

Nevada Public Health Training Center

Health in All Policies 2021 Status Update

With the achievement of health equity being more important now than ever, the Nevada Public Health Training Center has engaged in a project that has successfully aligned public health with non-traditional sectors to improve health outcomes for Nevada’s residents. The Health in All Policies initiative has and will continue to allow us to train and guide Nevada’s workforce in intersectoral collaboration to address the conditions in which we live, work, and play. With continued community buy-in and partnership to incorporate and attain Health in All Policies, Nevada continues to Make Health Happen.

DELIVERABLE	UPDATE	STATUS
1. Develop, implement, and evaluate an assessment survey of at least 20 community stakeholders to determine training needs related to Health in All Policies.	<ul style="list-style-type: none"> Approximately 2000 stakeholders including government agencies and non-profit organizations were contacted regarding Health in All Policies with a response rate 25%. Potential Pilot sites were identified Advisory Board of about 15 active members were formed. 	
2. Develop a “findings report” to guide curriculum development	<ul style="list-style-type: none"> Results of assessment were compiled with community interest/awareness of HiAP used to guide topics to be included in trainings (Feb. 2020) Findings also used to recruit pilot agencies based on community stakeholder-indicated need
