\$535
4	\$1,519	\$448	\$5,569	\$594
5	\$1,778	\$513	\$6,518	\$654
6	\$2,036	\$578	\$7,466	\$713
7	\$2,296	\$643	\$8,417	\$772
8	\$2,556	\$708	\$9,371	\$831

Kinship Care Allowance: 0-12 year of age = \$400 per child (unless there is only one child in this age group in the home the amount is \$417); 13 yrs+ = \$462 for each child.

*NNCT = Non-Needy Caretaker; FPL = Federal Poverty Level.

5.05 New Employees of Nevada (NEON)

Program: The Nevada Division of Welfare and Supportive Services' TANF Employment and Training Program is called "New Employees of Nevada (NEON)". The program provides a wide array of services designed to assist TANF households become self-sufficient primarily through training, employment and wage gain; thereby, reducing or eliminating their dependency on public assistance programs. NEON provides support services in the form of child care, transportation, clothing, tools and other special need items necessary for employment.

Eligibility: Individuals who meet the definition of a "work eligible individual" are NEON mandatory. This includes all adults or minor head-of-households (HOH) receiving assistance under TANF-NEON program. This excludes minor parents not HOH or married to the HOH, ineligible non-citizens, SSI recipients, parents caring for disabled family members in the home and tribal TANF recipients.

Comments: With the slow but steady economic gains of SFY13 continuing to carry forward into the first quarter of SFY14, the recent rise in the NEON caseload is not following its historical correlation to the state's economy. This rise in the caseload is theorized to be a result of the recent implementation of the Affordable Care Act Medicaid expansion and new streamlined eligibility process. New Medicaid applicants are becoming aware of their eligibility for TANF and efficient application business processes are removing barriers and improving program access. If correct, it is anticipated that caseload growth will stabilize by the end of the fiscal year and caseload trends will return to their historical correlation with the economy. In SFY15, the NEON caseload has continued to decrease due to program changes and the continuing economic improvement.

Website: <https://dwss.nv.gov/>

Nevada Department of Health and Human Services, DWSS

5.06 Adult Medicaid (Original Medicaid Group)

Program Notes: The Adult Medicaid group covers parents and caretaker relatives who meet income guidelines based on the previous adult group known as TANF related medical. This group also includes adults who have aged out of the foster care program, the breast and cervical cancer program and parents and caretakers who lost eligibility for Medicaid due to an increase in earnings. There are still some recipients aged 0-18 in this category; however, they will be moved to the appropriate category at natural opportunity or as redeterminations are complete. Naming this program "Adult Medicaid" best captures the general population. This is a mandatory coverage group and receives the standard Medicaid FMAP.

Eligibility Medicaid eligibility is determined using modified adjusted gross income (MAGI) which is based on IRS rules and includes budgeting taxable income. (Except Aged out of Foster Care and the Breast and Cervical programs) Assistance units are determined based on the household tax filing status. Adult Medicaid covers individuals with income below the AM Limit, which is the previous TANF related medical limit.

Household Size	AM Limit
	Parent/Caretakers
1	\$319

5.07 New ACA (Affordable Care Act) Adult Medicaid

Program Notes: This category covers the expanded eligibility for adults under ACA and includes parents, caretaker relatives and childless adults. This is an optional coverage group and is entitled to the enhanced FMAP.

Eligibility Medicaid eligibility is determined using modified adjusted gross income (MAGI) rules based on IRS rules and includes budgeting taxable income. Assistance units are determined based on the household tax filing status. The new Adult Medicaid group covers individuals with income below 138 percent (which includes a 5 percent disregard) of the federal poverty level (FPL).

Household Size	138% FPL
1	\$1,366
2	\$1,842
3	\$2,318
4	\$2,795
5	\$3,271
6	\$3,747
7	\$4,224
8	\$4,703

Workload History:

Fiscal Year	Average Cases
FY 14	74,461
FY 15	164,423
FY 16	195,372
FY 17	201,956

Nevada Department of Health and Human Services, DWSS

5.08 Pregnant Women and Children Medicaid

Program Notes: This category covers pregnant women and children under 19. This is a mandatory coverage group and receives the standard Medicaid FMAP.

Eligibility: Medicaid eligibility is determined using modified adjusted gross income (MAGI) which is based on IRS rules and includes budgeting taxable income. Assistance units are determined based on the household tax filing status. This category covers pregnant women and children under 6, with income below 165 percent (which includes a 5 percent disregard) of the federal poverty level (FPL) and children 6-18 with income below 122 percent of the FPL.

Household Size	122% FPL	165% FPL
	Children 6-18	Pregnant Women & Children 0-5
1	\$1,208	\$1,634
2	\$1,629	\$2,203
3	\$2,050	\$2,772
4	\$2,471	\$3,341
5	\$2,891	\$3,911
6	\$3,312	\$4,480
7	\$3,734	\$5,051
8	\$4,158	\$5,623

Comments: Children grouped in households under the previous Medicaid criteria are now included in this group and is driving the growth trend. Also, the woodwork affect may be increasing the recipient caseload. It is anticipated this caseload will grow to about 260,000 by mid-2017. Thereafter it will fluctuate with the business cycle and population growth.

5.09 New ACA Expanded Children's Group

Program Notes: The new ACA Child group covers children 6-18 with income above the CH income limit (previous page) up to 138 percent (which includes a 5 percent disregard) of the federal poverty level (FPL). This is a mandatory coverage group. These children were previously covered under CHIP and continue to receive the CHIP FMAP.

Eligibility: Medicaid eligibility is determined using modified adjusted gross income (MAGI) which is based on IRS rules and includes budgeting taxable income. Assistance units are determined based on the household tax filing status. The ACA mandated the increased income limit for children ages 6-18 to 138 percent (which includes a 5 percent disregard) of the FPL. The New ACA Child group covers children between 122 percent and 138 percent FPL (which includes a 5 percent disregard).

Household Size	122% FPL	138% FPL
1	\$1,208	\$1,366
2	\$1,629	\$1,842
3	\$2,050	\$2,318

Comments: The New ACA child category increased as children were moved from Nevada Check Up at natural opportunity or at redetermination which was completed by April 2015. Caseload is expected to fluctuate with the business cycle and population growth.

Website: <https://dwss.nv.gov/>

Nevada Department of Health and Human Services, DWSS

5.10 Nevada Check Up

Program: Effective July 1, 2013 (SFY14) the Nevada Check Up (NCU) program was transferred from DHCFP to DWSS as a result of ACA system requirements. As of October 1, 2013, NCU eligibility is determined by DWSS. Authorized under Title XXI of the Social Security Act, (NCU) is the State of Nevada's Children's Health Insurance Program (CHIP). The program provides low cost, comprehensive health care coverage to low income, uninsured children 0 through 18 years of age who are not covered by private insurance or Medicaid. The NCU program requires a monthly premium based on household size and income.

Effective January 1, 2016, DWSS implemented a policy which allows children who have access to Public Employees' Benefits Program (PEBP) to qualify for Nevada Check Up, if they meet all other eligibility criteria.

Eligibility: The family's gross annual income must be below 205 percent FPL (which includes a 5 percent disregard). Pay monthly premiums (if applicable), the child is a U.S. citizen, "qualified alien" or legal resident with 5 years' residency and is under age 19 on the date coverage began.

Income Guidelines	
Household Size	205% FPL
1	\$2,030
2	\$2,737
3	\$3,444
4	\$4,151

5.11 County Match

Program: Through an agreement with the Division, Nevada counties pay the non-federal share of costs for institutionalized persons whose monthly income is between \$1,024.01 and 300 percent of the SSI payment level.

Eligibility: No age requirement, a citizen of the United States or a non-citizen legally admitted for permanent residence to the U.S. and meets certain criteria, or is in another eligible non-citizen category and meets certain criteria.

Other: Resource limits are determined by whether a person is considered an individual or a member of a couple. When resources exceed the following limits, the case is ineligible. \$2,000 for an individual or \$3,000 for a couple. Resources are evaluated at market value less encumbrances. Certain types of resources are excluded, such as: Term life insurance policies, and life insurance policies when the total face value is less than \$1,500; vehicles necessary to produce income; transportation for medical treatment on a regular basis (specifically handicapped equipped vehicles), or the value of a vehicle up to \$4,500; burial plots/plans (certain exclusions).

Workload History (with Retros*):

Fiscal Year	Average Cases
FY 12	1,353
FY 13	1,299
FY 14	1,299
FY 15	1,321
FY 16	1,317
FY 17 YTD	1,326

*Retroactive eligibility can be prior medical care or pending application processing time.

Jun	
FY17 Total	3,978
FY17 Avg	1,326

Comments: Money deposited in a QIT is exempt and a potential County Match recipient may never reach the CM income threshold. In SFY12 a change in eligibility requirements increased the caseload.

Website: <https://dwss.nv.gov/>

Nevada Department of Health and Human Services, DWSS

5.12 Medical Assistance to the Aged, Blind, and Disabled

Program: These are medical service programs only. Many applicants are already on Medicare and Medicaid supplements their Medicare coverage. Additionally, others are eligible for Medicaid coverage as a result of being eligible for a means-tested public assistance program such as Supplemental Security Income (SSI). Categories are: SSI, State Institutional, Non-Institutional, Prior Med, Public Law, Katie Beckett.

Eligibility: No age requirement (except for Aged), a citizen of the United States or a non-citizen legally admitted for permanent residence to the U.S. and meets certain criteria, or is in another eligible non-citizen category and meets certain criteria.

Other: Resource limits are determined by whether a person is considered an individual or a member of a couple. When resources exceed the following limits, the case is ineligible. Medicare Savings Program cases: \$7,280 - for an individual or \$10,930 for a couple. Other cases: \$2,000 for an individual or \$3,000 for a couple. Resources are evaluated at market value less encumbrances. Certain types of resources are excluded, such as: Life insurance policies, when the total face value is less than \$1,500; vehicles necessary to produce income; transportation for medical treatment on a regular basis (specifically handicapped equipped vehicles), or the value of a vehicle up to \$4,500; burial plots/plans.

Workload History (with Retros*):

Comments: SSI cases can take up to 3 years for approval/denial. Total of all MAABD Cases. For statistical purposes only as each aid code is different and cannot be compared. *Retro cases numbers are reported from SFY02 through SFY15. Beginning SFY16, actual cases are reported.

Website: <https://dwss.nv.gov/>

Nevada Department of Health and Human Services, DWSS

5.13 Supplemental Nutrition Assistance Program (SNAP)

Program: The purpose of SNAP is to raise the nutritional level among low-income households whose limited food purchasing power contributes to hunger and malnutrition among members of these households. Application requests may be made verbally, in writing, in person or through another individual. A responsible adult household member knowledgeable of the households' circumstances may apply and be interviewed. The date of application is the date the application is received in the Division of Welfare and Supportive Services office.

Eligibility: The household's gross income must be less than or equal to 200 percent of poverty; the household's net income must be less than or equal to 100 percent of poverty to be eligible. Households in which all members are elderly or disabled have no gross income test. The resource limit for all households except those with elderly or disabled members is \$2,000; households with elderly or disabled members have a resource limit of \$3,250 (exceptions: one vehicle, home, household goods and personal items).

Need Standard:

Household Size	100% of Poverty	130% of Poverty	200% of Poverty	Maximum Allotment
1	\$990	\$1,287	\$1,980	\$194
2	\$1,335	\$1,736	\$2,670	\$357
3	\$1,680	\$2,184	\$3,360	\$511
4	\$2,025	\$2,633	\$4,050	\$649
5	\$2,370	\$3,081	\$4,740	\$771
6	\$2,715	\$3,529	\$5,430	\$925
7	\$3,061	\$3,980	\$6,122	\$1,022
8	\$3,408	\$4,430	\$6,816	\$1,169

Workload History:

Comments: The Food Stamp Program was renamed “Supplemental Nutrition Assistance Program” (SNAP) in October 2008. The SNAP caseload has increased substantially since the start of the recession in December 2007 because of the high unemployment experienced in Nevada. A change in SNAP regulations effective 3/15/2009 made many households categorically eligible based on receiving a benefit that meets Purposes 3 and 4 for TANF and having a gross income limit of 200% of poverty. There is no further income or resource test.

Website: <https://dwss.nv.gov/SNAP/Food/>

Nevada Department of Health and Human Services, DWSS

5.14 Supplemental Nutrition Employment and Training Program (SNAPET)

Program: SNAPET promotes the employment of SNAP participants through job search activities and group or individual programs which provide a self-directed placement philosophy, allowing the participant to be responsible for his/her own development by providing job skills and the confidence to obtain employment. SNAPET also provides support services in the form of transportation reimbursement, bus passes and assistance meeting the expenditures required for Job Search (such as interview clothing, health or sheriff's card if it is known that one will be required).

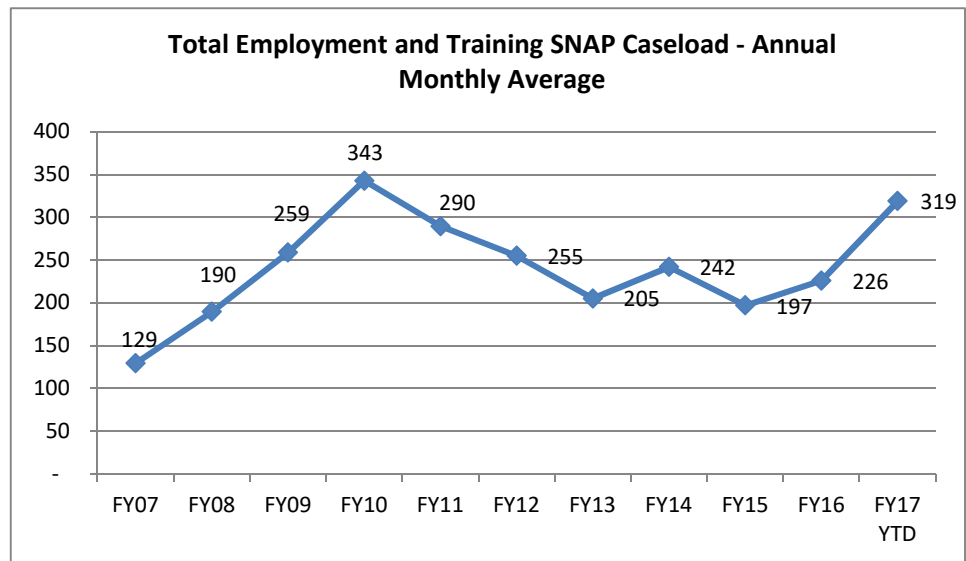

Eligibility: Registration and participation is mandatory and a condition of SNAP eligibility for all non-exempt SNAP participants. Persons who are exempt may volunteer. Persons are exempt when they are under age sixteen (16), age sixty (60) or older, disabled, caring for young children under the age of six (6) or disabled family members, already working, NEON mandatory, participant in drug/alcohol treatment, receiving UIB, age 16/17 attending school or training at least half time or eligible student age 18-49 enrolled at least half time in school or training program.

Workload History:

Fiscal Year	Average Cases
FY 12	255
FY 13	205
FY 14	242
FY 15	197
FY 16	226
FY 17	319

Jan 17	
Feb	
Mar	
Apr	
May	
Jun	
FY17 Total	956
FY17 Avg	319

Comments: The SNAPET caseload parallels the SNAP caseload but on a smaller scale since we only work with clients who do not meet a work exemption. These clients are classified as work mandatory and are required to complete an orientation and a two-month job search program or until they have become employed. FY06 and FY07 saw growth. FY08 started showing the effects of the current deep recession (started in December 2007), layoffs and high unemployment rates not seen in recent history. In FY09 caseloads increased an average of 3.2 percent per month. This equals to about 38 percent increase for the year. In FY10 a higher number of participants (that included exempt clients) were invited to orientation than in FY09. In FY11 only mandatory clients invited to orientation were counted. In FY12 and FY13 a decrease in invited participants was seen due to the inconsistent distribution of Federal Funds.

Website: <https://dwss.nv.gov/>

Nevada Department of Health and Human Services, DWSS

5.15 Child Care and Development Program

Program: The Child Care Program assists low-income families, families receiving temporary public assistance, families with children placed by CPS, and Foster families by subsidizing child care costs so they can work. Households are able to qualify for childcare subsidies based upon their total monthly gross income, household size, and other requirements. Assistance is provided through 3 programs: Certificate - Provides a Certificate to an eligible household to use for payment of child care services to an eligible provider; Contracted Slots - serves an approved number of slots for low income families in Before and After School Programs; and Wrap-Around which also serves an approved number of slots for low income families for services before and after Early Head Start or Head Start Program.

Eligibility: To qualify for childcare subsidy assistance, the child must be under the age of 13 unless they have a special need in which case they are eligible until they turn 19. Other factors include citizenship, immunizations, relationship, and residency. Additionally, adult household members and minor parents must have a purpose of care such as working or a minor parent attending high school.

Fee Scale: The Sliding Fee Scale provides the income limits for each household size. This is an example for a four-person household. The (P) indicates the federal poverty level. The column on the right designates the percentage of the State approved maximum childcare rate which would be paid by the Child Care & Development Program.

Sliding Fee Scale	
Income Limits for Family of Four	Subsidy Percent
\$0 - \$2,025(P)	95%-110%
\$2,026 - \$2,384	90%
\$2,385 - \$2742	80%
\$2,743 - \$3101	70%
\$3,102 - \$3,459	60%
\$3,460 - \$3818	50%
\$3,819 - \$4177	40%
\$4,178 - \$4535	30%
\$4,536 - \$4886	20%

Workload History:

Fiscal Year	Average Cases	Total Payments
FY 12	7,312	\$30,247,720
FY 13	5,162	\$21,161,327
FY 14	4,967	\$20,141,474

May	
Jun	
FY17 Tot	7,285
FY17 Avg	7,285

Analysis of Trends:

Beginning FY12 due to program changes, training was eliminated as a Purpose of Care and Student Purpose of Care was eliminated except for minor parents attending high school. In addition, a waitlist was implemented program wide. In FY 2014, the Program began removing families from the waitlist on a limited basis. Beginning March 2015, six-month eligibility periods were changed to 12 months. In October 2015 initial program eligibility was moved from 90% to 80% and a sliding fee scale was re-implemented, which allows families with higher incomes to continue receiving assistance with an increased copayment, up to 85% of the State Median Income. Effective 5-23-16, all new applicant households are subject to the wait list with the exception of NEON, Foster Care, and CPS cases.

Website: <https://dwss.nv.gov/Care/Childcare/>

Nevada Department of Health and Human Services, DWSS

5.16 Child Support Enforcement Program

Program: The program is a federal, state, and local intergovernmental collaboration functioning in all 50 states, the District of Columbia, the Commonwealth of Puerto Rico, Guam, and the Virgin Islands. The Office of Child Support Enforcement in the Administration for Children and Families of the U.S. Department of Health and Human Services helps states develop, manage and operate child support programs effectively and according to federal law. The CSEP is administered by DWSS and jointly operated by State Program Area Offices (PAO) and participating county District Attorney offices through cooperative agreements.

Eligibility: There are no eligibility requirements for child support services, which include locating the non-custodial parent, establishing paternity and support obligations and enforcing the child support order. Non-public assistance custodians complete an application for services. Public assistance custodians must assign support rights to the state and cooperate with the agency regarding Child Support Enforcement (CSE) services.

Workload History:

Fiscal Year	Average Cases	Gross Collections
FY 12	106,770	\$205,934,166
FY 13	105,433	\$207,634,173
FY 14	102,386	\$209,402,698
FY 15	97,314	\$210,726,927

FY17 Total **285,539**

FY17 Avg **95,180**

Comments: As illustrated in the Bureau of Labor Statistics Data, the CSE caseload trend is tied closely to the economy. When the economy is good, fewer customers need child support services; when there is a downward turn in the economy, more customers need child support services. Additional factors contributing to the caseload trend going down include case closure projects and stopping inappropriate referrals (unborn cases). A factor that may contribute to an increase in caseload is an increase in public assistance referrals and non-assistance applications during an economic downturn and high unemployment rate.

Nevada Department of Health and Human Services, DWSS

5.17 Energy Assistance Program

Program: The Energy Assistance Program (EAP) assists eligible Nevadans maintain essential heating and cooling in their homes during the winter and summer seasons. The program provides for crisis assistance as well.

Eligibility: Citizenship, Nevada residency, household composition, Social Security numbers for each household member, energy usage and income are verified prior to the authorization and issuance of benefits. Eligible households' income must not exceed 150 percent of poverty level. Priority is given to the most vulnerable households, such as the elderly, disabled and young children.

Need Standard:

2015 HHS Poverty Guidelines (100%)	Estimated State Median Income FFY 2016
Persons in Family	48 Contiguous States and D.C.

FY17 Total	4,892
FY17 Avg	1,631

Comments:

In FY12 the eligibility requirements were changed to lower the monthly benefit amount and FPL from 150 percent to 110 percent which has decreased the EAP caseload. FY13 increased benefits to 125 percent FPL (July) and 150 percent FPL (December) which was retroactive to July 2012. In April 2013 the benefit cap was increased for households that fall >75 percent of the poverty level guideline to bring their average energy burden in line with households that fall in the 75-125 percent and the 125-150 percent poverty levels. FY14 thru FY 16 are continuing with the same benefit amounts and poverty level that we ended with in FY13. Based on the projected funding for FY 17 the benefit cap table has been reduced and the poverty levels were left the same.

Nevada Department of Health and Human Services, DPBH

6.01 Newborn Screening (NBS) Program

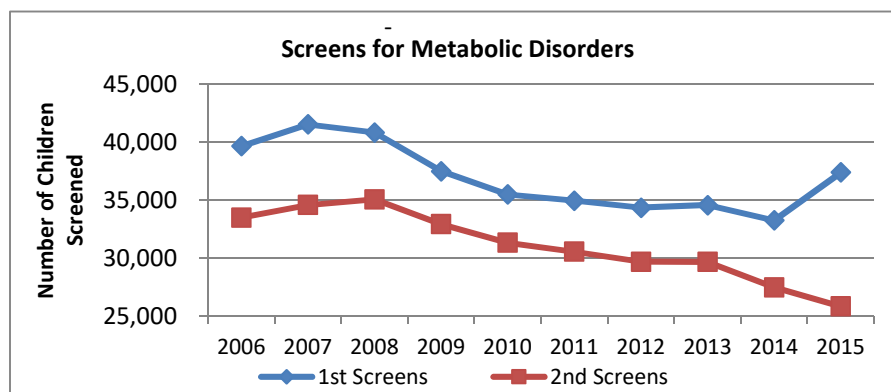

Program: Nevada Revised Statute (NRS) 442.008 mandates that all infants born in Nevada receive newborn Dried Blood Spot (DBS) screening for a panel of congenital disorders. A first screen is collected ideally between 24 and 48 hours of age, and the second screen is ideally collected between the 10th and 15th day of life. As of July 1, 2014, the Nevada State Public Health Laboratory, in conjunction with the University of Nevada-Reno (UNR) School of Community Health Sciences, is responsible for testing and following Nevada's newborn babies' blood samples shortly after birth and again at two weeks of age, to screen for approximately 46 disorders each year. The Nevada State Public Health Laboratory is contracted to screen specimens, follow-up on positive screens and provide medical consultants who provide guidance to Nevada's primary care physicians until a confirmation of a diagnosis is reached. Families of infants with identified disorders can access follow-up services through Nevada Early Intervention Services or other community providers. The Newborn Screening Program is funded entirely with birth registration fees.

Eligibility: There are no eligibility requirements for dried blood screening. Newborn screens are required for all infants born in Nevada. Birthing facility staff are required to collect an acceptable sample before the infant is discharged from the facility and to submit the sample for metabolic screening as required in NAC 442.020-050. Infants with conditions identified in the newborn screening process are eligible for Early Intervention and Home Visiting services.

Infants Screened by Year:

Year	Number of First Screens	Number of Second Screens	Total Number of Screenings	Percent of First Screen Babies that also Received Second Screens
2010	35,510	31,341	66,851	88.3%
2011	34,974	30,570	65,544	87.4%
2012	34,366	29,698	64,064	86.4%
2013	34,594	29,683	64,277	85.8%
2014*	33,276	27,492	60,768	82.6%
2015**	37,420	25,856	63,276	69.1%

*2014 Data is annualized. ** The University provided updated numbers in January 2016. UNR projects the drop in the 2nd screen in 2015 may be due to lack of education to the providers and plan to hire additional staff.

Comments: The Nevada Division of Public and Behavioral Health no longer maintain a Newborn Screening Program due to the transition to the Nevada State Lab. There is not currently a reporting mechanism, though the Division does anticipate reports from the University on a biannual basis.

Website: <http://medicine.nevada.edu/nsphl/newborn-screening>

Nevada Department of Health and Human Services, DPBH

6.02 Early Hearing Detection and Intervention

Program: The goals of the Nevada Early Hearing Detection and Intervention (EHDI) program are to ensure that: 1) all infants are screened for hearing loss before one month of age, 2) referred infants receive diagnostic evaluation by three months of age, and 3) infants identified with hearing loss receive appropriate early intervention by six months of age. The negative effects of hearing loss can be substantially mitigated through early intervention that may include amplification, speech therapy, cochlear implants, and/or signing. EHDI works with birthing hospitals statewide, pediatric audiologists and with Nevada Early Intervention Services to ensure infants are screened, identified, and enrolled into services within recommended time frames. The program partners with non-profits, hospitals, and audiologists to develop and update best practices and provides parents with education, support, and trained mentors. The program is entirely funded by grants from the Centers for Disease Control and Prevention (CDC) and the Health Resources and Services Administration (HRSA).

Eligibility: There are no eligibility requirements for newborn hearing screening. NRS 442.450 requires all hospitals in the state with 500 or more births per year to screen newborn infants' hearing prior to discharge. However, all birthing hospitals in the state, even those with less than 500 births per year, provide hearing screenings as a "Best Practice". All infants identified in the newborn hearing screening process with confirmed hearing loss are eligible for Early Intervention services.

Calendar Year	Births	Infants Screened	Percentage of Births
2010	34,517	34,433	99.8%
2011	35,017	34,263	97.8%
2012	34,623	33,195	95.9%
2013	34,820	33,268	95.5%
2014	35,507	33,969	95.7%
2015*	35,945	34,713	96.6%

*2015 data is subject to revision

Comments: * Calendar Year 2015 January through December data for hearing screenings and number of births are complete based on current program information but birth numbers are still considered to be preliminary by the Office of Vital Records. Calendar Year 2016 is considered to preliminary to report.

Nevada Department of Health and Human Services, DPBH

6.03 Immunization

Program: The goal of the program is to decrease vaccine-preventable disease through improved immunization rates among children, adolescents and adults. The Program collaborates with providers, schools, pharmacies, immunization coalitions and other stakeholders to improve immunization practices by enrolling providers into the State Program, ensuring compliance to all regulations, and by educating providers how to record vaccination data and monitor coverage rates in the state's immunization registry (NV WebIZ).

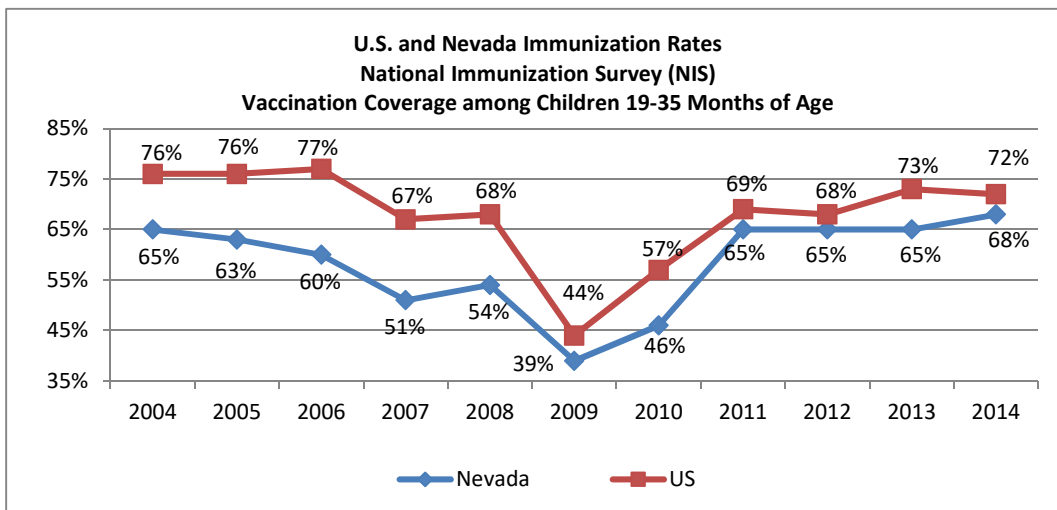

Vaccines for Children Program (VFC): Any provider licensed by the State of Nevada to prescribe and administer vaccines may enroll as a participant in the VFC Program, as long as they serve the eligible population(s). The Program provides federally funded vaccines at no cost to these participants, who then administer them to eligible children. VFC-eligible children include those who are uninsured, Medicaid enrolled/eligible, or American Indian/Alaska Native; and, the family is also not charged for the cost of these vaccines. Additionally, children enrolled in the NV Check-Up insurance plan are provided state-funded vaccines through a contract with the Division of Health Care Financing and Policy.

Nevada WebIZ: Any provider that administers vaccines and any organization with a need to verify immunizations may enroll as users of NV WebIZ. Vaccination data collected in the system can be used to identify populations at risk in the event of a disease outbreak and to locate communities with low coverage to target interventions. On July 1, 2009 NRS 439.265 (and corresponding regulations) went into effect, requiring all persons vaccinating children in Nevada to enter certain data about the vaccination event. On January 28, 2010 the NRS corresponding regulation was updated requiring all persons vaccinating adults in Nevada to also record specific information. The IIS operates as an "opt-out" system.

Program Participation:

Vaccines for Children Participation Status		Nevada WebIZ Statistics	
Clark	148	Clinics Using IIS	3,043
Washoe	50	HC Providers Using IIS*	1,459
Carson/Rural	73	Active Users of IIS**	15,028
<i>Note: 267 "Active" providers (currently receiving vaccine supply) and 4 "Temp Leave" providers (vaccine shipments temporarily suspended)</i>		<i>100 percent of Vaccines for Children participants are enrolled to enter their immunization data in Nevada WebIZ.</i>	

*One HC Provider may have multiple clinics represented in Nevada WebIZ; *WebIZ data is current as of 10/11/2016. **Within one clinic are multiple users of Nevada WebIZ.

- Comments:**
- From 2002 - 2006, the immunization series was 4:3:1:3:3:1 (4 DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hep B, 1 Varicella).
 - From 2007 - 2011, the immunization series was 4:3:1:3:3:1:4 (4 DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hep B, 1 Varicella, 4 pneumo).
 - Starting in 2007 and ending in 2009, the United States experienced a Hib shortage, hence the reason behind a significant decrease in immunization rates during that time period.

Nevada Department of Health and Human Services, DPBH

6.04 Women, Infants, and Children (WIC) Supplemental Food Program

Program: The Special Supplemental Food Program for Women, Infants, and Children, commonly known as WIC, is a 100% federally funded program that provides nutritious foods to supplement the diets of limited income pregnant, postpartum and breastfeeding women, infants, and children under age 5 who have been determined to be at nutritional risk. At WIC participants get access to good healthy foods, advice on good nutrition, health screening, information on health care services like immunizations, prenatal care, and family planning, and information about other family support services available in their community.

Eligibility: Applicant must be (1) an infant or child under five years of age, (2) a pregnant woman, (3) a postpartum woman (up to 6 months after giving birth), or (4) a breastfeeding woman (up to the breastfed infants first birthday). Must be a Nevada resident and physically live in Nevada at the time of application. Must be at or below 185% of the federal poverty level. Last, but not least, the applicant must be at nutritional risk as determined by a Competent Professional Authority (CPA) at the WIC clinic.

Workload History:

Federal Fiscal Year	Total Expenditures	Average Caseload
FFY10	\$14,399,912	72,533
FFY11	\$14,487,881	73,507
FFY12	\$13,778,416	74,705
FFY13	\$14,124,298	73,746
FFY14	\$13,127,340	72,872
FFY15	\$12,768,079	71,706
FFY16	\$4,187,853	69,798

*Current FFY NSA expenditures are YTD; through month reported for caseload below

Sep	

FFY15 Total **760,795**
FFY15 Average **69,163**

Comments: As one of the fastest growing states in the country, Nevada has experienced a WIC participation growth of 11 percent from FFY09 to FFY13. Further, food dollars expended for the WIC program for the same period has increased 16 percent.

The WIC program has completed its initiative through a contract with JP Morgan for the automation of the issuance of all WIC Benefits using Electronic Benefits Transfer (EBT). All participants can now use their new EBT card at any of WIC's 223 authorized grocery stores.

Nevada Department of Health and Human Services, DPBH

6.05 Nevada Home Visiting Program

Program: The Nevada Home Visiting Program (NHV) aims to improve health, social, and academic outcomes for the most vulnerable young families in our state. NHV develops and promotes a statewide coordinated system of evidence-based home visiting supporting healthy child development and ensuring the safety of young children and family members. NHV provides home visiting services in seven (7) Nevada counties through Local Implementing Agencies (LIAs). Home Visiting has proven successful in Nevada and serving the highest need areas is a priority for NHV.

Models Implemented: *Nurse Family Partnership (NFP)* – Implemented in Clark County to address the needs of first time mothers. This program utilizes public health nurses to serve pregnant women from 28 weeks’ gestation until the child is two years old.

Early Head Start Home Based Option – This model is implemented in Clark, Washoe and Elko Counties and serves very low-income expectant mothers and families with children up to age three.

Home Instruction for Parents of Preschool Youngsters (HIPPIY) – This model is implemented in Clark and Elko Counties and is proposed in Washoe County. The model was selected based on school readiness data identified by needs assessment in the areas served.

Parents as Teachers (PATs) – This model is implemented in Lyon, Storey and Mineral Counties. PAT was selected to serve a broad range of ages and needs in low population communities. Models with a narrower opportunity for enrollment do not meet all the needs in low population areas. This model provides service to expectant mothers and families with children up to kindergarten entry.

Authority: The Patient Protection and Affordable Care Act of 2010 (Affordable Care Act) added Section 511 to Title V of the Social Security Act creating a Maternal, Infant, and Early Childhood Home Visiting Program.

Comments: The charts above show the number of enrollees served by the program. The pie chart shows the breakdown of enrollees by category. The line chart shows the enrollment numbers served by NHV program compared to enrollment capacity.

6.06 Office of Food Security

Mission: It is incumbent on our society to ensure that each individual has access to healthy nutrition because it contributes to our quality of life, a strong citizenry, resilient communities and a robust economy.

Program: Leaders from government agencies, non-profit organizations and the private sector have joined forces to establish a strategic plan to increase food security in Nevada using the following core principles:

- Incorporate economic development opportunities into food security solutions.
- Use a comprehensive, coordinated approach to ending hunger and promoting health and nutrition, rather than just providing emergency short-term assistance.
- Focus on strategic partnerships among all levels of government, communities, non-profit organizations, including foundations, private industries, universities, and research institutions.
- Use available resources in a more effective and efficient way.
- Implement research-based strategies to achieve measurable results.

Agency	Key Accomplishments:
DHHS Director's Office	<ul style="list-style-type: none"> • In 2015 established the Office of Food Security in the Department of Health and Human Services Chronic Disease Prevention and Health Promotion Section.
Governor's Office	<ul style="list-style-type: none"> • In 2014 established the Statewide Food Policy Advisory Council that links to and leverages regional and local community-based efforts.
Governor's Council	<ul style="list-style-type: none"> • Researched and developed a menu of model policies/regulation options to promote food security in Nevada. Including breakfast after the bell programs and accountability reports for public schools.
NV Department of Agriculture	<ul style="list-style-type: none"> • In cooperation with a stakeholder group, drafted the Nevada School Wellness Policy to reflect current Federal School Wellness Policy Regulations.
NV Department of Agriculture	<ul style="list-style-type: none"> • In cooperation with a stakeholder group, conducted a comprehensive benefit analysis study of the current state and nonprofit commodity/food delivery system that includes cost efficiency, frequency of delivery, and recommendations.
NV Department of Agriculture	<ul style="list-style-type: none"> • In cooperation with a stakeholder group, developed a comprehensive community food supply assessment to determine what organizations, agencies and groups are providing services as well as the frequency and schedule of deliveries to determine efficiencies and opportunities for streamlining food distribution processes.
NV Department of Agriculture	<ul style="list-style-type: none"> • Implemented SB 503, which mandates that all schools with 70% or greater free and reduced meal eligible students, must serve breakfast after the bell.

Nevada Department of Health and Human Services, DPBH

6.07 Oral Health Program

Program: The **Community Preventive Services Task Force** recommends school-based sealant delivery programs based on strong evidence of effectiveness in preventing dental caries (tooth decay) among children. This recommendation is based on evidence that shows these programs increase the number of children who receive sealants at school, and that dental sealants result in a large reduction in tooth decay among school-aged children (5 to 16 years of age). Dental (pit and fissure) sealants are clear or opaque plastic resinous materials applied to the chewing surfaces of the back teeth to prevent dental caries (tooth decay). School-based dental sealant delivery programs provide dental sealants to students either onsite at schools or offsite in dental clinics. These programs often target schools in low socioeconomic status (SES) neighborhoods, often identified based on the percentage of children eligible for the federal free or reduced-price meal programs.

Community Health Alliance sealant program is a non-profit school-based sealant program that utilizes a mobile van to provide oral health education, sealants and fluoride varnish to 2nd grade children in underserved schools in Nevada (>50 percent Free and Reduced Lunch [FRL]). They operate during the 9-month academic year.

Seal Nevada South is a non-profit school-based sealant program, administered through UNLV School of Dental Medicine (SDM). The program serves uninsured children in second through fifth grade in underserved schools (>50 percent FRL) in Southern Nevada. They operate during the 9-month academic year.

Future Smiles is a non-profit school-based sealant program that provides two types of delivery models: Set locations in School-Based Health Centers for Education and Prevention of Oral Disease (EPODs) and mobile school-based locations utilizing portable equipment. Public Health Endorsed Dental Hygienists provide screenings, oral health education, dental cleanings, sealants, fluoride varnish and case management through a referral system to a local dentist or UNLV SDM. They operate 12-months of the year.

Eligibility: Eligibility is determined by the individual programs. (Please note: These Community-Based Organizations do not receive funding through the Division of Public and Behavioral Health for their sealant programs.)

Caseload History:

Program	Number of Schools		Children Served		Sealants Placed	
	SFY15	SFY16	SFY15	SFY16	SFY15	SFY16
Community Health Alliance	24	25	563	603	1,451	11,628

Nevada Department of Health and Human Services, DPBH

6.08 Vital Records and Statistics

Program: The Office of Vital Records and Statistics administers the statewide system of Vital Records by documenting and certifying the facts of births, deaths and family formation for the legal purposes of the citizens of Nevada, participates in the national vital statistics systems, and responds to the needs of health programs, health care providers, businesses, researchers, educational institutions and the Nevada public for data and statistical information. The Office of Vital Records also amends registered records with required documentation such as court orders, affidavits, declarations and reports of adoptions per NRS and NAC 440. Amendments include corrections, alterations, adoptions and paternities.

Authority: Any person or organization that can provide personal or legal relationship or need for birth, death or statistical data is eligible for services. NRS 440

Caseload:

Fiscal Year	Births	Deaths	Amendments
FY 11	35,872	20,192	16,373
FY 12	34,175	20,926	16,592
FY 13	34,902	21,975	15,442
FY 14	34,960	21,940	15,639
FY 15	35,680	23,282	15,840
FY 16*	35,494	21,891	6,175
FY 17**	35,236	19,416	4,540

*FY 16 lower number of amendments due to staff shortage. **FY 17 data is annualized and amendments is affected by staff shortage.

Comments: Current processing times for the Office of Vital Records:

- Birth registration – Average of 9 days
- Death Registration – Average of <7 days

Note: Amendment counts include hospital paternities.

Nevada Department of Health and Human Services, DPBH

6.09 Women's Health Connection Program

Mission: Reduce breast cancer mortality and incidence of cervical cancer thereby enhancing the quality of life for Nevada women and their families through collaborative partnerships, health education, and access to high quality screening and diagnostic services.

Program: The Women's Health Connection (WHC) Program is a federally funded cooperative agreement through the Centers for Disease Control and Prevention (CDC). The cooperative agreement is authorized for 5-year periods, and the current agreement expires on June 29, 2017. Funding is awarded to pay for an office visit for the purpose of having a clinical breast exam, pelvic exam, and Pap test, if needed, for eligible clients. The program will pay for a screening mammogram for women 50 years of age and older. Clients who need diagnostic work-up based on an abnormal screening exam are covered by the program. Women diagnosed with breast or cervical cancer as a result of a program-eligible screening or diagnostic service and who are legal citizens of the U.S. are processed into Medicaid for treatment. The program fiscal year is June 30 to June 29 of each year. NOTE: WHC data has an approximate two-month delay due to billing timelines.

Eligibility: Women must be residents of Nevada, be 40 years of age or above to receive breast cancer screening services and 21 years and above to receive cervical cancer screening services, has no Medicaid or Medicare Part B, is not a member of an HMO, or is underinsured or uninsured, and fall within 250 percent of federal poverty level.

Household Size	Eligible Monthly Income
1	\$2,452
2	\$3,319
3	\$4,185
4	\$5,052
5	\$5,919
6	\$6,785
7	\$7,652
8	\$8,519

Income is based on 250 percent of the Federal Poverty Level with rates adjusted on July 1 of each year.

Note: For each additional person, add \$4,060

Workload History:

Fiscal Year	Avg Screening Cases/Month	Total Expenditures	Total New Enrollees
FY13	651	\$2,357,718	3,933

Nevada Department of Health and Human Services, DPBH

6.10 Community Health Nursing

Program: The Community Health Nursing program promotes optimal wellness in frontier and rural Nevada through the delivery of public health nursing, preventive health care, early detection of threats to public health, response to natural and human caused disasters, and education statewide. Essential public health services such as adult and child immunizations, well child examinations, chronic disease education, lead testing, Family Planning/Cancer Screening, identification/treatment of communicable diseases such as Tuberculosis (TB), Sexually Transmitted Diseases (STD) and Human Immunodeficiency Virus (HIV) are offered. Two Community Health Nurses (CHN) function as the school nurse in the rural districts without school nurses. Other nursing services are provided based on the needs of the county served.

Eligibility: All individuals may access the CHN clinics. The targeted populations are: the working poor, under and uninsured, and indigent populations of the fourteen (14) frontier and rural counties in Nevada. PHCS CHN services are based on the federal poverty guidelines using a Sliding Scale Fee structure. Services are not denied due to inability to pay.

Nevada Department of Health and Human Services, DPBH

6.11 Environmental Health Services Program

Program: The Environmental Health Services program promotes optimal wellness in frontier and rural Nevada through the delivery of food safety inspections which provides early detection of threats to public health

Other: Environmental Health Services (EHS) involves those aspects of public health concerned with the factors, circumstances, and conditions in the environment or surroundings of humans that can exert an influence on health and well-being. The majority of workload is associated with food establishments. Effective January 1, 2014, Douglas County partnered with Carson City to provide environmental health services. Effective July 1, 2015, Southern Nevada Health District assumed regulatory responsibility for environmental health services at the campuses of higher learning in Clark County. Regulatory responsibilities for approximately 550 permitted facilities were transferred to Carson City, and 161 establishments were transferred to Southern Nevada Health District resulting in fewer inspections for EHS.

FY 17 Tot	723
FY 17 Avg	241

*FY17 data is annualized

Comments: Health inspections decreased in FY14 due to the transfer of approximately 550 Douglas County permits to Carson City Health and Human Services. Two EHS positions were eliminated as a result of the decrease in workload. Effective July 1, 2015, Southern Nevada Health District will provide environmental health services at the campuses of higher learning in Clark County. This will decrease EHS inventory by approximately 161 food establishments for FY16.

Website: http://dpbh.nv.gov/Reg/Environmental_Health/

Nevada Department of Health and Human Services, DPBH

6.12 Sexually Transmitted Disease Program

Program: The Sexually Transmitted Disease (STD) Prevention and Control Program's major function is to reduce the incidence and prevalence of sexually transmitted diseases in Nevada. The program emphasizes the importance of both education and screening of people who engage in high-risk activities by a comprehensive program of: 1) case identification and locating, 2) testing and treatment, and 3) education. The program's functions are achieved by working through public and private medical providers, local health authorities, and state and local disease intervention specialists.

Trends: For CY 2015-Q1 through Q4, there were 12,306 reported chlamydia cases, 3,495 reported gonorrhea cases, and 322 reported primary and secondary (P&S) syphilis cases in Nevada, for a total of 16,123 STD cases. Comparing CY 2015 to the previous reporting year, Chlamydia cases increased by 0.7 percent, gonorrhea cases increased by 5.7 percent, and P&S syphilis cases increased by 4.9 percent. Overall, the total number of reported STDs (chlamydia, gonorrhea, and P&S syphilis) in Nevada increased by 1.8 percent from 2014 to 2015. Historically, the number of chlamydia and gonorrhea cases reported in Nevada increase minimally from year-to-year, and the number of reported P&S syphilis cases fluctuates from year-to-year.

The total number of reported chlamydia cases in Nevada increased from 10,445 in 2011 to 12,306 in 2015, a 17.8 percent increase during this five-year period. The rate of chlamydia in 2015 in Nevada was 428.17 cases per 100,000 population based on 2015 population projections from the Nevada State Demographer-vintage 2015 data. Nevada fell below the national chlamydia rate of 456.1 cases per 100,000 population, as reported by the 2014 CDC STD Surveillance Report. The total number of reported cases of gonorrhea in Nevada has increased from 2,034 in 2011 to 3,495 in 2015, a 71.8 percent increase during this five year reporting period. The gonorrhea rate in Nevada in 2015 was 121.60 cases per 100,000 persons based on 2015 population projections from the Nevada State Demographer-vintage 2015 data. Nevada fell above the national gonorrhea rate of 110.7 cases per 100,000 population, as reported by the 2014 CDC STD Surveillance Report.

The total number of reported cases of P&S syphilis in Nevada has increased from 137 in 2011 to 322 in 2015, a 135.0 percent increase during this five year reporting period. The P&S syphilis rate in Nevada in 2015 was 11.20 cases per 100,000 persons based on 2015 population projections from the Nevada State Demographer-vintage 2015 data. Nevada was higher than the national P&S syphilis rate of 6.3 cases per 100,000 population, as reported by the 2014 CDC STD Surveillance Report.

Previously, Nevada experienced a syphilis outbreak, with 40 P&S syphilis cases reported in 2004 and 109 P&S syphilis cases reported in 2005. The number of cases reported peaked in 2006, with 139 total P&S cases reported in the state (132 cases reported in Clark County). In 2006, Nevada had the highest rate of congenital syphilis in the United States at 42.6 cases per 100,000 live births and 15 total reported cases.

*Includes Chlamydia, Gonorrhea, and Primary and Secondary Syphilis. **CY16 data is annualized.

Analysis of Trends: From 2011 to 2015 there has been a 34.0 percent increase of reported cases during this five year reporting period. Compared to a 42.1 percent increase of reported cases for the 2010 - 2014 five year reporting period. Increased access to care, testing, and preventive screenings through the Affordable Care Act may account for the increase in reported cases. Increased utilization of electronic lab reporting has reduced reporting delay.

Nevada Department of Health and Human Services, DPBH

6.13 Ryan White AIDS Drug Assistance Program

Program: The Ryan White Part B program is a federally funded grant that offers many services for People Living with HIV (PLWH) in Nevada who meet the eligibility criteria. The AIDS Drug Assistance Program (ADAP) is the Ryan White CARE Program that combines federal and state funds to supply formulary medications to clients. If a client has existing health coverage, the Ryan White Program will pay monthly premiums and medication co-pays. Enrollment in the Ryan White Part B programs is handled by Access to Healthcare Network, Southern Nevada Health District, and Aid for AIDS of Nevada. Clients can pick up medications at any pharmacy in Nevada within the OptumRx network.

Eligibility: The Client's household income must not exceed 400 percent of Federal Poverty Level guidelines - \$47,080 for a single person. A Ryan White Part B client must live within the State of Nevada and must be recertified every six months.

Workload History:

State Fiscal Year	Avg Cases/Month	Total Expenditures
FY11	866	\$8,509,961
FY12	871	\$8,417,174
FY13	1,077	\$9,748,380
FY14	590	\$9,809,082
FY15	634	\$6,863,624
FY16	842	\$12,552,751
FY17*	852	\$3,750,777

*Total Expenditures are YTD.

Feb	
Mar	
Apr	
May	
Jun	
FY17 Tot	2,557
FY17 Avg	852

Comments: The program has been successful in transitioning Ryan White clients into the Marketplace and Medicaid during each Open Enrollment. The Ryan White Part B program will continue to be the payer of last resort and will continue to provide those services not covered, or partially covered, by public or private health insurance plans.

Website: <http://dpbh.nv.gov/Programs/HIV/HIV and AIDS Prevention - Home/>

Nevada Department of Health and Human Services, DPBH

6.14 HIV-AIDS Prevention Program

Program: The Human Immunodeficiency Virus (HIV) Prevention Program facilitates a process of jurisdictional HIV prevention planning. At present, the Division of Public and Behavioral Health funds Southern Nevada Health District (SNHD), Washoe County Health District (WCHD), and Carson City Health and Human Services (CCHHS) to provide CDC HIV prevention core services, such as HIV testing to high-risk populations, Partner Services, and to ensure condoms are available to populations most at-risk for HIV. Additionally, the HIV Prevention Program provides HIV testing supplies and condoms to the Community Health Nursing Program to support HIV testing in the rural areas of the state. The Division of Public and Behavioral Health's HIV Prevention also provides funding for social marketing campaigns, HIV prevention information dissemination, and data collection.

Eligibility: There are no eligibility requirements. It is our mandate to reduce HIV infections in Nevada, and this is accomplished by providing services to everyone. Some community based programs do require that participants meet criteria as outlined in the curriculum, i.e. target population or risk factors.

Other: Please note that the HIV Prevention Program is funded on a calendar year basis and therefore, data and expenditures for this report are reported on the calendar year, not fiscal year. The increase in new HIV infections can be directly attributed to new targeted HIV testing strategies, targeting those most at-risk for acquiring HIV.

Workload History:

Calendar Year	Total HIV Cases	Total Funding
2011	380	\$2,713,662
2012	363	\$2,426,284
2013	434	\$2,294,816
2014	438	\$2,140,521
2015	477	\$2,149,542
2016*	331	\$2,093,114

*2016 data YTD

Comments: 1. The HIV Prevention Program is funded by a grant from the Centers for Disease Control and Prevention on a calendar year basis; therefore, data contained in this document is reported annually and year to date.

2. The increase in data between 2012 and 2013 can be attributed to the drop in overall testing in 2012, due to the closure of Southern Nevada Health District's main testing facility. In 2013 the state implemented High Impact Prevention (HIP) strategies statewide, targeting those most at-risk for HIV and getting them and identified high-risk individuals contained in their social networks tested; therefore, identifying more HIV.

Website: http://dpbh.nv.gov/Programs/HIV-OPHIE/HIV/AIDS_Surveillance_Program_%28HIV-OPHIE%29_-Home/

Nevada Department of Health and Human Services, DPBH

6.15 HIV Surveillance Program

Program: The mission of the HIV/AIDS Surveillance Program is to work with the local health authorities and the medical community to prevent and control the transmission of the Human Immunodeficiency Virus (HIV) and the development of an annual integrated HIV/AIDS epidemiological profile; the dissemination of HIV/AIDS data to HIV community planning groups and other agencies and the public to help target HIV prevention activities; and training and technical assistance to local health authorities and community-based organizations that assist in HIV/AIDS surveillance activities. The Program's functions are achieved through collaborative relationships with public and community-based organizations, local health authorities, clinical laboratories, community members, and other key stakeholders.

Eligibility: There are no eligibility requirements. The State HIV/AIDS Program tracks all new HIV/AIDS cases reported and persons living with HIV/AIDS including cases from other states and jurisdictions who move to Nevada. Incidence (new cases) and prevalence (old and new cases) are reported separately. Statutory authority – NRS 441A and NRS 439.

Other: Primary workload indicators for federal funding include the number of new HIV and AIDS cases reported annually and the number of persons living with HIV/AIDS in Nevada (prevalence data). Demographic information of HIV/AIDS cases (county, sex, race/ethnicity, age, exposure category) is reported to track disease trends and to provide information to community planning groups to better allocate local resources and to target HIV/AIDS prevention activities.

Workload History:

Calendar Year	Average AIDS Monthly Caseload	Average HIV Monthly Caseload
2011	18	32
2012	19	30
2013	21	37
2014	18	36
2015	17	40
2016	18	37

Comment: Since 2012, HIV cases have increased, while AIDS cases have decreased. Though it is difficult to accurately identify the reasons for an increase in reported HIV, it is likely a result of: 1. Increased targeted testing; 2. Better HIV case finding; and 3. Access to care. Reasons for a decrease in AIDS may be due to better care, which would have reduced the progression from HIV to AIDS. The Affordable Care Act may account for this, as more access to care keeps HIV patients in-care, meaning they do not progress to AIDS and they do not have high viral loads which could increase transmission to others.

Nevada Department of Health and Human Services, DPBH

6.16 Nevada Central Cancer Registry

Program: The primary purpose of the Statewide Cancer Registry is to collect and maintain all reportable cancer cases that occur in Nevada. This data is used to evaluate the appropriateness of measures for the prevention and control of cancer and to conduct comprehensive epidemiological surveys of cancer and cancer related deaths. Statutory Authority: NRS 457

Eligibility: No eligibility required. This is a population-based Registry collecting data for all cancer cases diagnosed in Nevada.

Other: The figures in this report reflect actual cancer (in-situ and invasive cancer) incidence data submitted annually to the Centers for Disease Control and Prevention/National Program of Cancer Registries. This submission follows a 23-month delay to capture all relevant cases.

Comments: Update 1st Quarter 2017:

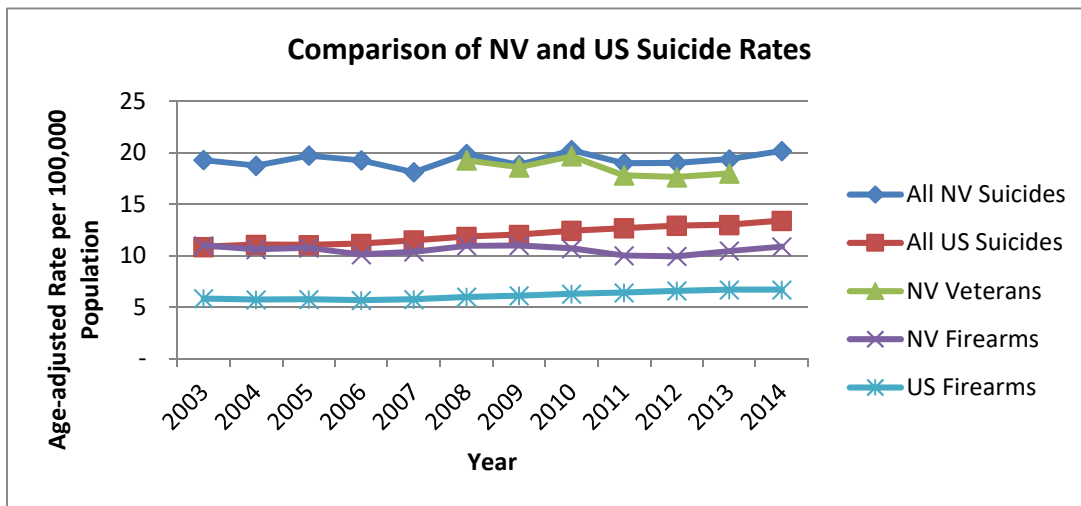

- 1) NCCR is currently working on NAC 457 regulation changes to update cancer reporting guidelines and recommendations to re-align with national standards, and to improve compliance with cancer reporting requirements to avoid under-reporting.
- 2) NCCR received \$599,891 in federal funds from the Centers of Disease Control (CDC) National Program of Cancer Registries for FY 17.

6.17 Office of Suicide Prevention

Program The Nevada Office of Suicide Prevention (NOSP) is the clearinghouse for suicide prevention information in Nevada. The Suicide Prevention Coordinator, Northern Suicide Prevention Training/Outreach Facilitator, Youth Mental Health First Aid Coordinator, along with the Suicide Prevention Assistant are located, in Reno. The Southern Suicide Prevention Training/Outreach Facilitator is located in Las Vegas. This team is responsible for the development, implementation, and evaluation of the Nevada Suicide Prevention Plan (NSPP to be updating in FY 2016). A major initiative is following up on the Veterans' Suicides and collaboration with the Veterans Services Green Zone Initiative to prevent suicides among service members, veterans, and families. Collaboration for awareness/prevention/intervention is occurring in all regions of the state along with strong partnership from local coalitions, school districts, and the Nevada Coalition for Suicide Prevention. Some of our most successful initiatives with our partners have been with Signs of Suicide middle and high school suicide awareness curriculum and screening programs statewide, text messaging crisis intervention, safeTALK and Applied Suicide Intervention Skills Trainings. NOSP is staff to Nevada's first Committee to Review Suicide Fatalities. NOSP is also making great strides toward increasing awareness about addressing access to lethal means through the Suicide-Proof Your Home, Securing Firearms Education and The 11 Commandments of Gun Safety. Collaboration with Nevada School Districts on SB 164 requirements through safeTALK training is occurring in partnership with the Nevada Department of Education. In addition, Youth Mental Health First Aid training is in our communities through NOSP and Project Aware. NOSP will coordinate statewide YMHA training with all Project Aware grantees and community partners.

Comments/Facts about Suicide:

- Based on 2014 data, Nevada has lowered from 2nd in 2005 to 6th highest suicide rate in the nation.*
- Suicide is the 6th leading cause of death for Nevadans and 10th leading cause of death for the US.***
- Suicide is the 2nd leading cause of death for our youth and young adults ages 10-34.***
- Males make up 79 percent of suicide fatalities in the U.S., 77 percent in Nevada.**
- Historically Nevada has the highest suicide rate (30) for seniors over 65 in the nation, almost double the national average rate (15.33) for the same age group.**
- Historically more Nevadans die by suicide than by all homicides/motor vehicle accidents combined.**
- Proven over time Native Americans have a highest suicide rate among our youth/young adults.**
- Our veterans and military account for 20 percent of our nations suicides and 24.4 percent of Nevada's suicides.****

6.18 Medical Marijuana Cardholders

Program: The Nevada Marijuana Registry is a state registry program within the Nevada Department of Health and Human Services, Division of Public and Behavioral Health. The role of the program is to administer the provisions of the Medical Use of Marijuana law as approved by the Nevada Legislature and adopted in 2001.

Authority: Individuals can apply for the registry and, if found eligible, are approved for issue of an identification card to show approval, within limitations, for the cultivation and use of the Cannabis plant for personal use. Eligibility is determined through physician certification of a qualifying medical condition, acceptable criminal background check, and Nevada residency. NRS 453A.

Cardholder Processing Tasks Performed by Staff

Nevada Department of Health and Human Services, DPBH

6.19 Medical Marijuana Establishments

Program: The Nevada Medical Marijuana Program is a state registry and licensing program within the Nevada Department of Health and Human Services, Division of Public and Behavioral Health. The role of the program is to administer the provisions of the Medical Use of Marijuana law as defined in NRS and NAC 453A. The program is to carry out the regulations for all aspect related to medical marijuana establishments which are defined as independent testing laboratories, cultivation facilities, a facility for the production of edible marijuana products or marijuana-infused products, and medical marijuana dispensaries.

Authority: Statutory Authority: Nevada Constitution, Article 4, Section 38. Use of plant genus Cannabis for medical purposes and NRS 453A, Medical Use of Marijuana.

Type	Provisional Certificates Issued	Establishment Applications Received
Cultivation	182	183
Dispensary	55	199

Nevada Department of Health and Human Services, DPBH

6.20 Substance Abuse Prevention and Treatment Agency (SAPTA)

Program: The Substance Abuse Prevention and Treatment Agency (SAPTA) provides funding via a competitive process to non-profit and governmental organizations throughout Nevada. It does not provide direct substance abuse prevention or treatment services. The Agency plans and coordinates statewide substance abuse service delivery and provides technical assistance to programs and other state agencies to ensure that resources are used in a manner which best serves the citizens of Nevada.

Eligibility: All funded programs must not discriminate based on ability to pay, race/ethnicity, gender or disability. Additionally, programs are required to provide services utilizing a sliding fee scale that must meet minimum standards.

Other: SAPTA is the designated Single State Agency for the purpose of applying for and expending the federal Substance Abuse Prevention and Treatment Block Grant (SAPTBG) issued through the Substance Abuse and Mental Health Services Administration (SAMHSA).

Data is accurate as of 7/21/2015, but some changes may occur until official closing. The expenditures include payments to providers for the following services: Treatment (adult and adolescent), HIV, TB, Women’s set-aside, Co-occurring, Marijuana Registry, and Liquor Tax.

Treatment History:

Comments: SAPTA funded programs serve a number of clients funded by Medicaid dollars but these numbers are not included in this report. Since 2014, the numbers of clients admitted to SAPTA programs and funded by SAPTA is declining as provider’s transition to Medicaid and other third party payers. This primarily impacts outpatient services since these are the services typically reimbursed by Medicaid and the Managed Care Organizations. Detox admissions in the last quarter increased dramatically. This is due to erratic reporting by some providers caused by the change from the NHIPPS electronic health record to other EHRs (i.e. Avatar, Awards, and others). SAPTA is working with the detox providers and other providers to develop a plan of action to collect consistent and reliable data.

Website: http://mh.nv.gov/Meetings/SAPTA_Program_Page/

Nevada Department of Health and Human Services, DPBH

6.21 Health Care Quality and Compliance

Program: The mission of the Bureau of Health Care Quality and Compliance (HCQC) is to protect the safety and welfare of the public through regulation, licensing, enforcement and education. The Bureau accomplishes its mission by evaluating the quality of health care provided to residents/patients of medical facilities, medical laboratories and facilities for the dependent, issuing licenses to certain allied health professionals, such as medical laboratory personnel, dietitians and music therapists and conducting kitchen and pool inspections in health facilities. This is accomplished through on-site inspections of facilities and complaint investigations. The Bureau disseminates regulatory information and provides education, for the public, other governmental entities and providers as well as partnering with industry groups.

Authority: NRS Chapter 449, NRS Chapter 652, NRS Chapter 640D and NRS Chapter 640E addresses licensing, certification, permits, complaint investigations and periodic inspection criteria for Health Facilities (449), Medical Laboratories and Personnel (652), Music Therapists (640D) and Dietitians (640E).

Other: The Bureau of Health Care Quality and Compliance has two offices, one in Carson City and one in Las Vegas and services the entire state including rural areas. The main workload for the Bureau is processing of applications, complaint investigations and periodic inspections.

Treatment History:

Fiscal Year	Health Facility Applications Received	Allied Health Personnel Applications Received	Complaints & Entity Self-Reported Incidents Received
FY 13	2,499	7,240	3,353
FY 14	2,594	6,340	3,080

Jun		
FY 17 Total	156	312
FY 17 Avg	52	104

Analysis of

Trends:

The number and types of periodic inspections fluctuate from month to month, based on inspection due dates and available resources. The frequency of inspections is determined by NRS, CMS's mission priority document, and by Division budget policy. Complaint investigations have trended downward for several quarters and have appeared to level off. All complaints are triaged and assigned a priority based on the allegations; investigations are then scheduled based on priority and availability of resources. HCQC has a backlog of lower priority complaints and due to the lack of investigation resources, some of these lower priority complaints are held for investigation during the next scheduled periodic visit at the facility.

Nevada Department of Health and Human Services, DPBH

6.22 Tuberculosis Prevention, Control and Elimination

Program: Nevada's Tuberculosis (TB) Program is located within the Office of Public Health Informatics and Epidemiology. Statewide, the TB Program is comprised of: the DPBH, three local health authorities (Clark County, Washoe County and Carson City), the state public health laboratory, the DPBH Rural Community Health Services, the Department of Corrections, and all agencies, organizations and health professionals interested in advancing Nevada's progress toward improving our TB elimination and control efforts. These stakeholders provide TB prevention and control services e.g.; testing, treatment, education and surveillance activities for the residents within their jurisdictions. This program manages the federal funding provided to Nevada which helps support the state and local TB programs' infrastructure, operating expenses, testing, prevention, and outreach activities and operates within the Office of Public Health Informatics Epidemiology budget account 3219/14.

Authority: RS 441A.340 through NRS 441A.400 and NAC 441A.350 through NAC 441A.390 address the responsibilities that the state, county and local health care providers are required to perform in order to promote and protect the well-being of Nevada's citizens and visitors by preventing, controlling, tracking and treating tuberculosis in Nevada. Similar statutes and regulations addressing the public health threat posed by tuberculosis are found throughout the United States and its territories.

Other: The State of Nevada's Tuberculosis (TB) Program continues to address its mission of "reducing the incidence of TB by the aggressive management of newly diagnosed cases and extensive preventative treatment of those infected with TB." In 2015, Nevada had 85 reported active cases of TB which is up from 74 cases in 2014. The prevention and control of TB in Nevada is also dependent upon (in part) meeting the challenges of controlling TB in the increasing number of foreign-born persons who come to the United States/Nevada infected with M. tuberculosis or who develop TB disease soon after arriving. In 2015, 59 of the 85 cases were foreign-born individuals. To assist with the prevention of active Tuberculosis in the high-risk populations mentioned above, the State of Nevada TB Program will be performing several outreach activities in 2015.

*2016 data is annualized.

Nevada Department of Health and Human Services, DPBH

6.23 Civil Behavioral Health Services

Program: Behavioral Health Services are offered statewide. The urban areas have hospital-based programs for crisis stabilization at Dini-Townsend & Rawson-Neal Hospitals. Other services include the Mobile Outreach Safety Team (MOST) in urban Washoe & Clark Counties, & now in Carson City; Justice Involved Diversion outpatient programs (JID); Medication Clinics; Mental Health Court, Counseling, Care Coordination; Assessment Services; Program for Assertive Community Treatment (PACT); and Residential Services. Additionally, provision of outpatient services occurs statewide.

Eligibility: With expanded Medicaid, services are for those individuals who cannot access care through their insurance, and/or have other extenuating circumstances. Inpatient services are a short-term safety-net to stabilize individuals who are acutely-ill and are presenting as a danger to self and/or others, per NRS. Those with Severe Mental Illness (SMI) are given priority for Outpatient services by all mental health agencies. All agencies serve primarily indigent clients, and all clients are assisted in applying for qualified insurance programs while in the program.

FYTD:

Month	State Total	Rawson Neal	Dini Townsend
Jul 16	3,875	3,038	837
Aug	3,968	3,162	806
Sep	3,990	3,150	840
Oct	4,154	3,286	868
Nov			
Dec			
Jan 17			
Feb			
Mar			
Apr			
May			
Jun			
FY17 Avg	3,997	3,159	838

Comments: Behavioral Health services are a collaborative effort and an increasing volume is being served outside of the DPBH direct- service providers. This is a positive change with the plan to encourage more capacity in the community and reduce care by DPBH where possible.

Website: <http://dpbh.nv.gov/>

Nevada Department of Health and Human Services, DPBH

6.24 Forensic Behavioral Health Services

Program: Lake's Crossing Center (LCC) and now Stein Hospital are the only forensic behavioral health facilities serving clients in the state of Nevada. The program provides treatment for severe mental illness and other disabling conditions that interfere with a person's ability to proceed with their adjudication or return to the community after having been found not guilty by reason of insanity/incompetent without probability of attaining competence. The program provides a broad spectrum of treatment interventions.

Mental Health Court is a collaboration between the Mental Health and Criminal Justice systems. This program provides opportunity for people with misdemeanor and minor felony criminal charges who would benefit from psychiatric treatment to be diverted from the standard criminal justice system if they participate in treatment. It is a service coordination model. In addition, Assisted Outpatient Treatment (AOT) is a new court-ordered outpatient treatment established in the State and operated by this Division.

Eligibility: Clients are admitted to the inpatient program, at either Lakes Crossing Center or Stein Hospital, primarily by court order after a pre-commitment examiner has found them incompetent to stand trial and recommended treatment to competency. Occasionally a client without charges is administratively transferred to this program because they cannot be treated elsewhere. These services are supported by State General Fund.

Clients are admitted to Mental Health Court services by criminal justice courts.

Workload History:

Month	Statewide Forensic Caseload	LCC Clients	LCC Clients Average Length of Stay	Stein & C-Pod Clients	Stein Average Length of Stay
Jul 16	115	59	120	56	169
Aug	116	62	128	54	248

Jun					
FY17 Avg	118	62	161	56	187

Comments: The table above represents the trends in number of evaluation and restoration clients and average length of stay for each facility, Lake's Crossing Center in Sparks, and Stein Hospital in Las Vegas.

Nevada Department of Health and Human Services, Public Defender

7.01 Public Defender

Program: Representation of indigent adults and juveniles charged with a criminal offense or delinquent acts in a participating county and Attorney General prosecuted criminal matters in those counties. The office also represents parents whose children have been removed from the home by DCFS.

Eligibility: The court determines eligibility considering income, expenses, personal property, and outstanding debt. The potential client must be at risk of receiving a sentence of confinement. If the defendant does not have the liquid assets to retain private counsel for the specific type of case, the court will consider appointing the public defender. The defendant may be required to reimburse the county for the services of the public defender.

Workload History:

Fiscal Year	Cases
FY07	3,459
FY08	3,259
FY09	4,007
FY10	3,081
FY11	3,439
FY12	3,187
FY13	3,304
FY14	2,839
FY15	2,295
FY16	2,075
FY17*	2,075

Caseload Fiscal FY17*:

Carson City	1,968
Storey	80
State	92
Total FY 14	2,075

*FY17 data is annualized.

Comments: The case numbers are declining because the method which we used to count the number of cases to which we were appointed changed. We used to count all of the different crimes charged against one client as separate cases. Now, we only count the most serious charge against one client as one case, with the exception of domestic violence and driving under the influence which is always counted as separate cases.

Website: http://dhhs.nv.gov/Resources/PD/Public_Defender.htm

Page intentionally left blank

Nevada Department of Health and Human Services, Nevada Data & Key Comparisons

NOTE: The data in this document comes from many sources. For the sake of consistency, a uniform ordinal ranking system has been adopted, with 1 indicating the best ranking and 50 indicating the worst. Where relevant, the final column of each table contains an icon to indicate how the ranking has changed from the previous year: improvement (▲), worsening (▼), or no change (=).

Population/Demographics

- Nevada's July 1, 2015 estimated **population** is 2,890,845. (*U.S. Census Population Estimates*)
 - By Gender: Males 50.2 percent, Females 49.8 percent. (*U.S. Census, American Community Survey*)
 - By County: Clark 73 percent, Washoe 15 percent, Carson City 2 percent, and Balance-of-State 10 percent. (*Nevada State Demographer, Estimates by County*)
- Population growth** - From 2014 to 2015, Nevada's population grew 1.8 percent, which was the 3rd fastest behind Texas and North Dakota. From 2013 to 2014 it was the 2nd fastest growing state. It had been among the top four fastest growing states for each year from 1984-2007. (*U.S. Census*)
- Age distribution** - Nevada's population distribution varies slightly compared to the U.S. average. (*U.S. Census*)

Population by Age	Under 5 years	5 to 17 years	18 to 24 years	25 to 34 years	35 to 44 years	45 to 54 years	55 to 64 years	65 to 74 years	75 years and over

Economy

- In 2015, Nevada's **personal income per capita** was \$42,185 ranking 34th among states (37th in 2013 and 2014). The per capita income for the U.S. as a whole was \$47,669. The U.S. average is 13 percent higher than Nevada (15 percent in 2014). From 2003 thru 2007 Nevada's **personal income per capita** exceeded the U.S. average due to our outsized housing boom. (*U.S. Bureau of Economic Analysis*)
- The Kaiser Family Foundation measures **state economic distress** by taking into account the number of foreclosures, the change in the unemployment rate, and the change in the number of people receiving food stamps. Nevada's ranking for 2015 is 1st. Nevada ranked 4th highest in foreclosure rate after leading the nation for many years. Nevada ranked 9th in the largest drop in unemployment rate among all 50 states. Even though Nevada ranked high in the **unemployment rate change**, Nevada has the 4th highest **unemployment rate level** in the country in 2015. Nevada ranked 1st in change in food stamp participation. (*Kaiser Family Foundation, State Health Facts*)
- In October 2015, Nevada's **foreclosure rate** was 1 of every 593 homes is currently under foreclosure. This is fourth highest in the nation. Maryland was the worst state with 1 of every 466 homes in foreclosure. The U.S. average was 1 of every 1,147 homes. Nevada has consistently ranked near the worst since the housing crisis began. (*RealtyTrac*)
- Nevada's **unemployment rate** (*U.S. Bureau of Labor Statistics*)

○ Note that a rank of one indicates that state has the lowest tax burden.

- Nevada's **state government tax collections** per capita generally run about equal to the average of all other states. (Nevada along with Texas, Washington and Wyoming don't have individual or corporate net income taxes. Alaska, Florida and South Dakota have only corporate net income taxes, but not individual income taxes. All other states have both taxes.) (*U.S. Census, American Community Survey*)

State Government Tax Collections Per Capita		2006	2007	2008	2009	2010	2011	2012	2013	2014	2015	
Nevada	Per Capita	\$2,466	\$2,458	\$2,365	\$2,123	\$2,158	\$2,325	\$2,456	\$2,518	\$2,516	\$2,606	
	Rank	30	26	21	17	24	25	27	23	21	20	▲
United States	Per Capita	\$2,391	\$2,530	\$2,532	\$2,326	\$2,728	\$2,435	\$2,531	\$2,682	\$2,715	\$2,851	

○ Note that a rank of one indicates that state has the lowest tax burden.

- Nevada receives lower **federal government expenditures per capita** than all other states. (*Consolidated Federal Funds Report and U.S. Census, American Community Survey*)

Federal Spending Received		FFY02	FFY03	FFY04	FFY05	FFY06	FFY07	FFY08	FFY09	FFY10	
Nevada	\$ per capita	\$4,992	\$5,234	\$5,529	\$5,889	\$5,852	\$6,032	\$6,638	\$7,117	\$7,321	
	Rank	50	50	50	50	50	50	49	50	50	=
United States	\$ per capita	\$6,890	\$7,202	\$7,548	\$7,964	\$8,058	\$8,339	\$9,042	\$10,185	\$10,460	

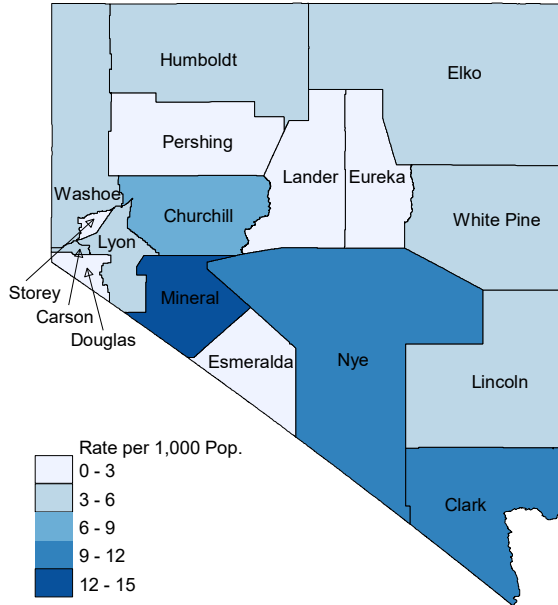

Note: The Consolidated Federal Funds Report (CFFR) is no longer published. The U.S. Census Bureau replied that any current information is not comparable.

DAFS – District Attorney Family Support
DBT – Digital Breast Tomosynthesis
DCFS – Division of Child and Family Services

Nevada Department of Health and Human Services, Acronyms

DHCFP – Division of Health Care Financing and Policy
DPBH – Division of Public and Behavioral Health
DSH – Disproportionate Share Hospitals
DSM-IV – Diagnostic Statistical Manual of Mental Disorders IV
DSRIP – Delivery System Reform Incentive Payment
DWSS – Division of Welfare and Supportive Services

E

ECHO – Extension for Community Health Outcomes
EI – Early Intervention
EITS – Enterprise IT Services
EMS – Emergency Medical Systems
EMSC – Emergency Medical Services for Children
EMR – Electronic Medical Record
EPSDT – Early and Periodic Screening, Diagnostic and Treatment Services
EQRO – External Quality Review Organization

F

FDA – Federal Drug Administration
FFI – Federal Fiscal Year
FFS – Fee For Service
FMAP – Federal Medical Assistance Percentage

G

GovCHA – Governor’s Office of Consumer Health Advocates
HAZTRAK – Hazardous Materials Notification System
HCGP – Health Care Guidance Program
HCBW-AL – Home and Community Based Waiver for Assisted Living

H

HCBW-FE – Home and Community Based Waiver for the Frail Elderly
HCQC – Health Care Quality and Compliance
HER – Electronic Health Record
HIPPA – Health Insurance Portability & Accountability Act
HPN – Health Plan of Nevada
HPV – Human Papillomavirus
HRSA – Health Resources and Services Administration
HSAG – Health Services Advisory Group

I

IAF – Indigent Accident Fund
IOP – Intensive Out Patient

L

LBGTQ – Lesbian, Gay, Bisexual, Trans-Gender, or Questioning
LCC – Lake’s Crossing Center
LHA – Local Health Authority
LLRW – Low Level Radioactive Waste
LOC – Level of Care

Nevada Department of Health and Human Services, Acronyms

LOCUS – Level of Care Utilization System
LOI – Letter of Intent
LOS – Length of Stay
LTSS – Long Term Services and Supports

M

MCHB – Maternal and Child Health Bureau
MCO – Managed Care Organizations
MERS – Middle East Respiratory Syndrome
MICPD – Medicaid Incentives for the Prevention of Chronic Disease
MITA – Medicaid Information Technology Architecture
MMIS – Medicaid Management Information System
MOE – Maintenance of Effort

N

NASADAD – National Association of Alcohol and Drug Abuse Directors
NET – Non-Emergency Transportation
NF – Nursing Facility
NHA – Nevada Hospital Association
NHIPPS – Nevada Health Information Provider Performance System
NICHQ – National Institute for Children’s Health Quality
NIDA – National Institute on Drug Abuse
NIS – National Immunization Survey
NITT-AWARE-SEA- Now Is The Time-Aware-State Educational Agency
NNAMHS – Northern Nevada Adult Mental Health Services
