Background

The following report considers the cost of providing Medicaid services to members who work for an employer with 50 or more employees for State Fiscal Year (SFY) 2021. This report is produced annually as a requirement of NRS 422.27482 of the 2017 Legislative Session. NRS 422.27482 requires "... the Department of Health and Human Services to prepare an annual report which lists all employers in this State which have 50 or more employees and the number of full-time employees of such an employer who are enrolled in Medicaid."

Technical Notes

Determining if a company has employees enrolled in Medicaid was done by matching Medicaid members to records in the Nevada Department of Employment, Training, and Rehabilitation (DETR). This match provided quarterly wage information and identification numbers of the employers for whom Medicaid members worked during each quarter of SFY 2021.

Employment was then defined using the wage threshold associated with earning minimum wage in Nevada. More specifically, the group of Medicaid members presented in this report represents employees who earned \$3,840.00 or more in gross wage earnings for any 12-week consecutive period (one quarter) in SFY 2021, as reported to DETR. This gross quarterly wage represents the minimum wage of \$8.00 an hour paid to employees who worked 40 hours per week.

DETR also supplied a file with the employer identification number, company name, and address for employers in Nevada with 50 or more employees. The wage file and employer file were then combined to identify which Medicaid members were employed by companies with 50 or more employees. It is important to note that a Medicaid member may have had more than one employer during the year. The total cost to Nevada Medicaid represents a distinct cost to the state. However, the cost associated with each company considers the complete cost of the employees and dependents of that company and may be duplicated across companies when an individual is employed by multiple employers during the fiscal year.

To determine the dependents of Medicaid members who worked for a company with 50 or more employees, corresponding case IDs (ICIs) were identified for the list of Medicaid members who work for companies with 50 or more employees and all other members of the case were counted.

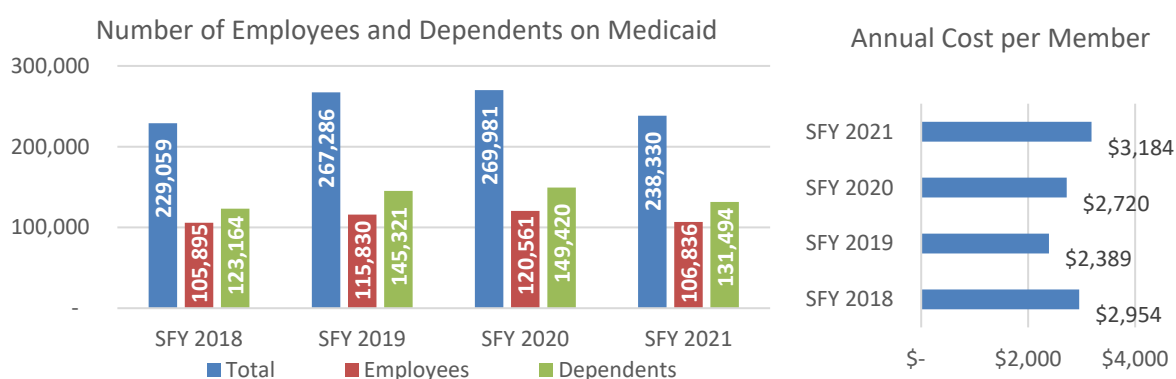

Determining whether or not an employer offered health coverage benefits was done by matching the employer's Employer Identification Number (EIN) against the Department of Labor's Employee Benefits Security Administration's database of Form 5500's filed by the employer. Form 5500 identifies the different welfare, health, and pension plans offered by an employer. A value of 4A in line 8b on Form 5500 indicates that the employer offers a health benefits plan and a value of 4U in line 8b on Form 5500 indicates that the employer has a collective-bargained welfare arrangement. However, not all employers need to file a Form 5500 and may offer health benefits to their employees. The Division of Insurance does not currently track which employers offer health insurance benefits unless there is a consumer complaint.

Results

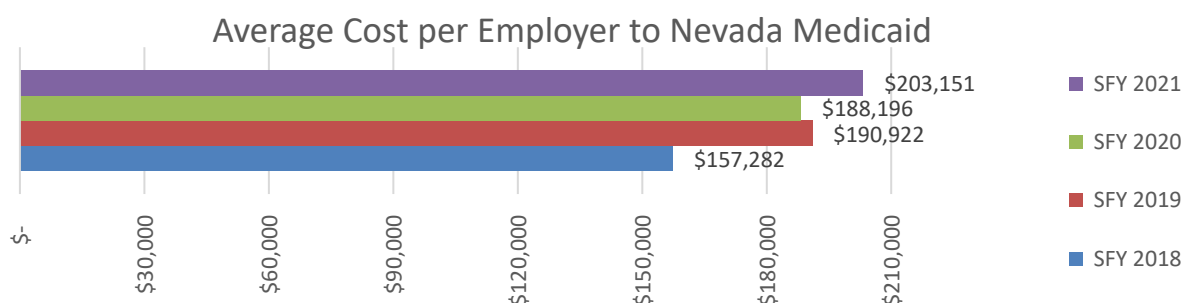

In SFY 2021 there were 106,836 Medicaid members employed by employers with 50 or more employees and 131,494 dependents of those members. The total cost of providing health care to these employees was \$471,010,521. The total cost for providing health care to the dependents of these employees was \$287,746,441. Combining these results, the overall cost of health care to these Medicaid members was \$758,756,963.

	SFY 2018	SFY 2019	SFY 2020	SFY 2021
Cost to Nevada Medicaid	\$ 676,547,896	\$ 638,563,801	\$ 734,322,050	\$ 758,756,963

Over the past four state fiscal years, the annual average cost per this subset of Medicaid members and their dependents has increased from \$2,954/member in 2018 to \$3,184/member in 2021. The overall cost to Nevada Medicaid has increased, due to most employees and their family members having coverage over the twelve-month period. A pause was placed on redetermination due to the COVID-19 pandemic. The eligible population mostly maintained their coverage over the one-year period.

These companies with 50 or more total employees had an average of 30 employees on Medicaid and 33 dependents associated with these employees on Medicaid, with an average cost to Nevada Medicaid of \$203,151 annually and a median cost to Nevada Medicaid of \$79,024 annually.

As shown in the table below which displays the companies who made up the top ten employers when ranked by the number of employees and dependents on Nevada Medicaid, this average is highly skewed by the top few employers causing the average cost to Medicaid (\$203,151) to be up as compared to SFY 2020 average cost to Medicaid (\$188,196). For example, the health care coverage costs associated with Medicaid members who were employed by Amazon.com Services Inc. (and their dependents) alone cost Nevada Medicaid \$43,222,910, a 103% increase from the previous year.

- Amazon.com Services Inc. is the leading employer of Nevada Medicaid recipients with a total of 14,331 employees and dependents on Medicaid.
- Wal-Mart Associates Inc. was the leading employer of Nevada Medicaid recipients consistently from SFY 2017 through SFY 2019 but is now ranked second to Amazon in SFY 2020 and SFY 2021.
- Clark County School District was ranked second in SFY 2019 but has subsequently moved to the third place in SFY 2020 and SFY 2021.
- Smith's Food and Drug Centers Inc. has maintained their fourth position for 3 years in a row, SFY 2019 through SFY 2021.
- Sitel Operating Corporation, State of Nevada, and Universal Protection Services LLC. are in the top 10 for the second year in a row.
- Nevada Restaurant Services Inc. is included in the top 10 employers for the first time this year.
- Tesla Inc. is included in the top 10 this year and SFY 2019.
- Albertsons LLC. Has maintained the number 9 position this year and SFY 2020.
- Sutherland Global Services, Peppermill Casinos, and Aria Resort & Casino LLC were in the top 10 in previous years but have moved out of the top 10 in SFY 2020 and SFY 2021.

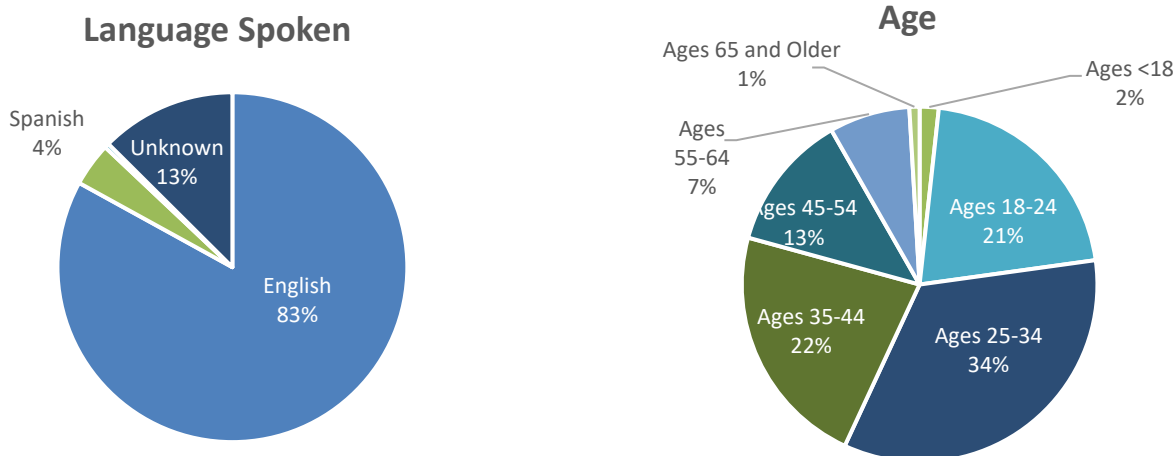

Employee Demographics

Most of the Nevada Medicaid members employed by companies with 50 or more total employees lived in Clark County (77%), with 13% in Washoe County and 9% in the Rural counties. Region of residence was unknown for 1% of these members. Thirty-two percent (32%) were Caucasian, 34% were Hispanic, 23% were African American, and 11% were of another race/ethnicity.

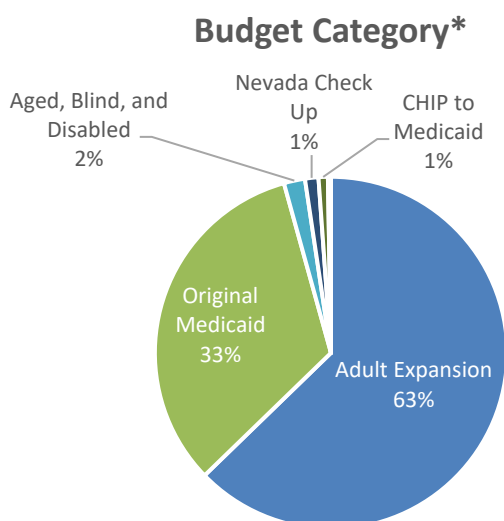

Most of these Medicaid members spoke English as a primary language (83%), with 4% listing Spanish as their primary spoken language. Another 13% had an unknown primary spoken language.

Twenty-one percent (21%) of these Medicaid members employed by companies with 50 or more total employees were 18-24 years old, 34% were 25-34 years old, 22% were 35-44 years old, 13% were 45-54 years old, 7% were 55-64 years old, and 1% were 65 years old and older. Age was unknown or listed as less than 18 for 2% of these members.

Most of these Medicaid members were eligible for Medicaid under the Adult Expansion budget category (63%). Thirty-three percent (33%) were eligible under Original Medicaid, 2% were eligible under the Aged, Blind, and Disabled category, 1% were eligible under Nevada Check-up, and 1% were eligible under Children's Health Insurance Plan (CHIP) to Medicaid.

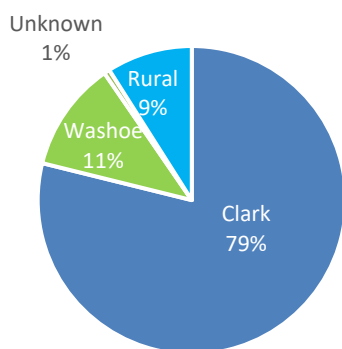

**Budget Categories that are not displayed here made up less than 1% of this caseload. These include Waiver, County Match, Child Welfare, and Child Welfare – State Only.*

Dependent Demographics

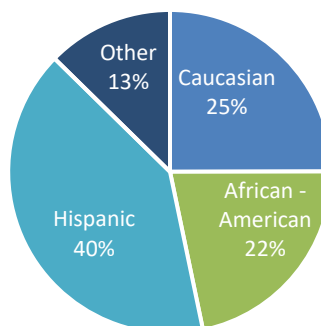

Most of the dependents of these Medicaid members employed by companies with 50 or more total employees also lived in Clark County (79%), with 11% in Washoe County, 9% in the remainder of the state, and 1% with unknown address information.

Twenty-five percent (25%) were Caucasian, 40% were Hispanic, 22% were African American, and 13% were of another race/ethnicity.

Region

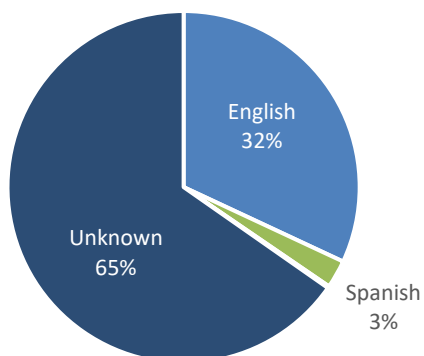

Race/Ethnicity

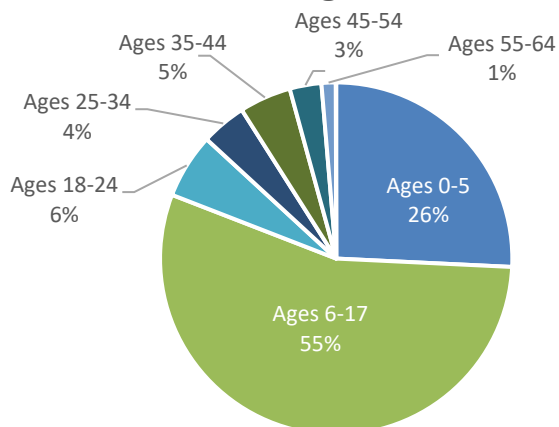

Language information was unknown for most of the dependents (65%). Thirty-two percent (32%) spoke English as a primary language, and 3% listed Spanish as their primary spoken language.

Twenty-six percent (26%) of the dependents were 0-5 years old, 55% were 6-17 years old, and 19% were 18 years old or older.

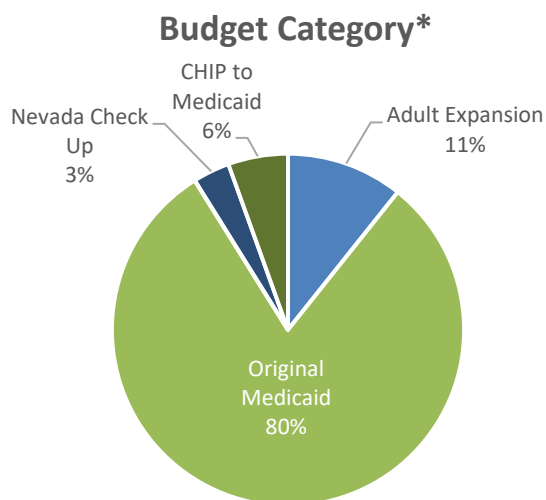

Language Spoken

Age

Most of the dependents were eligible for Medicaid under the Original Medicaid budget category (80%). An additional 11% were eligible under Adult Expansion, 3% were eligible under Nevada Check-up, and 6% were eligible under CHIP to Medicaid.

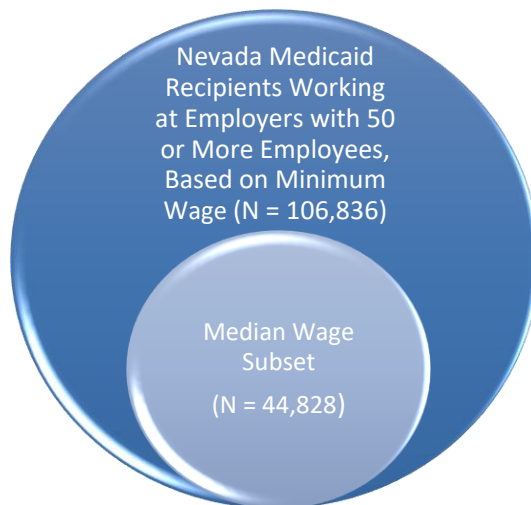

**Budget Categories that are not displayed here made up less than 1% of this caseload. These include Aged, Blind, and Disabled, Waiver, County Match, Child Welfare, and Child Welfare – State Only.*

Median Wage Subset

It may also be of interest to consider the number of these employees who earned enough in wages to meet the quarterly wage threshold associated with the median Nevada wage (more specifically, the subset of these Medicaid members who earned \$8,904.00 or more in gross earnings in a quarter). This gross quarterly wage represents the median wage in Nevada as of May of 2020, according to the Bureau of Labor Statistics, of \$18.55 an hour.¹

Out of the 106,836 Medicaid members employed by employers with 50 or more employees who earned \$3,840.00 or more per quarter, 44,828 Medicaid members (42%) earned \$8,904.00 or more in gross earnings in a quarter. There were also 52,021 dependents associated with the Medicaid members in this subset. The demographics associated with this subset did not differ significantly from the demographics of the larger pool of Medicaid members and dependents considered in this report.
